CATTLE DIPPING RESULTS.

Says the Jones county (Miss.) News in a recent issue:

"It is now the middle of January and our market is supplied with splendid beef from the country, something never before known. Before cattle were dipped and the tick eradicated, when winter set in cattle were nearly on the lift, and the beef you got was poor and stringy. But not so now. You seldom see a thin cow, and most of them are in fine condition. After getting rid of the tick, the cattle had on enough flesh to carry them far into the winter and require but little feeding to keep until grass again sprouts."

The M. H. & L. depot at St. Joseph was entered on Thursday night, a window in the office being forced. The cash drawer containing about 45 cents in coppers was taken and the draw was found next morning on the track not far from the depot. Nothing further is missed. As yet no clue to the intruder has been discovered.

MALE STENOGRAPHERS AND TYPEWRITERS IN DEMAND.

The United States Civil Service Commission announces that while it has no difficulty in securing sufficient female stenographers and typewriters to meet the needs of the departments at Washington, the supply of male eligibles has not been equal to the demand. Young men who are at least 18 years of age and who are willing to accept the usual entrance salaries, which are \$840 and \$900 a year, have excellent opportunities for appointment. While the entrance salaries are low, advancement is reasonably rapid to those meriting it. The examinations, which any competent stenographer should be able to pass, are held each month in the year, except December, in the principal cities of the United States.

Full information in regard to the examination may be secured by addressing the United States Civil Service Commission, Washington, D. C., or District Secretary, Post Office, Boston, Mass., Philadelphia, Pa., Atlanta, Ga., Cincinnati, Ohio, Chicago, Ill., St. Paul, Minn., Seattle, Wash., San Francisco, Cal., Customhouse, New York, N. Y., New Orleans, La.; or Old Customhouse, St. Louis, Mo.

The United States Civil Service Commission, at Washington, has issued the following circular setting forth the schedule of examinations for fourth class post masters in Louisiana, which we publish for public information. The circular reads:

Examinations for fourth-class post master under the order mentioned will be held at Texarkana, Arkansas, Vicksburg and Natchez, on March 14, 1914, and in the State of Louisiana on the dates and at the examination points mentioned in section 3 of this circular.

Only the following points are mentioned in this section: Newellton, Locust Ridge, Waterproof, L'Argent, Clayton. Examinations for Texas parish to be held at St. Joseph March 13, and for Concordia parish at Ferriday on March 11. For further information see postmaster at either of these places.

THE NEW SIDE-WALKS FOR ST. JOSEPH.

As stated in the Gazette, last week, Mr. Geo. Ruscher, who had the contract to construct the side-walks at St. Joseph, has finished his contract and returned to Natchez. Mr. Ruscher began work on his contract on October 28th, completing same January 24th, having laid nearly 5,000 square yards or four and a half miles of walk, and today St. Joseph has as handsome a system of Schillinger pavement as any town of its size in the State.

Beginning at the south corner of Court House square, (Mr. Buckner's residence) on Washington street, the walk 4 1/2 feet wide, is brought down to the corner of Mrs. India Brown's residence, where a crossing is made, and the walk continues down Washington street, past the opposite residence of Mr. W. R. Piker. Returning to the Court House square, the walk crosses the square on Court street, connecting with the brick walk on Washington street. Beginning again at the completion of the brick walk at corner of school house, the Schillinger pavement is continued down Washington street to intersection of Fourth (or New) street, where crossing is made with continuation of walk down Fourth street as far as the corner of Mr. Green's. A crossing is made opposite Union Church. In a westerly course the walk continues up Fourth street to corner of Holly with 4 feet wide, about 50 yards down to the only crossing on that street, and then up Fourth street to intersection of brick walk on Plank Road, where a crossing is made to opposite side, and continues up Walton street 255 feet to residence of Mr. E. J. Wilton. On south side of the Plank Road the walk continues due west to the corporation line. Crossing the Plank Road, on the northern side, the walk is brought down to the Bank of St. Joseph, again intercepting the brick walk. Beginning at corner of Levee street and Panola avenue (Buckingham Hotel) the walk goes down to the livery stable. Returning to Plank Road the walk begins again at corner Elm street, with 3 foot width, running entire length and connecting with Oak street where crossing is made to south side and continued from corner of Oak and Second streets to end of residential section on West and down Third street to intersection of Ash at residence of Mr. S. W. Haslip, thence west to end residential section (Messrs. Mayer and Jordan.) Returning to Oak street the walk is continued from residence of Mr. Will Abrams due east to the brick pavement on Levee street. Returning to Second street the pavement is brought down to corner of Magnolia avenue (Mr. Levy's residence) and up same to Levee street. A crossing is made in front of Mr. Levy's residence and the walk is continued through Lovers' Lane to Hancock street (residence Messrs. Curry) West street crossings are made at intersections of Hancock and Washington streets with Levee street.

A matter worthy of note is that every house in town is traversed by pavement of either brick or concrete. The walks are showing up good and reflect greatest credit on the builder and stand as a monument to the progressiveness of the city administration.

struction of this work at St. Joseph were always most pleasant and he carries from our town the highest recommendations of our officials and people.

Mr. Compton was accompanied by Mr. Guy N. Hunter, of Tensas Lodge No. 84, K. of P at Waterproof. The purpose of the visit of these two gentlemen was to revive interest that has become somewhat dormant in local Pythian circles, and we understand no small degree of success accompanied their efforts. There seemed however no special desire on the part of the local knights to revive Panola Lodge, No. 141, which was destroyed Oct. 29, 1901, when St. Joseph was swept by fire, and which then was in a most thriving condition, whereupon the invitation was extended by Mr. Hunter to all members of this lodge to place their cards with Tensas No. 84. Some half dozen or more, we understand, agreed to same while some new material will probably be secured.

Heavy down-pours of rain, the first in 1914, fell through the parish this week.

Business Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is only by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for particulars. Take Hall's Family Pills for constipation.
