LEFT WHEN OCEAN RETIRED

California Reports Finding Millions of Shells Far Above the Present Sea Level.

Oris L. Kennedy, an attorney of San Bernardino, Cal., has returned from an exploration trip on Painted Hill, which is 40 miles east of San Bernardino. He brought with him samples of seashells from the great bed of a one-time ocean that is older than Mount San Jacinto and a story of seeing an old Spanish musket and Indian water vessels in an inaccessible place on the hill.

Kennedy plans to organize a party to return and get the musket, which, he believes, is at least one hundred years old. To obtain the relic somebody will have to be lowered from a cliff on a rope and then swung into what probably is an old sea cavern.

Some of the shells, he said, were found 2,000 feet above sea level. He stated there probably were millions embedded in the rock formation.

Fashion Sponsors Gingham

EVERY gentlewoman welcomes the return to high favor of all the old, familiar cotton materials—the gingham, chambrays, organdies, voiles—that have a flavor of other days and the simple life about them. Eouses, simply designed, with every stitch of their making put in by hand, underlings carefully made and daintily trimmed, with pretty stitchery for decoration, and frocks for indoor and outdoor wear, of staple, familiar cotton goods, find themselves more highly regarded just now than for many a year. It is a reaction away from ostentatious dressing and reckless spending and is sponsored by the best people in the land.

For morning wear, in or out of town, there are such altogether delightful gingham dresses as that appearing

here in a yellow, black and white cross-bar. Insets of white cotton poplin at the front, on the sleeves and belt, with white pearl buttons, give a crisp, fresh touch that looks cool. The hat is made of the same materials with white poplin crown, gingham brim and band, and the flat button on the crown is covered with poplin. Finally a white parasol with wood handle softens the summer sunshine that filters through it. Either white or black footwear may be chosen for wear with a morning dress like this and the choice depends upon the demands the road to be traversed will make upon it.

Plain chambrays and gingham, with a little white organdy combined with them, make the prettiest house-dresses, while heavier white cottons are used with dresses for out of doors.

Destined for Easter Parade

It takes a practiced eye to discern, at first glance, the points that make the new spring suits different from many of those which preceded them. The most apparent change appears in the shortening of coats. These are more or less abbreviated, some of them having no skirt at the front. The eon jacket bears them company and is a candidate for honors that seems to be finding favor in the larger cities.

Two of the new models for spring that merit consideration, are shown above. An early Easter promises to bring them into use and compels a selection very soon. One of these suits, of wool gabardine in plain blue, is interesting because it demonstrates two of the most important of the new style features, the arrangement of

fullness at the front of the coat and the introduction of an embroidered band, separate from the coat and set on at the bottom. Plain skirts, shoe-top length, almost go without saying. A few large, bone buttons, a narrow belt and a new style collar commend this suit to the seeker for novelties.

The other suit, in a point check, is another example in which the skirt of the coat is full at the front and ripples all around. These checked suits are at their best when they are plain and this one has only a few buttons, by way of ornament.

Newest Styles Are Very Colorful.

The general styles which stand out with great prominence are decidedly colorful and varied in theme. The skirts are moderately short, a few longer skirts indicating the greater suitability of the short frocks and the fuller widths which, however, reveal themselves in straight effects in the many pleated models. Some skirts are actually full with flaring silhouettes, some give this effect with flounces and tucks. Necklines are varied from the high collar finished

with a Buster Brown effect to alternating depths in the round V and square necks more often finished collarless.

Steam Away Wrinkles.
Wrinkles in silk waists, mussed from being packed in a traveling bag, or lying in a drawer, may be easily removed without ironing, by shaking out and hanging over a hot radiator or register for a few minutes. The steam makes the wrinkles disappear as if by magic.

Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Adv.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

SALTS IF BACKACHE AND KIDNEYS HURT

Stop Eating Meat for a While if Your Bladder Is Troubling You.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach grows, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—Adv.
