tween 5th & 6th
Streets.

3 GRAND PRESENTS GIV-
EN AWAY JANUARY
FIRST 1889. COME AND
GET A TICKET.

The Christmas holidays are the most dangerous of all the times of the year, and it is not alone the mischief lurking in highly seasoned turkeys, egg-nog, mince-pie, plum pudding and other highly seasoned food, which engage the epegastrum stomach and viscer, producing a complication of terrible diseases, but with names more terrible than the disease, but the holidays when the ubiquitous, unterrified and untamable boy is let loose for a season to afflict the earth with outlandish noises and to burn down woodsheds, stores, houses, etc., with Roman candles, rockets and other city destroying pyrotechnics, and to gather piles of inflammable materials, and build fires close to inflammable buildings and making of himself a dangerous torch-light procession, and it is, therefore, a season of general alarm which a man should contemplate with anxiety and which he should provide against instantly, or as soon as he has caught breath, from exhaustion in sealing this long sentence by going to T. D. Hays and getting his places all insured.

Movement of Shot When Fired.

If a man could only stand thirty or forty yards away from the muzzle of the gun and watch the charges of shot fly past him, he would be astonished at what he saw. The shot not only spreads out into a widening target as they fly, but they string out one behind the other to a much greater distance than they spread. Thus, with a cylinder gun, when the first shot of a charge roach a target that is forty yards away the last shot are lagging along ten yards behind. Even with a choke bored gun the shot lag behind eight yards in forty. This accounts for the long swath that is mowed in a flock of ducks on whom the charge of shot fall just right. About 5 per cent. only of the charge of shot arrive simultaneously at the target, but the balance of the first half of the charge is so close behind that a bird's muscles are not quick enough to get it out of the way, although those who have watched sitting birds when shot at have often seen them start as if to fly when the leading shot whistled by them, only to drop dead as they were overtaken by the leaden hail that followed.—New York Sun.

Curios.

A SERIOUS QUESTION.

Can the Cash System be Successfully Operated in the Land of Credit? Testimony of a Business Man who has Tried it, both in a Retail and Wholesale Way.

It has been a pet hobby with the EVENING NEWS and, in fact, an honest opinion, that the cash system could be made a success in Waco, and for testimony to that effect, more than anything else, one reporter interviewed a merchant who declares that the scheme is a fashionable one. This man deals in meats of all kinds, and has become so popular in his business that many of our best people have offered to put up from \$10 to \$20 in cash in advance, realizing, of course, that it is money in their pockets to buy from a strictly cash dealer.

Another feature has been introduced by this enterprising citizen, it is this: To families who use large quantities of meat, he is selling beef by the quarter and half at special rates; and it is a big thing to a man who has a big family. Just think of it! Half a beef at 34 cents, a fore-quarter at 24 cents, or a hind-quarter at 5 cents. This best buying in small quantities all holla, don't it? Besides these special features, which help the consumer to economize, he can get anything to be had in an inland town. Beef, pork, mutton, veal, fish, oysters, Vienna sausage, bologna sausage, pork sausage, liver sausage, head cheese, dressed turkeys, chickens etc., until you actually cannot rest. Of course you all know just who our reporter interviewed, for he does business on the square, and his name is Riddle--Riddle, the man who buys and sells cheap for cash. 208 south side of square.
