OLIVER OIL COMPANY NOW!

We are drilling three wells, location of each may be seen by studying map below. We feel absolutely sure of each being a success.

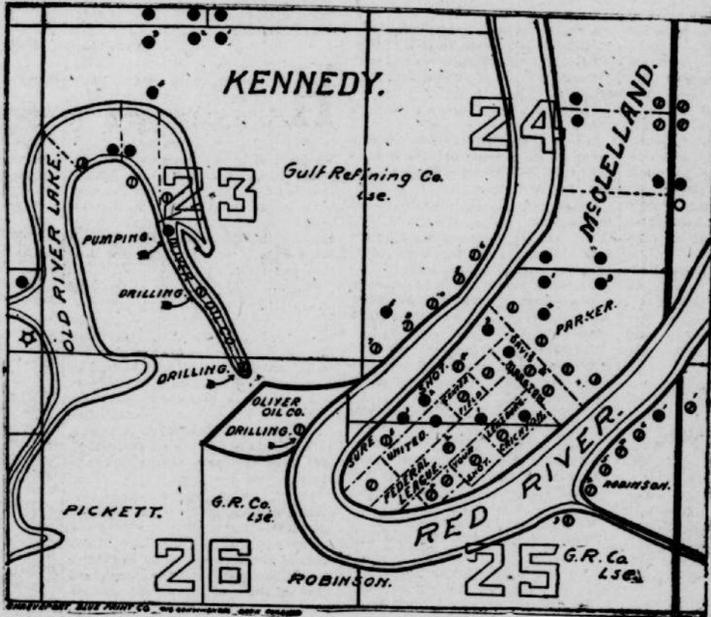

Our Well No. 1 is down 2075 feet, Well No. 2 is down 2041 feet and Well No. 3 is down 2345 feet, and the entire three are expected in this month. To share in profits received from these wells and all others which we will drill, JOIN US IMMEDIATELY.

Our stock now sells at par—\$25.00 per share; but on the 21st of August the price will advance to \$35.00 per share.

In other parts of the field we have under lease nearly one thousand acres, said to contain oil. We will continuously develop these holdings and our stockholders will share in all profits.

The OLIVER OIL CO. was organized to acquire and develop new leases and to steadily pay their stockholders dividends; it was NOT organized to promote enough stock to drill one or two holes in the ground. It is a permanent company and those who join us may expect steady dividends from their stock as long as there remains land to acquire and develop.

That's why some of the South's shrewdest business men have subscribed to our stock. Will you join us? If so, mail the coupon NOW!

One Thousand Acres in the World's Richest Oil Field on Which We will Continuously Operate. Our Stockholders Will Share on All Profits Received from All Drillings.

The many friends of Moss Levy, will be pained to learn of his death, which occurred at Atlantic City. Mr. Levy was born in St. Joseph and spent his boyhood here, where his father, Ben Levy, was a prominent business man.

To his bereaved family, the Gazette extends its sincere sympathy.

The competitive examination for the scholarship from Tensas parish to the State Normal School at Natchitoches, which was conducted at St. Joseph recently, resulted in the selection of Miss Grace Webb, of Waterproof, who made the highest average in the examination and who will therefore be declared the appointee. We understand Miss Webb only lacks one year of graduating at the Normal, hence it is probable that another examination for the same scholarship may be held next year, thus giving other candidates another chance.

The Gazette is in receipt of a post card from Mrs. B. B. Young from San Francisco, dated August 20th, saying: "We are leaving San Francisco this morning and have enjoyed the papers; are having a glorious trip, but it is disagreeably cold here." The card bears on reverse side a partial view of the Louisiana exhibit at the Panama-Pacific International Exposition and contains this wording: "Louisiana is the Ideal Corn and Live Stock Section, Most Fertile Soil—Abundant Rain Fall—Fine Climate. Large Area Adapted to the Growth of Citrus Fruits. Wonderful Opportunities. Investigate." They will return to St. Joseph Sunday.
