Telegraphic. LABOR AND CAPITAL.

A Contractor's Estimate of the Cost of Telegraph Lines.

Cornell Wants to Sell Western Union Stock—Three Men Killed by an Explosion of Giant Powder—The Jolly Tourists—Other News.

NEW YORK, August 17.—Daniel E. Robeson, telegraph engineer and contractor, was the first witness examined to-day by the United States sub-committee on Education and Labor. He said that he had seen McClellan's estimate of the cost of the construction of a telegraph line of eight wires from New York to Chicago, wherein the latter said it could be completed for operation for the sum of \$725,000. This, the witness thought, was about half the real cost of construction. Such a line would cost at least a thousand dollars per mile. He was not prepared to give a detailed estimate of the cost of construction and equipment, and for this reason Senator George said he would not give the opinion of the witness as not much value as evidence. A warm controversy ensued between the Senator from Mississippi and Senator B. H. Riser, chairman, who accused his colleague of his disloyalty to the witness in interrupting the latter for any such expression of opinion. Senator George replied that he proposed to take up as much time as he liked in questioning the witnesses, and insisted upon the complete statement of the cost of each item of expense in the construction. The witness refused to answer the question any more definitely than he had done, as he said he thought it would be contrary to his interest to do so.

THE COST OF RIGHTS OF WAY. In regard to the rights of way the witness had known of cases where over \$1,000 had been paid for the privilege of erecting six poles. This item was probably the most important in the cost of construction. On some routes the cost of rights of way were much larger than on others. The most expensive route in this respect would be, he thought, that of a line between Washington and Boston, and the right of way between Washington and Chicago could not be acquired except for a large consideration, proving that he had the right of way possessed by the Western Union company. Robeson asserted that he would willingly undertake to reproduce the entire telegraph system of this country for fifty million dollars. The most valuable rights of way possessed by the Western Union were those obtained from the railroad systems of the country, and no estimate could be formed of the cost to the Western Union of acquiring these elements. The ordinary expense connected with this item is incurred in obtaining the rights of way through the cities. This was usually placed under the head of legal expenses, for lawyers are usually employed to obtain privileges in these cases. The witness had been engaged in the construction of the Mutual Union, American Rapid and several railroad lines.

Gould and Cornell. NEW YORK, August 17.—There are a great many black countenances to-day at the hotels. There is a rumor here that A. B. Cornell is a heavy loser by Western Union and other stocks. It is said that in one office in New York he had 25,000 shares of Western Union in his account. When the worst decline took place he weakened, and instructed his broker to offer the whole block to Jay Gould at 72. The stock was then 75 to 73 1/2 without many purchasers. Gould is said to have known that the stock was Cornell's and declined to buy. Yet Mr. Gould has sold 5,000 shares to Cornell not very long at 85 1/2 and would on these have pocketed a profit of \$67,500. Everybody here believes that one of the principal causes of the feeling against the Western Union is to be found in the presence of a man like A. B. Cornell in the board of directors. He is regarded as a model fraud. While Governor of the state and ambitious for a re-election, he posed as an anti-monopolist. Yet he has been all the time at heart in favor of monopolies and would be a monopolist of a most grasping and insolent character if he only had the opportunity. The Western Union company foolishly put him on the committee to arrange settlement with the operators before the strike commenced. This stamped the committee at once as an offensive one. It was not forgotten that Cornell had been one of the most arbitrary and unyielding of the Western Union directors when the strike of 1870 took place during Mr. William Orton's absence in Europe.

A Fatal Railroad Accident. LEXINGTON, Ky., August 17.—At the Winchester crossing of the Kentucky Central and the Chesapeake & Ohio railroads, this morning, the Lexington accommodation from Mt. Sterling struck the rear car of the Kentucky Central train, containing four hundred kegs of giant powder. The explosion that followed tore away the ends of both depots. The engine was blown to atoms, and Conductor McMichael's eyes were burned out. He is now dead. His last words were: "Oh, my poor wife and children." Ran Moran, yard-master, was killed. Engineer Benj. Schuler can't be found. Several others are reported killed and wounded.

ANOTHER ACCOUNT. CINCINNATI, August 17.—The Times-Star Lexington, Ky., special says that the Mt. Sterling accommodation going to Lexington ran into the rear car of a train on the Kentucky Central at Winchester crossing this morning, exploding four hundred kegs of giant powder. The depot is wrecked and the engine is blown to atoms. Engineer Schuler has not been found. Yard-master Randall was killed. Conductor McMichael was fatally injured. Several others are supposed to be killed. A full report has not been received.

The Sluggers' Dilemma. KANSAS CITY, Mo., August 17.—Harry Hill, of New York, has been chosen referee in the coming Slade-Mitchell prize-fight. Investigation of the law shows that the restrictions on prize-fighting are very stringent both in Missouri and Kansas. It is stated that the Missouri statute forbids anyone to train in this state for prize-fighting. Slade is now training at Independence. This discovery of the law may cause a change in the proposed arrangements.

Striking Lasters. ST. LOUIS, August 17.—At this morning's meeting of the striking shoe-lasters a proposition was received from the bosses submitting a bill of prices. Upon examining it proved to be a snare and delusion, the men say, inasmuch as it averages 8 per cent. under the bill that caused the strike. A reply was demanded by noon, but they resolved not to await that hour, so an answer of indignant refusal was at once returned. The lasters feel assured that the work is accumulating so fast upon the manufacturers' hands that they will be compelled to accede to the strikers' prices speedily. If this is not done the men say they will seek employment in other cities.

Startling news. PITTSBURG, August 17.—Thomas H. Hughes, secretary of the Brotherhood of Telegraphers, received the following from New York this afternoon: "Send the following to all assemblies: The executive board of the Brotherhood regrets to say that the strike is a failure. All members who can may go to work immediately. Circulars follow by mail." (Signed) JOHN CAMPBELL.

THE PRESIDENTIAL PARTY. CAMP ROBERT LINCOLN, WY., August 15, via Fort Washack, August 16.—President Arthur's party left the fork of the Wild river at 6:30 this morning, followed the tortuous windings of the river nearly to its source, then began the ascent of Robert Lincoln pass, used by Lieut.-Gen. Sheridan last year and named in honor of the Secretary of War. The pass is the shortest and easiest of the routes between the valley of Wild river and the Snake river valley. The party reached camp at 11 o'clock, having traveled about seventeen miles. The camp is named Robert Lincoln, and is situated on the crest of the backbone of the Rocky mountains at an altitude of 9,000 feet above the level of the sea. Within a hundred yards of the camp are streams which flow respectively into the Atlantic and Pacific oceans. The President spent part of yesterday trout fishing and returned to camp with the heaviest catch of the party. The average weight of the trout was two pounds. Surgeon Farwood returned to camp having shot an elk of enormous size and weight. The other hunters brought in two antelope and a good supply of mountain grouse and wild ducks. To-morrow morning the party is to begin the descent of Lincoln pass and will camp in the valley of the Gros Ventre river, where the first view of the grand Teton mountains will be obtained. All the party are in excellent health and spirits. Game is abundant, but Gen. Sheridan has given peremptory orders that no more shall be killed than is absolutely necessary for the wants of the command.

AN ENGLISH STRIKE. 8,000 Weavers Demand Better Wages—Russian Students Exiled—Exciting Debate in Commons—The War in Annam, Etc., Etc.

LONDON, August 17.—Lord Edmund Fitzmaurice, the Under Foreign Secretary, stated in the House of Commons to-day that the government of Great Britain had asked the Russian government for an explanation in regard to the expulsion from Russia on the 15th of a British Jew representing a London business firm, who was provided with a proper British passport.

THE HOUSE OF COMMONS continued in session until nearly 6 o'clock this morning. The discussion was on the government's estimates. The Irish members were very active throughout the night and took occasion in the course of the debate to point out the various grievances of their people, such as the conduct of the police during the election riots at Wexford and the imprisonment of Harrington. The debate was heated and of a personal character.

A RIG STRIKE. LONDON, August 17.—Eight thousand weavers in Ashton-under-Lyne district struck work owing to refusal of their masters to increase their wages.

IRELAND. DUBLIN, August 17.—Mr. Davitt, in an address at Donegal, strongly condemned the emigration measures taken by the British government and aided by Irishmen who misunderstood their necessary results. The country was large enough and rich enough to support its own people. To depopulate the country by wholesale emigration was to end forever the possibilities of obtaining home rule. He advocated earnestly the scheme of migration which would keep the people at home and improve their condition. The land act, he said, had been a most lamentable failure and a direct injury to the country.

MURDER AT A DANCE. ST. LOUIS, Ill., August 17.—Reports from Worden, six miles south, say that at a house-warming given by Wiley Robinson Thursday night to celebrate opening a new hotel, Ed. Walker, of West Prairie, shot and instantly killed Wiley Robinson, because he asked Walker and his crew to make a little less noise. When Robinson turned away Walker drew his revolver and shot him.

ANOTHER ACCOUNT. At a dance in the house of W. F. Robinson, a merchant, Tuesday night, a difficulty occurred between him and a farmer named Walker, resulting in the latter shooting Robinson in the abdomen. The wound is considered fatal. Walker had become intoxicated and quarrelsome when Robinson sought to quiet him.

Another Big Failure. NEW YORK, August 17.—Tauszig & Hamerschlag, syrup manufacturers, have failed. The failure was caused by indorsing the first of Alexander & Tauszig, of Chicago, against whom judgment in favor of First National bank has been confirmed. The liabilities of Tauszig & Hamerschlag amount to \$255,000. The assets are not known. The firm has been established since 1870 and was always rated high by commercial agencies. Tauszig of Chicago is a relative to the senior member, Tauszig. Business men offered the latter financial aid, but the offers were refused in justice to their creditors, to whom they have turned over all their real and personal property.

A Bad Mixture. CLEVELAND, O., August 17.—On Thursday Dr. Cadwell, a druggist, undertook to put up a prescription calling for nitric acid, mercury and turpentine, forgetting that the combination formed a powerful explosive. The result was that the druggist was severely hurt about the head and face. The prescription was brought by a woman who could not be found after the explosion. The prescription likewise disappeared.

End of a Spree. JERSEYVILLE, Ill., August 17.—About 11 o'clock last night Zach Caddell dropped dead from the effects of a two weeks' spree.

THE STRIKE Thought to be Near an End—Strikers Returning to Work—An Official Order.

NEW YORK, August 17.—One of the most prominent striking telegraph operators said to-day that the strike was practically at an end. He believed in the Brotherhood and stuck by it as long as he could, but they were beaten, and might as well give up first as last. He had signed the iron clad oath and would return to work to-morrow. He knew of many operators who would endeavor to return at once. The "iron clad oath" referred to compels the telegrapher to pledge himself to withdraw from the Brotherhood and never again to join a similar organization.

Press Comments. NEW YORK, August 17.—The Herald says: "The high tariff makes low wages. All workmen ought to remember that high tariffs are the work of great corporations, who continually lobby Congress and intimidate public men to prevent high tariff reform. That is what the trades unions ought to strike at."

The Tribune says: "The next Democratic candidate will be a friend of Mr. Tilden. Possibly the left-hand friends of Mr. Tilden may be enthusiastic on that account. At all events, we can congratulate them in advance upon a nomination so delightful to them."

The Knights Templar's Ball. SAN FRANCISCO, August 17.—The ball tendered the Knights Templar this evening at the Pavilion was largely attended, fully 7,000 persons being present. Dancing commenced at 10 o'clock. The building was handsomely decorated and the floors streched with canvas. The object of the general committee in giving the ball in advance of the official proceedings was to raise money to provide for after expenses. Receipts are estimated at \$7,500, representing about \$4,000 net.

A Professor Dead. PITTSBURG, Pa., August 17.—The Rev. S. J. Wilson, professor of history in the Western Theological Seminary of Allegheny City, and one of the most prominent clergymen of the country, died at 11 o'clock this morning of typhoid fever. The funeral will take place on Monday.

Drowned. ALTON, Ill., August 17.—A twelve-year-old son of George Spark was drowned while bathing in the river this morning. The body had not been recovered up to 1 p. m.

"I don't blame Mr. Dorsey for getting mad," says an eminent Republican, "but I don't think he ought to have given it away that we paid as high as \$20 and \$75 for some men's votes in 1880. Darned if it won't empty the United States Treasury in '84 if the voters hear of such prices!"

A young bride, on being asked how her husband turned out, replied that he turned out very late in the morning and turned in very late at night.

THE FATAL LEAP OF DR. YOST, THE DISTINGUISHED PHYSICIAN.

ST. LOUIS, August 17.—Lying with his head towards the house and his feet towards the sidewalk Mrs. Yost, of 3215 Pine street, saw her husband, Dr. P. D. Yost, yesterday afternoon when she looked out of the window of the second-story room in which she had left him a few moments before. His head had struck a projecting sill as he fell head foremost from the window, and he was dead from concussion of the brain when he reached the ground. Dr. Yost, the distinguished electric physician, has been ill for ten days with typho-malarial fever, but he was thought to be greatly improved yesterday. It will probably never be known whether he fell from the window or leaped out in a fit of delirium. From the fact that his head struck the sill, the former seems the more probable. Coroner Nidelet to-day held an inquest on the body of Dr. Yost, and the jury rendered a verdict that he came to his death "from a shock, the effect of injuries received by throwing himself from the second-story window of his residence, 3215 Pine street, whilst in a state of delirium from typho-malarial fever."

WHITE AND BLACK. A Young Lady Discards Her White Lover and Marries a Negro.

EAST ST. LOUIS, August 17.—Sam Lucas, a well-known colored man, employed by the Healy Bros., leaped into notoriety Thursday evening by marrying a white lady whom every one supposed was engaged to a young barber near the Healy depot. The lady in the case is Mrs. Shaughnessy, until recently the overseer of the culinary department of a Fourth street boarding-house. The barber's name could not be ascertained, but it is well known that he spent Sunday evening, till nearly midnight, with his lady love completing arrangements for their wedding, which was to take place next Sunday afternoon. Sam Lucas is a medium-sized, burly-looking negro, very black, but possessing a very winning manner, which wrought sad havoc with Mrs. Shaughnessy's affections, and blasted the barber's dreams of future happiness. Sam paid frequent visits to the boarding-house where the young lady was employed and spent most of his leisure time in the kitchen, but no one connected with the house ever suspected he aspired to the young lady's hand. Shortly after 6 o'clock last evening Mr. Lucas, attired in a new suit of store clothing, visited Mrs. Shaughnessy, and shortly after the couple left the house and started in the direction of the Colored Baptist church. The Rev. Mr. Vattman, the rector of this church, was at home and soon tied the nuptial knot, the happy groom expressing his satisfaction in a resounding kiss on the cheek of the blushing bride as soon as the words which made them man and wife were pronounced.

SARATOGA RACES. SARATOGA, August 17.—The weather is very warm, attendance large, track dusty. The first race of three-quarters of a mile. Brad first, W. P. Burch second, Vera third. Time 1:15 1/2. In the second race, mile heats, the first heat was won by Capias, Rosaline second, Jim Nelson third. Time 1:45. Second heat and race was taken by Capias, Rosaline second, Jim Nelson third. Time, 1:43.

Failed. SHEFFIELD, August 17.—Mr. Mountain, a prominent business man and an alderman, has gone into bankruptcy; liabilities, \$27,500.

THE MARKETS. AUGUST 17.

Live Stock. CHICAGO. HOGS—Quiet and slow; 5@10 lower. Light 50-60 lbs; mixed packing 50-60 lbs; good to choice 4 1/2@5 1/2; heavy packing and shipping 4 3/4@5 1/4. Market slow and prices weak.

CATTLE—Steady; exports \$6 00@6 25; good to choice shipping \$5 15@5 75; common to fair \$4 10@4 60.

ST. LOUIS. CATTLE—Exporters \$5 50@6 15; good to heavy do \$5 25@5 75; light to fair \$5 00@5 40; common to medium \$4 50@5 00; fair to good Colorado \$4 60@5 00; southwest \$3 75@4 50; grass Texans \$3 25@4 75; light to good stockers \$3 50@5 75; fair to good feeders \$3 75@4 25; common to choice native cows and heifers \$3 15@4 35; sealings of any kind \$2 25@2 50.

EGGS—Spring chickens—small and medium \$1 25; fair to good \$1 30@1 35; choice \$2; and fancy large \$2 25. Old chickens—Cocks \$2 75@3, mixed \$1 15@1 25; 2 1/2. HENS—Steady and in active request at 15c for choice marks. Doubtful stock less.

LIVERPOOL. Country markets shade higher. Weather in England wet. Spot wheat strong; No. 3 spring 8s 2d. No. 3 spring none in market; Western winter 8s 4d. Mixed Western extra strong at 8s 6d. Wheat and corn demand from the United Kingdom and Continental good. Receipts wheat past week 403,000 cwt., of which 211,000 were American.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880. For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is immensely improved. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. G. B. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

ESTABLISHED 1850. H. H. CANNON, Successor of Safford, Morris & Candee, (City National Bank Building), NO. 70 N. 3rd ST., ST. LOUIS, MO.
