### A Pre-nuptial Function

On the eve of marital meandering, P. L. Butz and Roland H. Jacobs entertained about forty of their friends at the Dominion hotel last night. A Dutch lunch was served in the dining room, followed by cigars, speeches and toasts, and an extravagant passing out of advice and welcome from the benedictus and consolation and regrets from the still, and in some instances, hopelessly, single. After extending congratulations on the coming nuptial events and singing "Auld Lang Syne," the company disbanded at 11:30.

Mr. Butz leaves this morning for Los Angeles, where on Wednesday morning he will wed Miss Catherine Frances McGinn, a society favorite of the Angel City. The wedding will occur at St. Agnes church, after which Mr. and Mrs. Butz will go to Santa Barbara for the honeymoon.

Mr. Jacobs is to wed Miss Eula Hall, a popular Globe young lady who occupies a high social position, on the evening of October 24, at St. John's Episcopal church. The wedding will be one of the most brilliant nuptial events ever occurring in Globe.

### Had a Rat in His Pocket

For over an hour the other day Sergeant Gardner of the Twenty-third district carried a big rat that was very much alive about in the side pocket of his uniform coat. It was not until he reached the station house and placed his hand into his pocket that he knew anything about it. Then he became very much aware of the rodent's existence, for it bit his finger. The sergeant let out a yell that not only startled Lieutenant Blaney, who was with him at the time, but aroused the whole house force. A second later the animal leaped from the pocket and began to run for cover. Lieutenant, sergeants, turnkeys and cops joined in trying to round up the rat, but in spite of their chasing and stamping, it managed to get away. Sergeant Gardner thinks that the animal crept into his pocket while the coat was hanging in the patrol house.—Philadelphia Record.

## COPPER TOWN QUERIES?

About 7 per cent of the motor power of the world is today handled and furnished by electricity. Almost every invention of present times are of electrical make. Electrical motor power is known to be much cheaper and more practical than that furnished by steam, which requires coal and wood, which is becoming scarce, and naturally more valuable, as the present prices will show; and since the age of electricity is in its infancy an opportunity is presented to men of financial power to depreciate the copper markets and by so doing feast upon the fevered anticipations of the marginal buyer of the past to the tune of many millions, to again catch the tide at its full ebb when copper is low, but the market to its limit and again feast upon the fatiguing flood of returns, which was the cause of men being kicked from the Temple of Jerusalem many centuries ago. You are in a copper town, the best in the southwest. Now is your time to take advantage of an opportunity, such as was never before known. Copper nuts; can you crack them?

### WE PAY LOSSES

We beg to announce to the public and our many friends that we are writing Insurance as of old, giving to our policy holders Insurance that is "gilt edge."

Remember, the reason we can pay losses so promptly is because we employ men who understand the writing of Insurance correctly, coupled with the fact that we represent the largest Insurance companies in the world.

We own the only complete and correct set of Abstract books of Gila county, Arizona, and we employ an Abstractor who has had years of experience in the business.

We make loans on Real Estate. We can also give you Bond written in the best Bond company on earth. How about that plate glass front? Is it insured, if not, ring us up.
