**NOTICE TO VOTERS!**

Public Notice is hereby given, that under Article VIII, Section 18 of the Constitution of this State, for the year 1921, there shall be, beginning January 2nd, 1922, a new and complete registration of Voters throughout this parish.

I hereby give notice that Registration Rolls will be open for such purposes, at my office at the Court House every day, except Sundays and legal holidays, for the purposes of registration.

All Voters are interested, both men and women, as all have to register to be qualified Electors.

C. H. ROWAN,  
Registrar of Voters.

Dec. 21st, 1921.

**Real Tire Price Reduction**

**Hydro-Toron 10,000 Miles Written Guarantee**

**THE HYDRO-TORON TIRES ARE:**

1. AS BIG AS CORD TIRES
2. BETTER THAN ANY CORD TIRE.
3. GUARANTEED FOR 10,000 MILES.
4. AGAINST (Stone Bruise) (Rim Cut) (Blow Out)
5. AND SOLD AT ORDINARY FABRIC TIRE PRICES.

We challenge the tire industry to make a tire that will give as great mileage as the HYDRO-TORON. It cannot be done unless TORON (Non Rot) fabric and internal hydraulic expansion are used.

SIZE	HYDRO-TORON TIRES	GOOD CORD TIRES	YOU SAVE

**GET COLOR INTO YOUR PALE CHEEKS**

**If Your Face is Your Fortune--Don't Look Like a Bankrupt**

Who does not want red lips, a good, clear, healthy complexion and bright, flashing eyes?

Some people have such wonderfully good health nothing seems to hurt them. Others could so easily have fine color and more strength and vigor if they would help nature with Gude's Pepto-Mangan. It is a splendid iron tonic that physicians have prescribed for thirty years. It is not an experiment. It is not merely a temporary help, because it makes plenty of red blood and, as everybody knows, red blood is the only sure foundation of permanent health and strength. Get Pepto-Mangan of your druggist--and take it a few weeks and see how much better you feel and look. Sold in liquid and tablet form.—Advertisement.

**FOR SALE**

**LEGHORN COCKS.**

D. W. Young's strain of White Leghorn cocks at \$2.00 each.

**PETIGREED COCKERELS.**

Young pedigreed cockerels of pen of J. W. Parks, bred strain barred rock, pair \$3.50 to \$5.00.

The above cocks are offered at these low figures because of the surplus now running on the yard; they are worth good deal more.

**JAS. P. ALLEN.**

**RELIGIOUS SERVICES IN TENAS PARISH ON SUNDAY,**  
11 a. m. and 7 p. m.

Rev. M. J. McLain, Presbyterian, St. Joseph; Newellton at night.  
Wesley Chapel—Rev. H. W. Cudd, Methodist; St. Joseph at night.

Miss Elizabeth Osborn, who is stenographer for the Caldwell State Co., at Waterproof, spent Sunday at St. Joseph.

Envoys W. O. Self of the Salvation Army post of Natchez, was a visitor to St. Joseph and perhaps other parts of the parish this week.

Thousands of weak, run-down men and women have reported astonishing gains in weight from the use of Tanlac.—W. R. Baker & Son.

Mrs. Nora S. Green has returned from a visit to Shreveport. She reports the Tensas colony over there all well and flourishing.

As will be seen by his notice elsewhere, Dr. Franks, optometrist, of Tallulah, will visit Tensas parish professionally next week.

An important meeting of the Board of Aldermen will be held at the office of Dr. Whitaker on next Tuesday morning at 9 o'clock. Full attendance is desired.

Mrs. Magruder Adams of Locust Ridge and son, Magruder, Jr., are visiting her sister, Mrs. Thos. M. Wade, Jr., during the absence of Mr. Wade, from home.

Mr. Richard M. Whitney returned this week from Georgia Tec. at Atlanta, for rest; Richard's health has been very bad all winter and his physicians advised relaxation from school work.

Miss John Maloney, late of Tallulah, is with Mr. J. P. Allen at "Sunnyside" for the present, succeeding Miss Whitehouse as stenographer, who went from here to Kansas City.

Mrs. Kate Johnston has been so indisposed this week that she had to be relieved from her household duties by her niece, Miss Beattie Guthrie; Mrs. Johnston is at present in bed, but is reported better as we go to press.

Mrs. Earl Hunter, near Waterproof, because of number on the yard, offers a few white Leghorn cocks for sale at \$2.00 each, and young cockerels from pedigreed pens of J. W. Parks, bred to strain barred rock, per pair \$3.50 to \$5.00.

Mrs. Eddie Yeagle has as her guest her sister, Mrs. W. H. McManus, of Hazelhurst. Miss Mr. Yeagle's sister Josie (Mrs. Wahl) is also here, her husband having charge of the landing. Mrs. Wahl was born here and is remembered very kindly by many of our older citizens.

Miss Lillian Aly, daughter of Mr. and Mrs. W. H. Aly, of this parish, was taken to Vicksburg this week by Dr. W. D. Noble for operation for appendicitis. The operation was found necessary after reaching Street's Sanitarium and was successful and she is since reported as doing well.

Mr. Thos. M. Wade, Jr., left on Tuesday for Chattanooga, Tenn., to attend the wedding of his cousin, Miss Louise Murdoch, and Dr. T. C. Crowell, which was celebrated on Thursday, 2nd inst. Much interest is felt in Tensas parish in this wedding, as the bride is a Tensas girl and the groom has lived at Newellton in days past. Dr. and Mrs. Crowell will make their home at Los Angeles, California, to which distant city they carry the good wishes of our entire people.

Mr. and Mrs. Fred A. Blanche, who have been on "Sarasac" plantation, the past year left this week for Baton Rouge, where he has accepted employment in the chemical laboratory of the Standard Oil plant. It is also Fred's purpose to take a post-graduate course at his alma matre, L. S. U., attending night lectures, taking the Master's degree, which will fit him for early promotion in his work. We are sorry to lose this young couple from Tensas parish, but are glad to see them prosper in another field.

What is looked forward to as being the two fastest basket ball games of the season will be played on Friday the 17th at Waterproof between the 1st and 2nd teams of the Jefferson Military College Giants, at Washington, Miss., and the 1st and 2nd teams of the Waterproof Tigers. The first game will be called at 2 o'clock p. m., the second following with short intermission for rest. The public is cordially invited, and the Tigers say they are going to mop up with the Giants.

We are pleased to learn that Miss Birdie Coleman's condition continues to improve and while she is not yet out of danger her friends are very hopeful for her early recovery. Miss Coleman is a lovely character, a devout Christian and has devoted her life's labors to the happiness and comfort of others, ever unselfish of self, and by her sacrificing efforts has made the world brighter for many who might not have seen their full need of sunshine. Unselfishness is one of the most beautiful attributes of nature. The pleasure of providing happiness and comfort for the less fortunate is greater far than enjoying such blessings ourselves, but—is it always appreciated?—a question pregnant with meaning to those who will give it thoughtful consideration.

**FERTILIZER TRUST vs. HY. FORD.**

We have at hand bulletin No. 2 of the National Fertilizer Association, of Philadelphia, which in effect is propaganda against Henry Ford's proposition to take over the Muscle Shoals plant for the manufacture of fertilizer. If, as alleged by the bulletin, the operation of the plant would be of such small importance in the fertilizer industry, why this expensive campaign of propaganda against Mr. Ford's proposition? Is it possible that the fertilizer trust has become a disinterested advocate of government economy and is spending its money to save Uncle Sam's strong box from depletion? Hardly possible. While we don't know anything at all about the practicability of Ford's proposition, the character and source of the opposition that it has aroused predisposes us to favor it.—Fayette Chronicle.

We regret to chronicle the unfortunate condition of Mr. Julius Morris, who has been in New Orleans for some time, undergoing treatment for his eyes, cataracts having formed on either eye. An operation was to have been performed this week and it is the sincere hope of his friends that his sight will be restored fully.

Mr. W. R. Baker has received a letter from Rev. A. S. Lutz, former Presiding Elder and now Conference Secretary of Board of Education of Methodist Episcopal Church, South, with office at Shreveport, acknowledging receipt of check for \$49.00, sent the Board by Mr. Baker, and representing collections for the cause of education taken up by Mr. Baker at St. Joseph. Rev. Lutz also stated in his letter that he will probably visit St. Joseph to preach some Sunday in February.

**SAN JOSE SCALE AND FRUIT TREES.**

(By A. J. Kirby, Adams County Agent, in Natchez Democrat)

The insect is not a native of the United States but appears to have come here from China where it occurs commonly on food plants. It was introduced into San Jose (pronounced San Hossy) Valley California, about 1870 and the name of the locality where it was first found has been given it. It is found on the following fruit trees in abundance: Peaches, pears, apples and plums and the privet hedge is also a host for it.

San Jose Scale is a minute, inconspicuous insect which does not, to the untrained observer, appear to be a living creature. The body of the living insect is concealed beneath the circular, waxen scale which it forms for its protection. The largest scales are smaller than an ordinary pin head in diameter and are quite flat. Beneath the scale the body of the insect may be found as a small, immovable yellow body which, if crushed, seems to be filled with a thin, yellow, oily liquid. The young of this species are born alive and their powers of reproduction are so remarkable that a tree containing only a few scales in the spring will be heavily infested by fall.

The injury is in two forms. The insect draws sap from the tree, which is not as injurious as causing a thickening of the cell walls and the result is starvation to the tips of the branches. The scale produces a destructive red stain around the point of attack, either on the infested fruit or on the bark of the tree.

The best known method of combating this insect is to spray during the winter months with Lime-Sulphur solution one gallon to eight gallons of water. However, this solution can only be applied during the winter or dormant period of the tree for it is liable to injure the tree if the leaves are green.

Tanlac is manufactured in one of the largest and most modernly equipped laboratories in the country.—W. R. Baker & Son.

Adv.

Mr. Oscar Levy has moved from his old stand adjoining the Davidson building, what was in former days known as the Blum store, to the corner store of the Steen building, last occupied by Louis Blackman. Under the artistic hand of Mr. Bernard Kaufman the new Levy store presents very neat and nobby appearance.
