MANY MISERABLE PEOPLE drag themselves about with failing strength, feeling that they are steadily sinking into their graves when, by using Parker's Ginger Tonic, they would find a cure commencing with the first dose, and vitality and strength surely coming back to them. See other column.

It acts upon the Liver, It acts upon the Kidneys, It Regulates the Bowels, It Purifies the Blood, It Quiets the Nervous System, It Promotes Digestion, It Nourishes, Strengthens and Invigorates, It Carries off the Old Blood and makes New, It Opens the Pores of the Skin and induces Healthy Perspiration.

It neutralizes the hereditary taint, or poison in the blood, which generates Scrofula, Erysipelas, and all manner of Skin Diseases and internal humors. There are no spirits employed in its manufacture and it can be taken by the most delicate babe, or by the aged and feeble, care only being required in its attention to directions.

MRS. WOOD, Centre Hill, White Co., Ark.

This is to certify that I was afflicted with Palpitation of the Heart for many years. I tried different doctors, whose prescriptions tended more to weaken me than they did to strengthen. I at last resorted to try Dr. Clark Johnson's Indian Blood Syrup, which proved to be a positive cure—not only curing the Heart Disease, but also a Sick Headache which had been troubling me.

MRS. MARY A. SEAL, I was afflicted with Liver Complaint and Dyspepsia and failed to get relief, although using medicines from our best doctors. I commenced using Dr. Johnson's Indian Blood Syrup, and a short trial cured me.

How to Sleep in a Sleeping-Car.

1. Get a berth in the fore part of the car. This is because the pure air comes in at the front end and windows. I always take the front upper berth. My reason for taking the upper berth is because it is freely ventilated and away from the head pipes. 2. Have your berth made up hot toward the engine. This will keep all draughts of air from your head and prevent taking cold. If the car is very tight put a lead pencil under the window at your feet in case of lower berth; or, in case of the upper berth, open the hind sky window at your feet. 3. Fix your pillow in one corner of your berth, and your feet in the other. By lying crosswise you will not roll in your berth.—Hotel Reporter.

The cow's cud is the true food for reflection.

Economical Devices.

People who reside in crowded cities are desirous of economizing space, are glad to use a peculiar kind of furniture, which is made to serve two or three purposes at once. An elaborate writing desk, with ink, pens and paper, is really a wash stand. An elaborate etagere, or book-case, is a bed or a wardrobe. A chair can be changed into a foot-tub. A "chromo" proves to be a looking-glass; a sloop-bucket and picher and basin is a praying stool; and a candelabra with wax candles proves to be an arrangement for concealing towels and tooth brushes. Why can't the piano be made to serve a double purpose?

It has lately been discovered that Denver has in its vicinity every essential for the manufacture of fine glass, including sand closely resembling that which gives French plate glass its superiority.

"Female Complaints."

Dr. R. V. Pierce, Buffalo, N. Y.: Dear Sir.—I write to tell you what your "Favorite Prescription" has done me. I had been a great sufferer from female complaints, especially "dragging-down" for over six years during much of the time unable to work. I paid out hundreds of dollars without any benefit till I took three bottles of the "Favorite Prescription" and I never had any thing do me so much good in my life. I advise every sick lady to take it. Mrs. EMILY RHOADS, McBrides, Mich.
