

## FROM REMOTEST PARTS OF GLOBE

Ingredients Come From Many Lands Far Away From Here.

The ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth, and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, and Walkersville, Canada.

The Alps, Appennines, Pyrenees, Russian Asia, Brazil, West Indies, Rocky Mountains, Asla Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac, which, according to recent reports, is now having the largest sale of any medicine of its kind in the world, over 20,000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs, barks and flowers are received in their rough state from all parts of the globe, until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to tens of thousands of druggists throughout the United States and Canada, to supply a demand never before equalled by this or any other medicine.

Tanlac is sold by leading druggists everywhere.—Advertisement.

She Knew.

Ethel had taken Edith into confidence touching the manner of her husband's proposal.

"Why, I felt so sorry for the poor fellow," said Edith, "do you know his voice actually stuck in his throat?"

"I don't doubt it in the least," said Edith, "but however did you know he was proposing?"

"Well, you see," said Edith, with a blush, "I took a lip-reading course at college."

## ASPIRIN

Name "Bayer" on Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.—Adv.

Good Point of Motion Pictures. Jud Tunkins says motion pictures appeal to him because the audience is not expected to applaud and call the actors out to spoil the effect of a good scene.

## SUFFERED ALL A WOMAN COULD

Mrs. Meyer Finally Found Relief and Health in Lydia E. Pinkham's Vegetable Compound

Orange, Cal.—"I always feel very grateful to you, as some twenty years ago three doctors said I had to have a serious operation. I had a tumor, and ulcers which would gather and break. I had displacement so badly that I could hardly sit down at times, and it seemed as if I suffered every time that a woman could suffer. Then some one advised me to take Lydia E. Pinkham's Vegetable Compound, and I took it until I was cured and saved from the operation. I have told women of your wonderful medicine times without number, and I am willing that you should use these facts and my name if you like. I also used your Compound during the Change, and I can do all my own work but the heavy part, and can walk miles every day as I help my husband in the office."

—Mrs. J. H. Meyer, 412 South Orange St., Orange, California.

It is quite true that such troubles as Mrs. Meyer had may reach a stage where an operation is the only resource. On the other hand, a great many women have been restored to health by Lydia E. Pinkham's Vegetable Compound.

## SOMETHING TO THINK ABOUT

By F. A. WALKER

### MEN'S WEDDING RINGS.

THE Brooklyn Eagle, which reports most things accurately and well, published the news that in its city the use of wedding rings for men is gaining rapidly in popularity.

This is interesting and important if it means that men are coming to take the marriage ceremony and its vows more seriously and that the divorce rate is as a consequence to cease in its upward trend.

The wedding ring is a relic of savagery. It is probably a descendant of the metal bracelet and chain by which the earlier tribes of men assured themselves that their spouses would not wander away from the house domestic while the master of the house was away hunting.

Some more engaging wife, having convinced her husband of unquestionable fidelity, was rewarded by having the bracelet replaced by the ring and the chain done away with altogether.

The ring by itself showed that she was married. The absence of the chain said, "Here is an exceptionally fine wife." That flattered and pleased both parties.

But if the modern woman is expected to wear a wedding ring and advertise her married position, what good reason is there why the husband should not be marked in an equally prominent manner and his limitations of freedom equally advertised?

An old custom of the marriage ceremony consisted of putting the wedding ring first on the thumb, then on the first finger, then on the second, speaking the names of the Trinity as the ceremony proceeded, and, finally, when it rested on the third finger, it was supposed to signify that next to her duties to God the wife recognized her duties to her husband.

Of course, it ought not to require a ring or any other form of emblem to make a man or a woman hold sacred the vows of the altar. If a thin band of gold or platinum is all that restrains either one of them from wandering, then the divorce court is not very far away.

To most women the wedding ring is a very sacred thing. It is the last thing that goes to the pawnshop when adversity demands its toll. Just how much it means to the men, who in accordance with the new custom will wear it, is a question that only a test will settle.

The question of divorce in this country is fast getting to be of such dimensions as to demand serious corrective attention.

In twenty years the number of divorces granted annually has increased from about 60,000 to 133,000 with a total in the twenty years of nearly two millions.

In Nevada there are almost as many divorces as there are marriages, but, since Nevada has been the resort of many citizens from other states seeking freedom from marital ties, it may be fairer to point to Oregon which

has only two and a half times as many marriages as divorces.

In six counties in four states the record shows 50 per cent more divorces than marriages.

The innocent parties to these disagreements are the children and in the past 20 years more than 1,300,000 sons and daughters of disagreeing parents have been involved in the court proceedings which followed the desire for separation.

In many states it has come to be easier to get divorced than it is to get married. Scarcely two states have divorce laws alike, and what is illegal in one state becomes perfectly all right so far as the statutes go the minute the imaginary line between it and another commonwealth is crossed.

Perhaps the custom of wedding rings for men will have a good effect on the bad record recited above.

Perhaps, on the other hand, the men will wear their badges of matrimony in their vest pockets whenever they think a more conspicuous display will interfere with an evening a little gay than they would have at home.

But whatever means is necessary for the correction of present conditions should be determined and put into force.

Marriage should be made less of a farce and divorce less of a joke than present records show both to be.

The marriage relation is an important part of our civilization. It merits more attention and more perfection than it is at present receiving.

## SCHOOL DAYS

Wandering Wishbones Copyright

pass it by without a look. The simplest method of preparation is to peel the caps, cut up both stems and caps and saute in a little butter; when thoroughly cooked, add cream and serve on toast or as any creamed vegetable.

### Chicken Jelly Salad.

Soften one-half teaspoonful of gelatin in four tablespoonfuls of water, add one cupful of chicken broth, very hot; stir until the gelatin is well dissolved, add salt, pepper, onion juice and celery salt and chill for a short time. Add part of this gelatin mixture to one cupful of finely minced cooked chicken. Set the mold in ice water, add two or three teaspoonfuls of the gelatin mixture, then decorate the mold with capers, slices of olives, or figures cut from hard cooked egg or carrots; add a few drops of the gelatin to hold the decorations in place then add more broth; when nearly set add a little of the chicken mixture then alternate layers of broth and chicken. Let each layer become firm before another is added. Serve turned from the molds with lettuce and French or mayonnaise dressing.

### Smothered Calf's Liver.

Make 12 incisions in the upper surface of the liver with a sharp knife, having the cuts parallel. Insert bits of bacon in the cuts, sprinkle with salt, celery salt and dredge with flour; put three thin slices of bacon in a hot frying pan, put in the liver and brown the surface, turning frequently. Remove to a casserole, add five slices of carrot, half an onion, two cloves of parsley, 12 peppercorns, two sprigs and two cupfuls of boiling water. Cover closely and cook in a moderate oven an hour and a quarter, basting every 15 minutes. Remove the liver to a hot platter, reduce the liquid to one-half and strain over the meat. Surround with canned or freshly cooked string beans well seasoned with butter, pepper and a dash of vinegar and salt.

### THE ROMANCE OF WORDS

"POLTROON."

AT THE time of the drafts during the Civil war and the World war there were a few men who attempted to avoid compulsory military service by cutting off their trigger or first finger, arguing that this would prevent their being mustered into the army. On no less an authority than Archbishop Trench, a deep student of English, we find that a similar practice was responsible for the introduction into the language of the word "poltroon" as a synonym for arrant coward.

"In olden times," states the archbishop, "a self-mutilation of this description was not infrequent on the part of some cowardly shirking fellow who wished to escape his share in the defense of his country. He would cut off his right thumb, become incapable of drawing a bow and thus useless for the wars. It was not to be wondered at that Englishmen should have looked with extreme disdain upon one who had so basely exempted himself from service nor that the Latin phrase 'pollice truncus'—'one deprived of his thumb,' later shortened to the two-syllabled 'poltroon,' should afterward have become a name of scorn affixed to every base and cowardly evader of the duties and dangers of life."

# Children Cry For Fletcher's CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

Bears the Signature of

THE CENTAUR COMPANY, NEW YORK CITY.

### TRACING WHIMS OF FASHION

Each Century Seems to Have Seen Some Change for Which a Reason May Be Adduced.

In the Fifteenth century the waistline was discovered, and the pointed idea carried to extreme, says the New York Herald. The women wore tall pointed hats, pointed shoes, and points were introduced in every possible way. At this time the church was strongly in the ascendant and the models of the Madonna served as the inspiration for their costumes. As these little models were carved from ivory tusks, the women followed the sacred model, and the curve of the tusk was also copied in their carriage, giving a similar tilt to the figure, recently called the debutante slouch.

The Sixteenth century brought in corsets, the lengthened waistline and the introduction of the full skirt. It was in this period that Catherine de Medici brought in collars, and lace was used in women's costumes for the first time. In the Seventeenth century, known as the romantic period, the styles became very frivolous.

### ALL FRUIT GROWER'S FRIENDS

Birds That Should Be Protected Are Listed by the American Forestry Association.

The American Forestry association has published the fact that a cliff swallow will eat 1,000 flies, mosquitoes, wheat midges, or beetles in a day. The crops of four chickadees showed 1,028 eggs of the cankerworm. Take notice, Mr. Fruit Grower. A quail killed in a Texas cotton field had eaten 127 boll weevils, and a prairie chicken had over 300 of them in its crop. The bob white has been known to eat 135 different kinds of insects. It has been estimated that this bird will consume an average of 75,000 insects and 6,000,000 weed seeds in a year. House martins, swallows, and swifts eat rose beetles. May beetles, cucumber beetles and house flies. The quail eats Texas fever-carrying ticks; the killdeer and other shore birds feed on the larvae of disease-carrying mosquitoes; a night-hawk's evening meal consists of 500 adult mosquitoes.

### Women in Commercial Clubs.

The San Francisco Chamber of Commerce, recognizing the valuable service and successful achievement of women in business, has amended its by-laws to permit women to become members. All of the women thus far admitted are unmarried and engaged in a school work.

### New Shoes—Old Shoes—Tight Shoes

all feel the same if you shake into them some

Allen's Foot-Ease

Every Drop of Your Blood Should Be Absolutely Pure

Any slight disorder or impurities are the direct result of impure blood. is a source of danger, as every vital organ of the body depends upon the blood supply to properly perform its functions. You can in a large measure avoid liability to disease by the use of S. S. S. Chief Medical Adviser, who has been in constant use for more than fifty years. S. S. S. cleanses the blood thoroughly. It is sold by druggists everywhere. For valuable literature and medical advice absolutely free, write today to Chief Medical Adviser, 159 Swift Laboratory, Atlanta, Ga. S. S. S. is not sold or recommended for venereal diseases.

All in Good Time. It was at a children's picnic, and they were playing at farmyard, each youngster pretending to be his or her favorite animal. The woods echoed with grunting, barking and crowing—but one little girl sat silent. "Why don't you play?" asked one of the teachers. "Please, miss, I'm playing," she replied. "What are you, then?" "Please, miss, I'm a hen, and I'm laying an egg. When I've finished I shall cackle!"

Valuable. "Mr. Grabcoim seems to have a great deal of confidence in his private secretary." "The young man is worth \$20,000 a year to Mr. Grabcoim." "Yes?" "Why, he can send callers away, thinking that the only reason why they can't see the great man, who may be telling a funny story to another dummy director, is because he's working sixteen hours a day to keep the country from going to smash."

We Do. "He's a good-natured little fellow, isn't he?" "Yes. Those little fellows always have to be."

Really Quite Simple. Betty was late for school several days in succession, and her teacher took her to task for it, saying, "Can you give me a good reason for your being late?" Betty was quiet for a moment, and then said, "We just sleeps is all I know."

Hope. "Along with the figurehead of Hope," said the captain, "there's an anchor; but what's the use of my having an anchor if I can't find no bottom to let it go in?"

## Tastes Fine, and Better for Health POSTUM CEREAL

is a pure, wholesome cereal beverage, containing nothing harmful to nerves or digestion.

It should be boiled at least twenty minutes. Then Postum Cereal will reveal a true coffee-like richness of color and flavor.

"There's a Reason" Sold by grocers everywhere. Made by Postum Cereal Company, Inc. Bartle Creek, Michigan.

## Freed From Torture

Eaton's Cleared His Up-Set Stomach

"The people who have seen me suffer tortures from neuralgia brought on by an up-set stomach now see me perfectly sound and well—absolutely due to Eaton's." writes H. Long.

Profit by Mr. Long's experience, keep your stomach in healthy condition, fresh and cool, and avoid the ailments that come from an acid condition. Eaton's brings relief by taking up and carrying out the excess acidity and gases—does it quickly. Take an Eaton's after eating and see how wonderfully it helps you. Big box costs only a trifle with your druggist's guarantee.
