

The Evolution of the Oil Mill Industry.

Since the advent of the Boll Weevil, The Oil Mills in Louisiana have been content to work a small territory near home and run three weeks or three months in the year. To do this profitably, the initial profit in ton cottonseed had to be around \$6 to \$10 per ton.

A business can't mark time, it has to go forward or go backward.—Most of the Oil Mills have gone backward and only the real strong ones have been able to hang on.

This condition interests every cotton farmer, every seed seller, every merchant—an Oil Mill running a good part of the year is satisfied with \$1 or \$2 and puts this BIG difference in the price it pays for Cottonseed, thus putting the money in its legitimate channels. THE ALEXANDRIA COTTON OIL COMPANY desires to draw your attention to the fact that it has changed the condition first stated to the last: it is satisfied with \$1 or \$2 and pays the difference for Cottonseed.

This is THE COTTONSEED MARKET PLACE, it deserves your support, it deserves the preference on every ton Cottonseed you handle—for the simple reason that it made it possible for you to get the VALUE of your Cottonseed in Dollars and Cents: It has done for you and is doing a service of inestimable value; it is putting money in your pockets.

So far, prices have ranged from \$22 to \$26, your nearest Oil Mill assured you all the time that they were only worth \$18—some few even had the temerity to say \$15. Cottonseed may be worth \$30 ere long and then they will tell you that they are losing money—that \$22 or \$24 is all they are worth. This is the SHOP to pin your faith to—Whenever we'll be losing money it'll be because we are not buying—and when we are, we won't hold out \$6 or \$10 on you just because may be we could—The Liberal square deal, all cottonseed can bring—NEW BLOOD—Bright, Breezy, Bellicose and Aggressive.

Call us or wire us at our expense. Don't rest until your Cottonseed is on the way here—the BEST in PRICE and SERVICE will be your return.

The Song O' the Ford

By Richard N. Elliott, Connersville, Indiana

I have looked at the canopied coaches that ride
Like a ship of the gods on the sea,
And the swaths of their cutting are heavy and wide,
Like a bungalow out on a spree;
I have heard of their glory in story and scree,
But the more of their glory I seem
The better I know that the car that I need
Is the car that will work for a man.

I am not of the gods; I reside on the earth;
I am fond of the neighborhood, too,
And I want a machine that will render its worth
In the things that I want it to do;
And the ship of the gods may be good for the gink
With a million or so in his hoard,
But I know what I know, and I think what I think,
And I think I will get me a Ford.

I will get it, and settle, and put it to use,
And the ships of the gods may exult;
They may run them on a gallon of juice—
But, the Ford gets there first—on a quart.
They may smile at the little machine that I run,
They may laugh, if they like to, and can,
But the car that I want for myself is the one
That is worth what it costs to a man.

Joke a Ford and you joke at the sands of the seas
And the leaves when the forests are full;
When a bull rushes into a nest full of bees
Is the joke on the bees or the bull?
They are common—for everyone has 'em but me,
And I feel pretty lonesome and bored,
And I want what will be what I want it to be,
So I'm going to buy me a Ford.

Convinced Me
of its Value

"One of our salesmen demonstrated the value of the Long Distance Telephone to us. He was at Huntsville, Ala., and upon his own responsibility put in

Long Distance calls for fifteen merchants within a radius of several hundred miles.

"In less than one hour he had sold 2100 barrels of flour at a total cost to us of less than six dollars.

"Since then we have applied the Long Distance Bell Telephone to every feature of our business with most profitable results. The service is fine, the rates are reasonable and there is more satisfaction in one Long Distance Telephone talk than in half a dozen letters".
