Rev. A. The Young People of St. Joseph, La.:
My Dear Young Friends—I chanced to learn of your intention to hold, January 6th, appropriate exercises in commemoration of the thirty-two years of service that our friend and "father," the Rev. Dr. Shaifer, has seen in the school-room.
It being inconvenient for me to be present in person, I beg that you admit of my participating with you, by means of this communication to you.
Indeed, I claim that in any movement contemplating the bestowal of honors upon this worthy friend of ours, as a reward for past labors, I come in for first right. First, because in point of age and experience, I should judge that I am the senior of most of you; and second, because of all those who have been helped along life's pathway, during this generation of his services, none of you have been helped more than I.
Thirty years ago, I was given, like clay in the hands of the potter, into the hands of him whom we now honor, to be moulded into something—into whatever the Master-workman should see fit, or should prove capable of fashioning me into.

And God be praised that the contact
