ASSURANCE.
THE EQUITABLE LIFE
Assurance Society of the United States.
120 BROADWAY NEW YORK
Assets, \$38,000,000.
Surplus, \$7,500,000.

The Popularity of the Equitable Life Assurance Society, indicated by the fact that for Eleven years its average annual New Business has been larger than that of any other Company in the world, is due, in a great measure, to its well-known promptness in the payment of Death Claims, and its rule never to take advantage of technicalities where an equitable claim exists.
As a GUARANTEE of this, and to counteract the pernicious influence of a technical policy, adhered to by many companies, the Equitable makes ALL ITS POLICIES, old and new, throughout the United States.

ABSOLUTELY INCONTESTABLE,
After the policy has been in force for three years.
"The Equitable Life has paid since its organization to January 1st, 1880, \$51,882,736, and closed its books upon that date without a contested or past due claim."

The Equitable Life Assurance Society was the first to introduce the
TONTINE SAVINGS FUND POLICY,
And thereby to popularize life insurance to a degree before unknown.
By the late report of the Insurance Commissioner for the states of Massachusetts and New York, the Equitable Life Assurance Society shows the following strong points:
FIRST--The Equitable has a larger ratio of assets to liabilities than any of the leading companies.
SECOND--The Equitable saved more of its income last year than any other company.
THIRD--The Equitable's death rate was less last year than any other of the leading companies.
FOURTH--The Equitable realizes a higher rate of rent, or interest, on real estate than any other company.

The Society takes pleasure in referring to the following well known business men insured in the society, composing an

CHILDREN POISONED.
CHICAGO, ILL., Sept. 28.--Two children, named Narcissa Rosinsky, aged 5, and George M. Ryan, 3 years old, living with their parents at 75 and 81 West Division street, were poisoned last evening by eating the seeds of a weed well known by the name of "Thorn apple" and "Jimson weed." Physicians were called in, but found that the poisonous stramonium contained in the seeds had entered fully into the system, and they could do very little toward saving their lives. Narcissa died to-day at 10 o'clock, and the boy is not expected to live much longer. The deadly weed by which they were poisoned grows in great abundance in the vicinity where they lived.
KILLED BY AN ELEPHANT.
RICHMOND, Va., September 28.--An elephant belonging to John Robinson's circus got loose here to-day while removing the animals from a freight car on the North Carolina railroad. The car on which this elephant the largest of the three, called Chief, had been brought from Concord was standing just above the Trade street crossing, and a large crowd had gathered around to watch the process of unloading. Immediately after giving warning to the bystanders, John King, a powerful-built man, stepped around to Chief's head, and was in the act of turning him around when the crowd heard him call the elephant by name in a frightened tone, and the next moment they saw the enraged animal turn upon his keeper and crush him against the car. King sank to the ground without a groan, and the men who were with him fled precipitately. The crowd scattered up Trade street, and the wildest confusion followed. The men were afraid to approach the infuriated animal and King was allowed to remain for several minutes on the ground where he had fallen. The elephant surveyed the scene for an instant gave a short snort and started at a brisk pace up the railroad track. As soon as he was out of reach King was picked up apparently lifeless and conveyed across the street to a barber shop, where several doctors were summoned. The report getting abroad that the infuriated animal was loose, created intense excitement among the population. A party was soon organized to capture the elephant, but before the plan could be carried out he was captured by the circus men. King, after lingering for some time died this afternoon. The affair has created considerable excitement. King died about the hour that the news of the death of John Robinson at Cincinnati was flashed over the wires.

of a pocket-knife. A physician was sent for, but nothing could be done for the sufferer but as much as possible to ease the pains, which were most intense for six hours, when death relieved him of further suffering.

The boy weighs 105 pounds and measures 36 inches around the waist. He was born with six toes on each foot and has thirteen fingers. The girl weighs 94 pounds and is 37 1/2 inches high. She also has six toes on each foot and eleven fingers. The father and mother are small people. The Meridian Mercury wants the county fair to exhibit them. The father is named T. G. Lacy.

DETROIT, Mich., Sept. 28.--A terrible threshing-machine accident occurred in Sharon Township, Washtenaw county, Saturday last. A young man named Willie Mayer, attempted to climb over the machine on to the scaffold in the barn, when by a misstep he lost his balance and fell into the cylinder. The machine was stopped as soon as possible, but not before he had passed with both legs into the iron-jawed monster clear up to the waist. The men who were present were unable to remove him from the teeth of the machine until they amputated one of his feet by the aid
