LABOR LORE.

The Worst Feared from the Rioters at Collinsville, Ill.

The Military Out—The Usual List of Crimes and Criminals—Other News.

COLLINSVILLE, Ill., May 25.—All quiet in this place and at the mines to-day, but no miners are working. Four hundred miners from Belleville and other places are here to keep things quiet.

At midnight the St. Clair county deputies went back to East St. Louis. Sheriff Holm of Madison county after looking over the field, sent two telegrams to Gov. Hamilton, in which he stated that such are the social and business complications in this district that he does not believe a civil posse could be raised strong enough to quell the mob, should it resort to extreme measures.

At 10 o'clock this morning miners assembled to the number of 300 at a point midway between Abbey mines Nos. 3 and 4, and were harangued by their leaders.

At 11 o'clock the miners were told that no attempt to work would be made. They contended themselves with a threat to clean out the boarding-house on their return.

At 12 o'clock the miners were told that no attempt to work would be made. They contended themselves with a threat to clean out the boarding-house on their return.

EUROPEAN AFFAIRS.

The Proclamation Concerning the Coronation—Cablegrams.

BRUSSELS, May 25.—A Russian was killed here Tuesday by a Jewish publican. Subsequently the mob attacked several houses and shops, occupied by Jews, which they robbed, demolished or burned.

MOSCOW, May 25.—A throng gathered about the Kremlin Thursday before the heralds' arms sounded bugle blasts. The foreign ambassadors then appeared, and the secretary of the Senate mounted the platform.

ROME, May 25.—The domestic life of the Imperial pair is said to be a happy one, except for the nihilists. The czar's private property yields him a large annual revenue.

PARIS, May 25.—An extensive fire occurred at Vars, in the department of the Upper Alps, and fifty houses were destroyed. Several persons perished in the flames.

LONDON, May 25.—The Daily News correspondent at Rome says the Pope is satisfied with the result of his circular to the Irish bishops, and he expected it would be received with more opposition than has been shown.

GENERAL CROOK.

Fears that He has met Custer's Fate—Anxiety at Washington—His Command.

WASHINGTON, May 25.—"I am very much afraid," said a gentleman prominently connected with the War Department, "that we shall never hear from Crook again."

"You don't think he has met with Custer's fate, do you?" "I don't dare really to say the response, 'I don't dare really to say my fears are, but they are for the worst. You see Crook took too many Indians with him, and not enough whites. Why, he only took a body-guard of white soldiers."

"What is that? Do you remember that less than two years ago, the Indian scouts employed by an officer down in Arizona, the very section where Crook got into them and tried to slaughter them? Well, Crook has 200 Indian scouts and only fifty whites."

"Isn't it a little strange that he should have taken so small a force, especially of whites?" "Very strange. I can't understand it at all. He ought to have taken at least 600 or 800 men, and even with that number there might have been disastrous results in taking 200 Indians, but to make four-fifths of his command Indian, I can't understand what it means. I hope it may turn out all right, but I fear that the result may be very grave. You CAN'T TRUST THE INDIANS."

and as for their going into a pitched battle with the same determination that white will, they won't do it. They are good for plundering and taking advantage, but for a square fight give me white soldiers."

There is a feeling here, also, that Gen. Crook, in making his raid into Mexico, has laid himself and the Government liable to severe censure from the Mexican Government. There is, it is said, no doubt but that it is a clear violation of the law which permits either Government to go into the territory of the other in pursuit of fleeing hostiles, but does not provide for a deliberate incursion into the territory for the purpose of making an attack upon Indians living there. Whether or not any action will be taken by the Mexican Government is unknown. It is believed, however, that the Secretary Lincoln telegraphed Crook after learning his intentions, ordering him to free not to violate the treaty, would free the Government from any blame in the matter from the standpoint of international law. If Crook should chance to win a big battle and clean out the hostiles, he probably would escape serious criticism on his return, but if otherwise, the result may be serious to him even should he get back alive, and with his command safe.

MURDER IN ST. LOUIS. ST. LOUIS, May 25.—A murder that was the outcome of a fight in a street car started the residents in the Fifth Police District between 12 and 1 o'clock this morning. Otto S. Dierberger, the prisoner, was seen in the Fifth District Police Station this morning. On the way up Home street, he was shot by the car driver, and Jackson, who were on the front platform, and entered the conversation on the strength of being from Liverpool. Jackson is a native of Manchester, and the question of the distance between the two cities then occupied their minds, the driver insisting that it is sixty miles, and Jackson being equally positive that it is only thirty-four. After a time the lie was given, and the driver wound his reins around the brake and quailed with the car. When the car passed the Fifth District, the driver and his helpers, called upon Dierberger for help, and Dierberger sprang up and shouted: "Gentlemen, you'll have to keep quiet; I'm an officer of the law!" He denies that he said that he was a justice of the peace.

The disputants refused to recognize Dierberger's authority, and Horn grappled with him. The men exchanged blows, and Dierberger drew his revolver and fired a shot, which did no damage. Everybody rushed from the car except the men involved. Then Dierberger fired the second shot, and Horn sank to the floor. Horn's wife entered the car and raised her husband's head. Realizing that he was dead, she became frantic with grief. Police officers soon appeared, and the dead man was taken to his home.

WAR ON SALOONS AND GAMING. BUFFALO, May 25.—There is excitement in the ranks of liquor dealers over the combined warfare against them by the Board of Excise and the Citizen's Reform Association. The former insist upon compliance with all the terms of the excise law by all saloon-keepers who can obtain licenses as inn-keepers, and they have the beds on their premises to accommodate travelers. The saloon law, they say, is the enforcement of the law will be vastly to increase immorality, as, if they are obliged to keep beds, this can be done only by turning saloons into houses of assignation. The Reform Association insist and the Board of Excise are powerless. The Reform Association has begun war upon the base ball combination and pool games attachments of the saloons, and reported a number for revocation of license. The liquor men have organized for defense, and say that if they are harassed at all by the special police employed by the Reform Association they will refuse to pay the city license and carry on business under the United States license, defying the local authorities.

ASSIGNED. CINCINNATI, May 25.—Joseph Steinauer & Co., wholesale and retail grocers, 73 Fifth street, assigned to-day to Simon Wolstein. The firm was not able to make a statement of assets and liabilities. They say the assignment was necessitated by the action of some creditors.

TRAIL WRECKED. GREENWOOD, Ky., May 25.—A freight train on the Beaver Creek railroad was wrecked by a misplaced switch yesterday. Richard Hays was killed and two colored men badly injured.

THE WEDDING BIDA'S COME OFF.

LOUISVILLE, May 25.—Miss Emma Smith is putting away her unused wedding trousseau in her lavender, until it shall be determined if her betrothed already has a better one. She was to have stood up with John E. Hopkins, in Liederkrantz Hall, the other evening, and vow to have his joys and sorrows. Howard is steward for the Standford Hotel, and has a fine reputation. Miss Smith is a graduate of a high school and pretty. Just as the icing was being put on the bride's cake, somebody told Smith here that Hopkins had no legal right to become his son-in-law. The wedding was declared off, guests notified and Hopkins was banished the Smith mansion. He is taking steps to approve his innocence.

SMALL-POX. WALROLA, D. T., May 25.—Small-pox has been prevalent in the half-breed settlement of the Pembina Mountain district three miles from here. Thursday the bodies of Mrs. Gringras and a newborn child which had evidently been confined some days were found locked up in a room which had been occupied by the Gringras family. Mr. Gringras and his wife drove out some time ago, and a trouble arose which resulted in his wife being abandoned. He returned a few days ago and died with small-pox. It is supposed Mrs. Gringras gave birth to the child from the effects of the being.

ILLINOIS CROPS. DWIGHT, Ill., May 25.—Fruit-growers in many sections of Central Illinois are of the opinion that the recent frosts will not do much harm to any serious extent, and the crop of all kinds of small fruits will be equal to that of the past two or three seasons. Corn planting throughout McLean, DeWitt, Livingston and other counties, Central Illinois is about over, and should the weather continue warm, the growth will, no doubt, be rapid. An acreage planted indicates that most farmers have put in a larger amount of grain than for many years past.

THROUGH A BRIDGE. JOHNETT, Ill., May 25.—The freight train here at 8:30 Thursday night on the Rock Island road dropped through the bridge across the Dupage river, eight miles west of here. The engine and several cars crossed before the bridge parted. Five freight, one passenger car and the caboose went into the river. George Mellon, brickman, and two passengers, names unknown, were injured.

A CINE TO THE EXPRESS ROBBERS. CLEVELAND, O., May 25.—W. G. Yates, local agent of the U. S. Express Company, says to-day that he calculates that the money in the pouches stolen yesterday was not more than \$2,000. Evidence has been discovered that the preparations for this robbery had been making for several weeks, and a clue to the robbers has been obtained, which promises to result in arrests.

ACCUSED OF FORGERY. MORRISTON, Ill., May 25.—A traveling man named W. S. Wiley, was arrested here this morning upon the charge of having obtained \$250 upon a forged check from a hotel man in Rock Island, Ill. Wiley is said to be in the employ of H. H. Painter & Co., wholesale shoe dealers of Rochester, N. Y.

DAVID DAVIS AND WIFE. HOOVERVILLE, Ill., May 25.—Ex-Vice President David Davis and wife are expected to arrive home in this city about the 31st of June. It is understood that the Senator has given up his contemplated trip to Europe during the coming summer, but will devote his time upon his return home to his own private business affairs.

TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause—liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

It is a fact! Brown's Iron Bitters, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old druggists and in every particular reliable, will, by removing the craving appetite of the drunkard, and by curing the nervous, weakness, and general ill health, resulting from temperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially 'bitters,' are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with Brown's Iron Bitters. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price \$1.00.
