

THE TENSAS GAZETTE

ST. JOSEPH, - - - LA.

FRIDAY, FEBRUARY 8, 1918.

LIBERTY LOAN COMMITTEE FOR TENSAS PARISH.

In accordance with letter of December 27th, 1917, from Federal Reserve Bank of Dallas, appointing Hon. F. H. Curry, as Permanent County Chairman of the Liberty Loan Organization, for the period of the war, and compliance with request of said Bank, said Chairman has appointed the following committees, to co-operate with him and the Government officials in the Third Drive of the Liberty Loan, to-wit:

E. D. Coleman, Dwight Stone, J. C. Grisson.

C. D. Brigham, H. W. May, Jr., G. C. Goldman.

G. H. Clinton, W. M. Davidson, D. A. O'Kelley.

F. L. Guthrie, R. W. Newell.

C. L. Clark, M. Jacoby.

C. L. Beisel, W. H. Scott.

Mr. Curry has also appointed a Speakers' Bureau, composed as follows: Hon. G. H. Clinton, Judge E. R. E. Kimbrough and Hon. B. F. Young.

Y. M. C. A. WAR'S WORK.

The recent campaign for funds for the Y. M. C. A. War Work resulted in the State of Louisiana making another record for herself in helping along the different organizations asking for financial aid since the war started. When the different States were being apportioned their share of the \$35,000,000.00 necessary for the execution of the plans of the National War Work Council of the Y. M. C. A., Louisiana was allotted \$125,000.00 of that amount. With incomplete returns from some parts of the State, C. S. Watson, who has charge of the collection headquarters, 106, City Bank Bldg., New Orleans, reports that \$299,000.00 had been pledged. This shows that the people of Louisiana have far more than doubled the amount they were asked to give. There could be no better proof of the splendid patriotic spirit that exists all over the State than the way the friends of the Y. M. C. A. have supported this campaign for giving comfort to our boys in training and at the front.

The district including Franklin, West Carroll, Richland, Madison, Tensas, Morehouse, Ouachita and East Carroll Parishes, raised a total of \$21,285.90. Of this amount \$1,750.81 came from St. Joseph and Tensas parish, the remainder being given by the other parishes of the district.

The main towns of each of the thirteen districts gave the following amounts: Shreveport, \$21,280.67; New Orleans, \$109,977.00; Ruston, \$3,484.73; Monroe, \$5,027.68; Mansfield, \$3,677.91; Winnfield, \$2,071.18; Alexandria, \$9,077.00; Lake Charles, \$10,903.50; Lafayette, \$2,031.00; Baton Rouge, \$13,000.00; New Iberia, \$2,040.00; Bogalusa, \$8,270.81; Thibodaux, \$2,555.00.

Since some of the above districts have not sent in complete reports there may be some changes in these figures. Should any pledges or cash be outstanding, kindly forward to the above address. Mr. Watson is very profuse in his appreciation of the prompt and kindly way in which every one over the State has helped to get together funds, and especially the hearty support rendered in every way possible by the press during the campaign.

PREPAREDNESS

This is the slogan of wise men. Stock are continually expected to get cuts, wounds, scratches, etc. The man who is prepared has his healing remedy on hand to stop all chances of blood poison. Farris' Healing Remedy is Highly Antiseptic. It is economical. One 5oz bottle makes \$2.00 worth of a healing oil or ointment. Money refunded if you are not satisfied.—Baker & Son.

State of Ohio, City of Toledo, Lucas County.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, county and state aforesaid, and that said firm will pay the sum of one hundred dollars for each and every case of catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY, My presence, this 7th day of December, A. D. 1886.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly upon the blood and mucous surfaces of the system. Send for testimonials, free.

F. J. CHENEY & Co., Toledo, O. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

START CAMPAIGN FOR FUNDS FOR WAR WORK.

Salvation Army to Raise Million Dollar Fund to Carry on its Efforts.

Capt. Ed. Summers of Natchez, Envoys in charge of the Salvation Army Post at that city, has requested the Gazette to announce that he will visit St. Joseph on next Monday and will be pleased to meet the people of this parish at the Court House, for the purpose of informing them of the work that has been done in the American Army in France by the Salvation Army. A drive for funds to aid the Salvation Army in the great work it is doing for the soldier boys "over there" will soon be made and it is the purpose of Capt. Summers' visit to Tensas parish to secure aid for the very deserving cause. We understand Tensas is assessed for a very neat little sum for this laudable work, and we fervently hope that we will subscribe not only the full amount expected of us but will as usual go over the top.

The following summary of the work being done by the Salvation Army among the boys in France is taken from the Natchez Democrat:

The Salvation Army has started a campaign to raise \$1,000,000 to carry out large plans for its work with the American troops in France. The effect of the salvation Army already under way has been commended by President Wilson and Secretary of War Baker.

There are forty American members of the Salvation Army in France at present, where they are running seven recreation and refreshment "Hutments," erected at a cost of \$41,000 in the advance camps of the expeditionary forces. One hundred members of the Salvation Army will go to France as soon as their transport can be arranged. There are at present 700 Salvationists at work in allied camps and 30,000 Salvationists serving in the British and American armies as soldiers.

The plans, which \$1,000,000 is required to complete, include the building of fifty additional Hutments in American Camps in France at cost of \$500,000. The army already has built 153 of these depots in the different camps of the allies, and has put up 77 military and naval homes at a cost of more than \$400,000, which will be increased to more than \$600,000 by the building of extensions.

The army has turned over 12 ambulances to the United States and its members are now running 35 ambulances in France and Russia. The Salvation Army ambulance service has handled more than 50,000 casualties in the last year. Other activities have been catering to 300,000 soldiers and sailors weekly during the last year; dispatching 41,000 food parcels and articles of clothing to prisoners of war; holding meetings attended by 100,000 men a week.

The national campaign is being conducted by Commander Evangeline Booth from her headquarters in New York.

President Wilson wrote the following letter to Miss Booth:

"My Dear Miss Booth: You may be sure that your telegram of November 15th warmed my heart, and brought me real cheer and encouragement. It is a message of just the sort that one needs in these trying times, and I hope that you will express to your associates my profound appreciation and entire confidence in their loyalty, their patriotism and their enthusiasm for the great work they are doing.

"Cordially and sincerely,

"WOODROW WILSON."

This was followed by a second letter from the President in which he said that he wished "to express admiration for the work that the Salvation Army has done, and sincerely hope that it will be fully sustained."

The following statement was issued by the Salvation Army headquarters:

"The Salvation Army's chief object is to help the soldiers and sailors to live up to the Christian principles that are the nation's most precious heritage. It aims to make the Catholic a better Catholic; the Jew a better Jew, and the Protestant a better Protestant. To accomplish this it is raising \$1,000,000, and plans to establish in every camp in France a Hutment equipped with libraries, daily newspapers, games light refreshments, etc. These centers, seven of which are already in operation, are the headquarters of devoted Christian women who as officers of the Salvation Army are devoting their every moment to the work."

The work of the women officers in France has received much praise from the officers and men in General Pershing's army. When the first snowstorm of the season had whitened and chilled the American camps the Army girls stayed up all through the night making steaming hot coffee, which they carried to all of the American boys on guard duty. The men, who were shivering from cold, received the coffee with much gratitude.

"It was hard work," wrote one of the girls, "and we were all cold and wet, but not nearly so cold and wet as the men on post, who had to fight their way forward and backward in the falling snow and wind. You should have heard them thank us for the coffee, which we gave them every half hour or so."

Quite as interesting are the letters that come from men serving their country in France. "I am hanging out at the Salvation Army hut most of the time," writes one boy to his mother, "and the four American women make it more like home than any place I know. They serve cake and chocolate every evening. All of the fellows like it."

The soldiers of the expeditionary forces are well equipped with money

but have little chance to use it legitimately. The officers of the Salvation Army are making an effort to get them to save, so that when they are discharged from the service they may have funds to tide them over until they can secure work. Money deposited at the Hutments is transmitted to any person or bank in the United States without charge to the soldier, and where soldiers are willing to send money home they have in many cases been persuaded to buy Liberty Bonds.

RED CROSS WORK.

Knitting Suggestions.

DON'TS FOR THE KNITTERS OF SOCKS.

Don't cast on tightly. An otherwise well knitted sock may become useless by having a tight cord at the top.

Don't knot your wool. Join the ends by splicing, or by knitting the ends double by two or three inches; or by running the new end into the old end with a worsted needle, which may always be kept on hand for this purpose.

Don't make a heel with a seam on the sole. Remember a man may not have a chance to change his socks for many days, and a lump or knot brings a blister. If the blister breaks, blood poisoning may set in and result in the loss of a foot or even a life. We cannot afford to lose our men through negligence or ignorance.

Don't use needles too fine for the wool. The knitting should be elastic; if too tightly knitted to sock becomes hard and boardlike in use.

Don't make a foot less than 11 inches long.

Don't hand in socks without having them washed and ironed. This makes them softer and more comfortable to the wearer, and insures a certain amount of shrinkage.

Other Suggestions.

We are not asking for trench caps, wash-cloths, hot-water bottle covers, or any of the knitted articles except sweaters, helmets, wristlets and socks.

We accept but do not ask for mufflers, the helmet with flaps having taken their place.

The seams in the two-piece helmets should be made as flat as possible, as the cap or steel helmet fits snugly over the knitted one. A large seam or ridge is very uncomfortable.

We suggest making wristlets with two thumb holes, each one beginning two inches from the end. This doubles the wear.

In making wristlets, it is important to cast on and bind off loosely.

Sweaters may measure either 23 or 25 inches in length.

Socks should measure as nearly as possible according to the Red Cross specifications. They may be larger, but NOT smaller. We urge that a smooth, plain heel and toe always be made, and the end of the toes be finished according to directions given in our pamphlet A. R. C. 400, as this does away with ridges or seams of any sort. After finishing, and all the stitches are slipped off, the wool should be woven lengthwise through the sock for 4 inches. This should also be done with the end of the wool at the beginning. If desired, odds and ends of wool may be used up in making narrow stripes or bands in tops of socks. Wash such yarn before using.

Socks should be tacked or tied together with a piece of wool—pins should not be used. Mark on a tag, and tie with a piece of wool, the size in inches. Wristlets should also be tied together in pairs, or slipped one inside the other.

Knitted wash-cloths and surgical sponges are tied in bundles of 10s.

When notes or names are enclosed with garments, they should be fastened on with a thread or piece of wool, not pinned.

Always cast on, and bind off stitches loosely.

Always have in mind when making these garments that they should be suitable in size for the average man; not too small or too large.

The several classes in Surgical Dressings work request contributions of old white goods, such as table clothes, napkins, etc., or old linen.

The chairman of the knitting department requests and solicits further assistance from those who can knit, and will be glad to furnish the necessary wool, and give any information she can.

Capt. Wm. S. Fulton, Coast Artillery Corps, who has been stationed at Fort Mills, Philippine Islands, writes: "I received orders to-day from the War Department to proceed to the United States by the next transport (sailing from Manila on January 15th, 1918) and report to the Coast Defenses of San Francisco, Cal., for duty. This transport goes via Japan and Honolulu and is due to arrive in San Francisco about February 12th, 1918."

MILK IN WINTER.

Why do your cows give less milk in winter than they do in summer? Just because nature does not supply them with grasses and green food. But we have come to the assistance of Dame Nature with B. A. Thomas' Stock Remedy which contains the very ingredients that the green feed supplies in season, only, of course, in a more highly concentrated form. We guarantee that this remedy will make your cows give more milk, and better milk with the same feed.—W. R. Baker & Son.

DR. D. L. SMITH

OPTOMETRIST

(Now of Vicksburg) will visit St. Joseph

On Monday, February 11th

(one day only)

At The Lissy House

Will be glad to serve anybody needing glasses or suffering from eye trouble.

THE "CARROLL" VICKSBURG, MISSISSIPPI.

BERNIE REID, Manager

We wish to advise that we have again opened our Dining Room, and which is conducted a la carte, is modern in price and containing the best market affords. We have expended a considerable sum in renovating our Cafe and Ladies' Lobby with the view of adding attractiveness and comfort for our patrons. We sincerely trust we will have privilege of catering to our Tensas friends, assuring all that nothing will be left undone that can add to their comfort and pleasure. We are open from 5:45 a. m. until 9 p. m.

"Oh! Goody!" "Butter-Kist" Pop Corn

Better than candy for the kiddies, and just right for the older ones. Only the perfectly popped grains, then buttered to just the right taste.

No burnt kernels, no "bachelors."

The wonderful "Butter-Kist" Popper, now at work in our store, is turning out hundreds of sacks of this tempting pop corn, so fresh, crisp and appetizing—untouched by hands. See this machine operate. Taste the delicious pop corn it turns out. You've never eaten anything like it before.

Take a sack or carton home tonight

On display on Main Street, in St. Joseph, in charge of W. H. Ward. Once tried means a permanent customer.

Mr. Automobile Owner:

Your Garage is now open and ready to serve you. When your car needs attention, bring it here.
