MARKET STRONGER AND PRICES ON UPRRAISE

Professionals Re-enter Exchange With Large Volume of Trading

NEW YORK, February 17.—Prices of stocks rose further today, although it was noticeable that Reading, which made up more than one-third of the aggregate dealings yesterday, was pressed for sale steadily in realizing profits on the sharp rise of yesterday. There was no one stock as prominent today as was Reading yesterday, but the congestion of dealings in Union Pacific and United States Steel, and the aggressive upward movement of these stocks carried out the indication of a large professional participation in the transactions which made up the other body of the market.

Bonds firm. Total sales \$3,375,000. United States bonds unchanged.

METAL QUOTATIONS

NEW YORK, February 17.—The market for standard copper on the New York metal exchange was dull with spot and all deliveries up to the end of May closing at 12.87 1/2 to 13. Lake copper, 13.62 1/2 to 13.87 1/2; electrolytic, 13.37 1/2 to 13.62 1/2; and casting, 13.12 1/2 to 13.37 1/2.

Tin irregular, with spot at 32.25 to 32.50; February, 33.30 to 33.45; March, 33.20 to 33.35; April, 33.25 to 33.40.

Lead dull, with spot at 4.40 to 4.55 in New York and 4.30 to 4.40 in East St. Louis.

Spelter, weak, with spot at 5.40 to 5.55 in New York and 5.20 to 5.30 in East St. Louis.

Silver, 52 3/4; Mexicans, 44.

QUOTATIONS

By FRANK J. GRAF

The advance of yesterday in the New York market was continued today and better prices resulted in nearly all the stocks. Smelters, Sugar, Union Pacific, Colorado Fuel & Iron, Rock Island and Steel stocks showed good advances over yesterday. The general market is gradually hardening and we look for a steady market.

The Boston coppers have not been affected by the advance of the New York stocks and are inclined to be lifeless. There is little activity in any of them and, until there is something definite regarding the proposed copper merger we do not look for any general movement. Today's market was dull and shows no change over yesterday.

In the curb stocks Live Oak was the only one to show any activity, with sales at 20 and closing at 19.50 bid, with light offerings. Warrior is beginning to show better demand at 11.75. Miami, Ray Central, Inspiration and Keystone were unchanged. Mangas is

ENGINEER MAY NOT COME TO GLOBE AT ONCE

Roosevelt Road Must Await Attention to Bridge at Florence

According to a communication received by Secretary R. C. Rohrabacher of the chamber of commerce from Territorial Engineer J. B. Girard yesterday, Mr. Girard may not be able to visit this city for several weeks, to take up with the local organization the construction of the Globe-Roosevelt road, as matters connected with the Florence bridge may detain him for some time.

In reply, Secretary Rohrabacher requested that both Mr. Girard and Territorial Auditor Foster visit Globe as soon as possible and meet the local chamber, in order that an understanding might be reached regarding the construction of a city and county road, connecting with the territorial highway about a mile below town.

Mr. Rohrabacher further requested that a plat of the final survey, which is as yet undropped, be sent here, that additional data might be secured for the committee which is now at work investigating the matter of the construction of a county road from the city limits north to the beginning of the territorial highway and south through the city.

This committee is actively at work, mapping out possible routes for the city and county's portion of the new highway, looking into plans for financing the work and investigating right of way matters. The matter is being investigated very thoroughly and as the result, when Mr. Girard finds time to visit Globe, the committee will be able to take up the matter with him with a very clear understanding of its various details.

KING EDWARD WILL HONOR ROOSEVELT

Ex-President Will Lecture at Oxford May 18

LONDON, Feb. 17.—Former President Roosevelt will deliver his Romanes' lecture at Oxford University on May 18.

King Edward, in addition to entertaining Roosevelt at Buckingham Palace, will attend other functions at which the American will be a guest.

TWO OF CREW DEAD

Cruiser Being Held in Quarantine Until Smallpox Is Eliminated

PORT TOWNSEND, February 17.—John Bohning, aged 22, a native of Kansas, is the second member of the crew of the cruiser Washington to die of smallpox since the warship returned from Honolulu. Bohning died today at the Diamond Head quarantine station, where three comrades are in a serious condition, suffering from the same malady.

The name of the sailor who died yesterday just as the warship reached port has not been learned, the officers of the Washington having failed to report it to the quarantine officials. The three in quarantine suffering from smallpox are Ensign Griffith of California, Seaman Frank Graham of Connecticut; and Seaman Michael Ropinski of Wisconsin.

The Washington is being fumigated, and will be detained at Diamond Head until the quarantine officer is satisfied that all danger is past.

GEARY IS RETAINED TO DEFEND BURKE

Witnesses Arriving for Session of Grand Jury

SANTA ROSA, February 17.—Former Congressman Thomas Geary, widely known as author of the Geary Chinese Exclusion act, will defend Dr. Willard Burke, arrested in connection with the dynamiting of a tent house on the sanitarium grounds, occupied by Luella Smith and her eleven months old baby, of which she alleges Burke is father. A number of witnesses arrived tonight in anticipation of tomorrow's session of the grand jury.

POSTAL BANK BILL IS PROMISED TO PRESIDENT

Objectionable Amendments to Be Withdrawn and Bill Rushed to Finish

WASHINGTON, D. C., February 17.—Assurance of the passage by the senate of the postal savings bank bill was given to the president tonight at a conference at the White House.

The house was represented in the conference by Representative Weeks, chairman on postoffices. Others who took part were Senator Penrose, chairman of the senate committee on postoffices, Aldrich, Root, Crane and Carter, the last named being in charge of the bill.

It is understood the amendments offered and pressed by Senators Root and Smoot will be withdrawn. That offered by the New York senator provides for the investment of postal bank funds in government bonds, while Smoot's amendment is diametrically opposed to this plan, prohibiting the withdrawal of such funds from local banks in which they may have been deposited.

The agreement of both senators to recall the amendments in the interest of harmony clears the way for quick consideration.

Tonight's amicable solution of the snarl into which the bill was forced is interpreted as indicating that practically all the administration measures will be advanced by similar methods. The postal bill will be taken up tomorrow.

BURKE TO TESTIFY

Man Accused of Dynamiting Sanitarium to Tell Tale to Grand Jury

SANTA ROSA, Cal., February 17.—The grand jury will meet in special session here tomorrow morning to consider the dynamiting case at Burke's sanitarium. One of the chief witnesses will be Dr. Willard P. Burke, who has been charged with responsibility for the explosion which threatened the life of Luella Smith and her baby.

Practically all of the attaches of the sanitarium and a number of patients staying there have been summoned.

Thomas Riley, the Kanaka Peak miner, who told District Attorney Lee that Dr. Burke procured dynamite at the mine, will appear. After tomorrow's session the grand jury will not meet again until next Wednesday, when it is expected to return indictments.

SENATOR TILLMAN IN BAD CONDITION

Suffering from Leakage of Arteries in Brain

WASHINGTON, D. C., February 17.—Senator Tillman is seriously ill. Following his collapse on the steps of the capitol Wednesday, he appeared to recover, but today his condition is such as to alarm his friends.

Dr. Pickford, Tillman's physician, said tonight that the senator is suffering a slight progressive paralysis, due to leakage of blood in the brain, caused by calcification of the arteries.

The \$10,000 Beauty, Majestic tonight.

ANOTHER ELECTION IS LIKELY IN ENGLAND

LONDON, February 17.—This has been politically one of the most exciting days since the general elections, and, if indications are to be trusted, another general election is not unlikely within three months.

Premier Asquith's confirmed habit of keeping his own counsel makes it additionally difficult to gauge the situation, but all evidence points in the direction of an acute crisis.

George Barnes, now chairman of the labor party in parliament, sent a manifesto to the premier protesting against the budget question preceding the veto question in the house, and declaring that in the event the protest is disregarded the laborites will vote against the government.

Negotiations between the government and Nationalists are in an unsatisfactory state and it is reported that John Redmond has failed to carry his demands.

CONBOY JURY WAS UNABLE TO AGREE

Stood Ten for Conviction of Former Police Captain

SAN FRANCISCO, February 17.—After being out for thirty hours without reaching a verdict, the jury in the case of Michael J. Conboy, former captain of police, charged with the murder of Bernard Lagan, was discharged about 5:30 o'clock this evening. The jury stood ten for conviction and two for acquittal.

THIRD NAME GIVEN

Former Speaker of Assembly of New York Involved in Scandal

ALBANY, February 17.—Fred Nixon, is the third name that Senator Conger says Hiram Moe wrote on one of the envelopes that carried \$6,000 to the state capitol nine years ago to buy protection for the American Bridge company.

The name of the former speaker of the assembly was announced by Conger on the stand and completes the trio. Speaker Nixon's envelope, according to Conger, was like Senator Ald's and held a thousand. The remainder of the fund, \$4,000, was in the envelope given Nixon's lieutenant, Assemblyman Jean Burnet.

According to Conger, from 1901 to 1905 a systematic campaign was conducted at Albany against the treasury of the bridge company.

CANDIES AT REDUCED PRICES
The Adams' Confectionery are selling all their candies at 10c to 25c per lb. reductions. Buy now.

ENGINEERS' STRIKE SPREADS IN BUTTE

BUTTE, Mont., February 17.—The Butte reduction works, employing five hundred men, is completely shut down because of the suspension of work by the International Mine Engineers' union. A few days at most must bring a definite result of the jurisdictional dispute between the International Engineers and the Butte union of the Western Federation of Miners.

GIFFORD PINCHOT, FOE OF BALLINGER

The removal of Gifford Pinchot as chief of the United States forestry bureau by President Taft started a controversy which threatens to continue during the remainder of the presidential term. The Ballinger-Pinchot fight was thought by many politicians at Washington to have reached its climax when Secretary Ballinger demanded an investigation at the hands of the president, but Mr. Pinchot's letter to Senator Dooliver revived the trouble, and his removal quickly followed. The forthcoming investigation promises to be full of sensations and may open up afresh all the charges pro and con that have stirred the land department during the past year.
