

THE DAILY BULLETIN

OFFICE: NO. 78 OHIO LEVEE.

ENTERED AT THE CAIRO POSTOFFICE FOR TRANSMISSION THROUGH THE MAILS AT SECOND CLASS RATES.

OFFICIAL PAPER OF CITY AND COUNTY

SPECIAL LOCAL ITEMS.

Notices in this column, eight cents per line for first and five cents per line each subsequent insertion. For one week, 30 cents per line. For one month, \$1.00 per line.

Electro Vapor and Medicated Bath, a sure cure for Chills and Fever, Rheumatism, Catarrh, Neuralgia, and all skin diseases and blood poisons.

Big Auction Sale of Fine Furniture. Commencing on Friday, November 3d 1882 at 10 a. m. at Winter's Block, comprising the outfit of 25 furnished rooms.

Go to Jeff. Clark's for fancy window shades and everything pertaining thereto. Mr. Joseph Roncker is now established in his new quarters at the corner of Fourteenth street and Washington avenue.

Finest lot of window curtains in the city at Jeff. Clark's.

GOOD READING FOR THOUGHTFUL PEOPLE.

SHOULD BE CAREFULLY READ THAT CORRECT CONCLUSIONS MAY BE ARRIVED AT.

PAUL G. SCHUH.

DEAR SIR:—Recognizing the fact that there is to a certain extent, a mutual dependency existing between the professions of pharmacy and medicine, and feeling that a better understanding of the function and duties of the two professions should be recognized and adhered to, we, of the medical profession of Cairo, object to the frequent habit of druggists of this city, of diagnosing diseases and prescribing medicines, for the following reasons:

First. The science of pharmacy does not include a knowledge of the science of medicine.

Second. You are violating the medical practice act, by so doing, and robbing the physicians of their legitimate business.

Third. You are practising deception upon the sick; therefore we ask you to adhere to the law governing the practice of medicine.

Another grievance to which we respectfully ask your attention, is the matter of refilling prescriptions without authority of the physicians who have written them.

The above practice is injurious to both patient and physician; the patient often suffering from the effects of improper medicine, and the physician because he is practically held responsible for the action of the medicine he did not prescribe.

Again we hold that the original owner of the prescription loses his ownership in the same, as soon as it is once filled and placed on file, and that he has no right to demand that it be taken from the file and be refilled, except by the order of the prescribing physician. We therefore ask you to discontinue the practice.

After due deliberation, we the undersigned members of the "Medical Association of Cairo" have resolved not to patronize directly or indirectly, any druggist, who shall after this date, be known to prescribe for any one requiring the services of a physician, or who shall refill or duplicate prescriptions without the written or verbal authority of the physician. Respectfully, W. R. SMITH, Pres. J. C. SULLIVAN, V. P. G. Y. PARKER, Sec'y. J. J. GORDON, J. H. BRYANT, C. W. DUNNING, D. H. PARKER, J. S. PETERIE.

To the Public: Although the above resolutions speak for themselves, and although any unprejudiced person can readily read between the lines the real motives prompting the Cairo Medical Association to issue such a proclamation, I feel like making a few remarks:

I, for my part, do not know that I have been deceiving the public during the last 19 years past and do not intend to deceive it now, on the contrary, I will try, in the future, as I have in the past, to mind my own business and attend to the wants of my patrons to the best of my ability. I am neither desirous nor desiring any one's patronage, but my aim is to please each and every one, who kindly favors me with their calls. Respectfully, PAUL G. SCHUH.

Established 1863.

Best Oysters in market at DeBau's 56 Ohio levee.

A Fine Barber Shop. Wm. Albin, on Commercial avenue, has the most extensive and as fine an equipped barber shop as can be found in any city.

His employees are masters in the trade, whose razors are always smooth and keen.

His establishment is large enough to meet any demand upon it without any tire some waiting; and his patrons go away pleased with him themselves and his work. Give him a trial.

New Blacksmith Shop. A new horse shoeing shop has been opened by Mr. P. Powers on Teuth street. All manner of blacksmithing and wagon work done to order. Repairing work a specialty. Work done promptly.

For Oysters go to DeBau's, 56 Ohio levee.

Fresh Oysters at DeBau's, 56 Ohio levee.

ICE! ICE!! PHOENIX!

Out of the fire, cor. of 8th and Levee, my ice house and office is at present at the City Brewery, on Washington avenue, between 8th and 9th streets. Orders will be filled same as usual, both wholesale and retail. Wagons supply regularly every day. JACOB KLEE.

COTTON-PICKERS

WANTED IMMEDIATELY

on the plantations of J. W. Jefferson, adjoining the village of Osceola, Ark. Good wages and prompt weekly cash settlements. J. W. JEFFERSON & Co., Memphis, Tenn.

Use THE CAIRO BULLETIN perforated scratch-book, made of calendered jute manilla, equally good for ink or pencil. For sale, in three sizes, at the office. No. 2 and 3, five and ten cents each by the single one, by the dozen. Special discount on gross lots to the trade.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a minister in South America. Send a self-addressed envelope to the Rev. JOSEPH T. ISMAN, Station D., New York City.

Don't fail to stop at Joe Roncker's Post Office saloon for refreshments of the best sort. Imo.

Go to Jeff. Clark's for fancy window shades and everything pertaining thereto.

Mr. Joseph Roncker is now established in his new quarters at the corner of Fourteenth street and Washington avenue, and invites his friends to call on him. Imo.

Receipt books, Cairo date line, perforated stub, suited to any business, manufactured and for sale at the Cairo Bulletin Office.

The Post Office saloon by Joe Roncker is one of the coolest, quietest, neatest and best supplied resorts in the city. Imo.

Window shades and fixtures at Jeff. Clark's.

50c. per Can, Extra Selects, at DeBau's.

Old Machinery Castings Wanted at Renna's new foundry for which the highest prices will be paid in cash. Call at No. 93 Ohio Levee. JOHN T. RENNE.

GENERAL LOCAL ITEMS.

Notices in these columns, ten cents per line, each in insertion and whether marked or not, if calculated to forward any man's business interest are always paid for.

School children will find THE BULLETIN scratch-books Nos. 2 and 3 for sale at P. L. Saup's candy store.

The "German" will not be a popular dance in Republican society circles this winter.

The city council meets next Tuesday night in first regular session during this month.

Sale may be found for a good second-hand shot gun; read the advertisement among small notices.

The Methodist young ladies will give their entertainment for the benefit of the church next Thursday evening.

The board of directors of the Cairo street railway company is to meet next Monday, that being its regular monthly meeting day.

Within the week a fine son was born unto Mr. and Mrs. Louis Herbert, and an equally fine daughter unto Mr. and Mrs. T. W. Halliday.

"Jim" Orange created a disturbance up-town again yesterday morning. He was arrested and fined six dollars and costs by Magistrate Comings.

Mr. Samuel Orr has taken charge of the government coal float, and he has been temporarily succeeded in the office of wharf-master by Mr. John Cain.

The very latest wedding and ball programme stationery, also New Year cards, worth \$7.00 to \$15.00, the dozen cards may be seen at THE BULLETIN job office.

The amount of the appropriation for completing the new state house at Springfield, for or against allowing which the people will vote next Tuesday, is \$531,712.18.

The big sale of furniture will be resumed this morning at 9 1/2 o'clock at Winter's Block. The best furniture was reserved for this morning's sale. Attend early if you want good bargains.

How will Mr. Stratton, the Prohibition, Republican candidate for state superintendent of public instruction reconcile himself to the whisky resolutions of his Republican friends in Cook county?

Mr. John E. Henderson leaves this morning for Ballard county, Ky., to be gone for several days on a visit to his aged mother whom he has not seen for some time. He will be accompanied a portion of the way by Miss Mattie Petrie.

Yesterday Mr. H. H. Candee distributed his fancy telephone directories among the subscribers of the exchange, and the compliments which are expressed on all hands prove how great a want they supplied and how highly they are appreciated.

The J. W. Kimball Co. have established an agency for the sale of organs and pianos in Mrs. McCarthy's new brick, on Commercial avenue. Several car-loads of fine instruments have been opened, and are ready for the inspection of the public.

A young negro named Gilbert Cannon, who is a very "mean nigger," they say, systematically imposing upon and maltreating smaller boys, was arrested yesterday morning, just after having played his pranks upon a little fellow not much more than half his size. Magistrate Comings fined him five dollars and costs.

No rain was reported from any of the twenty-one points mentioned in Sergeant W. H. Ray's weather bulletin last evening. The thermometer ranged between 48 and 70 degrees above zero. At this point it marked 65.

All the plaining mills in the city have been rushed with work this season. Mr. S. Walter's mill has been busy for several days, and will probably be busy for several weeks, dressing a quantity of lumber for the Singer manufacturing company.

Col. Lowe, of Palaski, was in the city yesterday, looking for a site for a manufacturing establishment to obtain an estimate of the cost of manufacturing his patent hay, cotton or tobacco press, L. T. R. patent having been issued to him October 24th ult. The principle is entirely new and mechanics generally consider it bound to be a success.

An agreement was entered into this Monday evening between the pugilists John L. Sullivan and James Elliott to fight with small soft gloves four rounds in a 24 foot ring, December 9th, either in Chicago, Milwaukee or Pittsburg. Sullivan agrees to give Elliott \$500 and the gate receipts if he does not knock him (Elliott) out of time before the expiration of four rounds.

Mr. F. H. Thurman, proprietor of the Wickliffe Tribune, offers his paper for sale because failing eyesight renders it difficult for him to continue its publication. The paper is one of the neatest and liveliest little country exchange we get, shows every sign of prosperity and popular good will, and would be a good investment for a live young man.

Two over-grown boys were pelting each other with rocks and dirt on the lower portion of Walnut street yesterday morning and one of the misers struck a passing horse hitched to a delivery wagon. The animal made frantic endeavors to run, but the brave driver, a mere youth, turned him into a fence near by and thus prevented a run-away.

About this time compositions about the "grey mantle of October" and about "the deep green of the pines being reflected upon the Turquoise bloom of the autumn skies," give place to prosy matter-of-fact politics in the newspapers of the country. Yet a little while, however, and this will be no more. But while the political tide lasts all ought to feel an interest in it, anyhow. If there were less apathy upon the subject we would have better governments.

A case to which the city of Cairo was a party was brought in the supreme court at Springfield a few days, and the city officials were summoned to appear there within the last few days. The case was one in which a mandamus was asked for by a holder of the city's bonds, requiring the payment of interest thereon. Corporation Counsel Gilbert gave the case his attention and no city officer had to appear.

Sergeant W. H. Ray's monthly report for October tells us that the highest temperature at this point during that month was on the 3d and 4th, and was 81; the lowest was on the 21st, 45. The prevailing direction of the wind was southwest, and the total movement thereof was 4,744 miles. The highest velocity was reached by the wind on the 30th and was at the rate of 32 miles per hour. Rain fell on seven days during the month.

We wouldn't have it go out for the world, and only impart the secret in the strictest confidence, but if Hon. Thomas M. Logan would just wear the red in the button hole of his coat, instead of—oh, eh, we mean, if he would just part his hair exactly in the middle, it would be a brilliant exploit; he would not only help his chances of election amazingly, but he would have a mortgage on the fair sex as big as a barn.

The iron water pipe for Mr. W. R. Halliday's mills came out alright in the trench back of the mill, not varying a foot from the point where it was intended to come. The statement that from twenty to thirty feet more pipe had been forced in at the other slope, than was necessary to reach through the levee, was an error—a mistake had been made in counting the number of sections of pipe used. Men are now at work connecting the pipe with the pumping apparatus of the mill.

Captain W. P. Halliday is having an elevated roadway built in the lumber yards of his saw mill, on a level with the floor of the mill. The roadway is about fifteen feet high, is all built of heavy timber, in a very substantial way. The main track leads from the mill, along Thirty-fourth street, to Popular street, and from this main track twenty-five or thirty others will branch out at right angles, to every part of the yards. The lumber as it comes from the saw in the mill, will be loaded upon carriages, which will be drawn by mules to any part of the yards desired.

Mr. John C. Gault, second vice-president and general traffic manager of the Wabash railway, who is in Chicago, stated that the report in Tuesday's Tribune that the headquarters of the Wabash would be removed to Chicago at an early date is correct. The company finds, Mr. Gault says, that Chicago is the place where the bulk of Wabash business is now transacted, and it therefore becomes

virtually necessary to remove the headquarters of the traffic department to this point. The removal will be made as soon as suitable offices can be secured.

Circuit Court did not convene yesterday, but will this morning at the usual hour. The cases set for trial to-day are Emma F. Knight vs. Thomas Wilson, Peter Neff vs. Robt. Smyth, Wm. Porter vs. Smith & Bro. and J. A. Sullivan use etc vs. Chas. Keohler.

About one hundred and twenty-five persons gathered at the court-house last night to hear Hon. Ben. O. Jones and Hon. Milo Irwin give forth Republican taffy. All but about twenty-five were gentlemen of color. Nothing worthy of refection was said by either of the speakers, though they were frequently applauded.

With the close of October, trade is found in somewhat of an unsteady condition. The excellent weather of the past few weeks led inspiration to the bearish tone of the local market, but with the opening of November, and the very evident opening of the wet season, an unsteady and fluctuating market may be anticipated during the present month. The activity in the corn market, which was steadily maintained throughout October, will before the close of November find itself transferred to wheat and cereal will, judging from present advices from at home and abroad, be given its actual value, while at present it is arbitrarily reduced.

Articles of incorporation have been filed with the secretary of state by the Springfield & Southern Railroad company, which proposes to construct a road from Springfield, in a southerly direction, to a point upon the east bank of the Mississippi river in Jackson county, with a branch line in Montgomery or in Madison county and running thence to East St. Louis. The principal office of this corporation is to be located at Mattoon, with the privilege of removal to Springfield or any other point on the line. The capital stock is fixed at \$500,000, with the privilege of increasing the same to \$3,000,000, and the incorporators and first board of directors are Duncan C. McIntyre, Ira James and Charles M. Dale, Mattoon; James C. Conkling and John M. Palmer, Springfield.

The Illinois oat crop of 1882, of 99, 275,380 bushels, is the largest ever produced in the state, and exceeds by 24,274, 380 bushels, the largest crop (1875) heretofore produced in the state. The oat area of 2,460,655 acres just harvested, is the largest ever seeded, and the average yield per acre of 40 bushels has been never approached for over 20 years. The quality is generally good, and the complaints of low grade oats are the exception. A large portion of the crop has been threshed, and the amount damaged by rain before stacking or threshing is quite limited. The crop is remarkable, both as to extent of yield and good quality. The acreage of this crop, as returned by assessors in 1882, more nearly approaches the full extent of this crop than heretofore.

Since the Ohio election, the Germans of the country generally are bent upon reforms of various kinds. And these attempts at reform are not confined to politics alone either, but will extend even to orthography. A movement is spoken of in this city to organize a society of Germans, whose object it shall be to act in conjunction with similar societies in this country and Europe, in an endeavor to reform spelling in the German language. The reform will be similar to that sought to be inaugurated by Americans in the English language, except that the war will be made more directly upon the consonants instead of the vowels. Under this new system Rath (council) becomes Rat, and tott (dead), tot. It is to be hoped that however no innovator, will be allowed to interfere with our good old Lebensversicherungsgesellschaft (lifeinsurance company).

Rev. Gordon, of Jackson county spoke to about fifty people at the hall of the Reform club on Eighth street last night. The audience was a mixed one in every way. There were ladies, girls men and boys, Republicans, Democrats and Prohibitionists, Greenbackers and "crosses" between all. There were about thirty men. Those not of the Prohibition faith were doubtless drawn there by the announcement that Hon. Thomas M. Logan would address the meeting. But these were disappointed, for Mr. Logan did not appear. Mr. Gordon's speech was a sort of milk-and-water, shadow-soup, cheap-boarding-house office, decide dly homoeopathic speech. It was devoid of all force—at least such portion of it as we heard was. Only a simple, poorly informed man will say that if the manufacture of whisky were suddenly stopped in this entire country, the effect upon the corn market would be no more than if corn were withheld from chickens, or than the Mississippi river would be affected if he were to spit into it. And he reiterated this statement in deep earnestness, saying that he knew whereof he spoke, and spoke facts. If this drivel was a fair sample of the entire speech (and we have reason to believe that it was) then there is no possibility that it had any different effect upon the minds of those present, than tepid water has upon an empty stomach. But Mr. Jordan had the respectful attention of the little audience throughout his talk. The meeting adjourned about 9 o'clock.

"Free trade," say the protectionists, would blow out every furnace, shut down every mill, and practically re-establish slavery by degrading American labor." According to political economists, a tariff for revenue only, such as England has, is "free trade." What are some of the effects of the great tariff reform in Great Britain? Why, she sells four or five times as much as we do to Brazil, the Argentine Republic, Chile, Peru; she beats us in Central America, selling nearly thirty times as many cottons, and in Mexico, right at our own doors, she sells more than three times as many cotton goods. Great Britain has 3,000,000 tons more shipping, than all the other nations have combined, and her own tonnage has increased over 500 per cent. since the British Parliament repealed the absurd navigation laws, part of the abominable system of protection which hindered her commerce for centuries.

The readers of THE BULLETIN will remember the murder of a man named Henderson, in Ballard county, by another named J. W. Parker, some time ago. A dispatch from New Orleans, under date of October 26th, says: "J. W. Parker, the man who shot and killed Henderson at Wickliffe, Ky., in March last, was arrested at Orange, Texas, on the 24th inst., while being conducted from that place to Kentucky under the charge of Sheriff P. H. Gupion, of Ballard county, Ky., and a guard named Johnson, successfully hoodwinked them both, and upon a pretext that he wanted a private conversation with his wife, who was on the train, took advantage of a slackening of speed and leaped off, two miles west of Scott's Station, at 8 o'clock yesterday morning, and has not been re-captured. The fact that Parker's crime was committed in self-defense and that his family are highly respectable people becoming known among the passengers, the excited condition of the Kentucky sheriff was the cause of much merriment.

Venor made a most dismal failure in his prophecies for October, and he has demonstrated himself to be utterly untrustworthy at all times and at all seasons. He has the impudence to put out his black-board for November, however, as follows: A good amount of rain probable, with a frosty snap about the 3d or 4th, and scattered snow flurries through western and northern sections. The neighborhood of the 7th probably stormy with rain, sleet or snow, also 11th and 12th wet and dreary. Probably fair in most sections up to 14 or 15. After these dates very stormy weather, with heavy snow falls, will prevail over a large portion of the United States and Canada. Snow probable in Arkansas and Missouri; storms at St. Louis. Cold in Northwest; cold and stormy in Scotland and England; 18th and 19th very stormy weather and snow-falls general. Cold snap due about 20th and 21st. Frosts far to the southward, neighborhood of the 24th and 25th snow-storms, and Newfoundland gulf gales. "26 to 30—High winds in northern sections entry of week. Storms Scotch coast and generally on Atlantic. Prevalent winds north westerly and westerly." This may or may not be fulfilled. Most anybody can sit down and make such a guess of November weather.

THE ASHLAND AFFAIR.

CINCINNATI, Nov. 2.—The Granite State, the steambot that yesterday carried the prisoners Neal and Craft from Catlettsburg to Maysville, reached here this morning. Her officers state that the boat was taken into the service of the state by Maj. Allen, who commanded them to make no landing except at Portsmouth. They did not land even at Portsmouth and reached Maysville at 2 a. m., where there was no excitement, there being no news of the trouble. The prisoners who had been carefully kept in one of the rooms at the end of the cabin, were transferred to the jail, and the officers knew nothing more about them. They say the pilot-house and all the upper part of the boat show bullet marks, but only two soldiers and a roustabout were injured by the fire by the men on the ferry-boat. One of these was a drummer, who was hit in the hand. The other, a soldier, was hit in the head. The wounds are not severe.

AN ENEMY IN DISGUISE.

Before the nominating convention of the Republican party in this district, and for several weeks after that date, many worthy citizens of Cairo candidly believed Captain Thomas was a friend of Cairo. They had not had time or opportunity to read the Congressional Record, and were not informed of the course of Thomas upon the river-improvement question. They believed Thomas was our friend, and as such they favored him. He claimed credit for the passage of the law establishing the Marine hospital at Cairo. But his claim was utterly false, as the Congressional Record will show. It is usual to place a friend of a measure at the head of the committee to act on that measure. Thomas was appointed Chairman of the Levee Committee, although it was publicly known in Washington that he voted against river-improvement. He was made chairman of that committee because he was expected to do nothing as chairman, and the Congressional Record shows that HE DID NOTHING AS CHAIRMAN OF THAT COMMITTEE. CAIRO ELECTRIC LIGHT COMPANY. On Tuesday, incorporation papers were issued by the secretary of state at Springfield to "The Cairo Electric Light and Power Company," capital stock \$10,000.

The incorporators are W. P. Halliday, E. W. Halliday, H. L. Halliday and Thomas W. Halliday. The object of the company is to furnish electric light to anyone who may want it, and it will be prepared to do so within a week or ten days. The machinery is already on hand. An engine of twelve horse power of the latest improved type, and an electric apparatus of two thousand candle power are being put up in the machine rooms of The Halliday, from whence the steam and electric power will emanate. It is likely that several jets will be immediately put in different parts of the city: one near The Halliday, one on the wharf-boat and perhaps several at some of the fine residences in the city. Thus does Cairo keep pace with the times.

NEW ADVERTISEMENTS.

Notices in this column three lines or less 25 cents one insertion or \$1.00 per week.

WANTED TO BUY.—A good double barrel breech loader shot gun. Any one with a su. her one gun for sale at a low price can find a purchaser by inquiring at The Bulletin office. 3.
