### TELEGRAPHIC NEWS.

#### THE DYNAMITE RESOLUTION IN THE HOUSE.

San Francisco's Latest Sensation - Failures for the Week - Other News.

CITY OF MEXICO, January 30.—A horrible crime is reported this morning from Santa Cruz, a negro was burned at the stake; no particulars.

LITTLE ROCK, January 30.—Four ballots for Senator-to-day showed a change of five votes to Jones, who received 45, Dunn 37, Berry 37.

WASHINGTON, January 30.—The President has appointed John Carlton, member of the Board of Indian Commissioners, vice Agnew, deceased.

SPRINGFIELD, Ill., January 30.—The Senate and Assembly went into joint session this afternoon, and after canvassing the votes, the new State officers were duly installed. Governor Oglesby's address was brief.

WASHINGTON, January 30.—The House Committee on Foreign Affairs referred the dynamite resolution to a sub-committee. The opinion is generally expressed that no action should be taken on the subject by the House.

WASHINGTON, January 30.—Representative Randall returned to Washington to-day, from Albany, New York, where he was in conference with President-elect Cleveland. Speaker Carlisle left for Albany last evening. He will probably return here to-morrow.

KANSAS, January 30.—This morning Jones, alias Jimmy Carroll, a notorious American burglar, who was sentenced some years ago to the penitentiary for robbing, was released and departed for Montreal. Before he left, he said, he exhibited American bonds to the value of \$100,000.

WASHINGTON, January 30.—Teller appeared again before the Committee on Payment of Pensions, Bounty and Back-pay, to-day, to testify in relation to his agent's connection with the transfer of the pension claim business by W. W. Fitzgerald to George Lemmon, another pension claim agent.

ST. LOUIS, Mo., January 30.—A Little Rock, Arkansas, special says: Fayette Melius was hanged at Corning, Clay county, this morning, for the murder of Franklin Hoeb, whom he killed on May 10, 1881. The doomed man met his death bravely, preserving a firm demeanor on the scaffold. He asserted his innocence to the last. The execution was witnessed by 2000 people.

WASHINGTON, January 30.—The House Committee on Claims has decided, by a vote of 9 to 4, to report the bill providing for refunding the tax imposed by the Government on States and Territories as a war tax under acts of Congress of August 5, 1861, and June 7, 1862, and releasing the States which yet owe the tax. The former debt of Texas under the acts was \$350,107, and is now \$225,000.

CITY OF MEXICO, January 30.—At the City of Morelia, State of Michoacan, Luis Gonzalez, editor of the Morelia Excelsior, the opposition paper to the Government, was arrested by order of the prefect of police and put to work the public highway with criminals. The Excelsior declares the prosecution to be a dishonorable and unbecoming violation of the authorities of Morelia, directed against an independent writer.

LONDON, January 30.—Harcourt, Home Secretary, has received information that the dynamite has threatened to blow up the British museum and extra precautions are being taken to protect the building. It was reported late this afternoon that the Scotland Yard authorities had arrested a dynamiter at his lodgings in the Westminster district, and found an infernal machine concealed in a room. Many extra policemen are posted about the British museum building. In the courts, where the antiquities are displayed, the exhibits have been taken off so that only a narrow passage has been left through the middle of the courts for eight-seers.

PITTSBURGH, January 30.—A Youngstown, Ohio, special says: At a meeting of the iron manufacturers of the Mahoning valley and Cleveland last night, it was resolved that in view of the high wages and low prices steel, it would be advisable to close down all the mills of the valley from the middle of February till June 1. One manufacturer stated that the mills would certainly suspend operations if the prospect did not improve, and asserted that amalgamated men in one mill in Pittsburgh were working at 25 cents below the scale, and that he had no doubt others were doing the same. Secretary Martin, of this city, characterizes the statement as false, and says the members of the association are receiving full scale wages here and elsewhere.

NEW YORK, January 30.—Failures for the last seven days number in the United States 317, Canada 37, Total 354, compared with 411 last week, and 420 the week previous. The decrease is in every section of the country, though failures in the West and South are still very numerous. Nothing has been heard of the whereabouts of S. E. Conant, managing editor of Harper's Weekly, the editor of that periodical this morning received a letter from the chief physician of the Pennsylvania State Asylum for the Insane, stating that late on Tuesday night a man applied for admission to the asylum. He said that two Russians were pursuing him and he was a newspaper man. In height he was five feet eight inches, but in no other respect did he resemble Conant. Fiskerton's detectives are no longer working on the case.

SAN FRANCISCO, Cal., January 30.—The newspapers have entered on a crusade against the iniquitous practices last discovered, of white mothers giving and selling their illegitimate children to the Chinese. Inquiry shows that a systematic traffic in this branch has been going on for a long time, mainly through the agency of private lying-in-hospitals. Five cases of white babies in the possession of female proprietors of Chinese brothels have been already discovered, and there are good grounds for believing there are hundreds of others, but the Chinese fearing discovery, have hid them out of sight. It is asserted to-night, on excellent authority, that the female children are purchased by the Chinese speculators and sent to China, where they are raised till 12 years old, when they are sold to Chinamen for large sums, who place them in their harems.

WASHINGTON, January 30.—Secretary Chandler, in response to the House resolution for information concerning the business upon which the Tallapoosa was engaged at the time of her loss, says she was then on her customary freighting cruise, but had been at times used to enable the Secretary of the Navy to visit naval stations or vessels, or the President to inspect the ships or squadrons. "The Dispatch and the Tallapoosa," says the Secretary, "while serving the purpose indicated, are not the most suitable vessels, and they should be replaced by other and newer ships whenever the construction of the navy is in accordance with modern requirements, has sufficiently progressed. The practice of other naval powers usually affords a proper guide to our action. All maintain, as a part of their navy, not only transport, dispatch steamers and fast sailing vessels, but also frigates, and fast sailing vessels, and Government officials in inspection and reviews of ships and squadrons. In response to the Senate resolution calling for information with respect to the proposed opening of the Oklahoma lands to settlement, the Secretary of the Interior says that while the lands remain as present they will continue to be a source of trouble. He can see no good reason why the immense tracts of unoccupied land shall be held for Indians to roam over, as they are desirable for settlement, but until the existing state of affairs has been changed by agreement with them, the integrity of our treaties should be maintained. Memorials from Indians protesting against opening the lands to settlement accompany the communication.

WANTS DIVORCE.

A divorce petition has been filed in the District court by Anna M. Bacon. The petition states that the petitioner was married to Ed Bacon on May 16, 1871, and that for seven years they had lived together more or less peacefully and happily until October 1, 1884, when she was left by her husband, who has not returned to her, although he still resides in the city.

A Big Match.

There will be a grand cocking main fought to-morrow afternoon at the cock pit, beginning at 2 o'clock sharp, between birds of Pat Cavanaugh and Mr. Standfield, of Eastland, who holds the gold medal of the championship of the continent. The conditions are for best three in five fights, for \$500 a side; smallest bird to weigh 5 pounds, largest to weigh 6.75. The birds to be fought on their merits, round weights. There are fine prospects to witness some sport.

Balls.

The San Antonio Mechanics and Workmen's Union ball will occur to-night at Casino ball.

The Arbeiter Verein masquerade ball will take place to-night at their hall on East Commerce street.

Professor Whitehead's weekly soiree took place to-night at Dullin's hall, and was attended by a select few of the pupils of his class and their friends.

A private dance will take place at a residence on Villita street to-night.

Carl Schurz Coming.

The Laurer received a pleasant call this morning from Mr. A. F. Matthews, the business manager of Carl Schurz. Mr. Matthews is in the city to make arrangements for Mr. Schurz to deliver a lecture on the "National Problem" on February 11. Mr. Matthews is a veteran newspaper man, and is the accredited correspondent of the Washington Critic.

Mr. Matthews is a gentleman who lives in Orange City, Fla., and what is more unobtrusively admits the soft impeachment.

Surprise Party.

A very pleasant surprise party was held last night at the residence of Mr. and Mrs. Dunbar, on Martin street, by a number of the lady and gentlemen friends of the Misses Dunbar. About 8 o'clock the party arrived and the remainder of the evening was pleasantly passed in parlor games, dancing, etc. The following round-dances and waltzes were among those present: Mrs. Harff, Mrs. Dr. Favre, Misses Upson, Misses Lacoste, Miss Bauer, Miss Johnson, Misses Dunbar, and Messrs. Brenning, L. Lacoste, Fries, T. B. Johnson and R. F. Johnson.

A Pistol Crack.

The two night operators of the Western Union telegraph company were started yesterday on Commerce street by an old man stopping them, and in a confidential manner assured them he had come to town for the express purpose of killing a man. He then pulled a very long pistol from his pocket and placed it under the nose of one of the operators, who felt relieved on looking down the barrel and saw that there were no cartridges in the revolving chamber. His natural sang-froid then returned, and he assumed a degree of unconcern, which quite surprised the old man, who after pulling the trigger open and finding it unloaded, ejaculated, "Be jabers! the second time I felt like killing a man and my nigger thing was not loaded. Good-by; with this farewell, the old fellow ran off.

Young to Die.

Dr. T. J. Tyner has suffered a sad bereavement by the death of his wife, Mrs. I. M. Tyner. The lady died last night at 11:30 at the family residence, No. 559 Avenue D. Mrs. Tyner's death will be sorely felt not only by her husband, but by the large circle of friends, to whom, during her short residence among them, she had endeared herself, whether by her fascinating vivacity or her nobleness and purity of life. The remains of the deceased lady will be conveyed to Nashville, Tenn., her former home, for interment. The obituary of the Light is extended to Dr. Tyner, in his latest issue.

### THE EXPOSITION.

#### MR. C. H. MUELLER'S ACCOUNT OF IT.

Bad Weather - New Orleans Citizens Grumbling - The Time to See It.

A Light reporter yesterday saw Mr. C. H. Mueller, the well known proprietor of the art gallery on Commerce street, who has just returned from a few days' visit to the New Orleans exposition. The reporter asked Mr. Mueller how he liked the exposition?

"I had a nice trip," said he, "though I did not see much in New Orleans, on account of the bad weather there during my stay. It is noticeable in regard to this exposition," continued Mr. Mueller, "that the New Orleans people, the citizens, are more disposed to grumble, and retard the exposition, than are the visitors; and they have not given it much encouragement. Money matters now trouble the officers of the exposition. At first they had more than they could spend, now they have the little. One day forward in this direction has been made, however, by the Cotton Exchange, which in one morning subscribed \$25,000 to its aid. As soon as the weather clears everything will be straightened up, and visitors will flock in. At present there are few visitors, and those are leaving, disappointed with the weather."

"Everything is not complete at the exposition yet, and it will take fully six weeks longer before all the exhibits are in and everything is in shape."

"How did you like the Texas exhibit, and does it compare with other States?"

"The Texas exhibit is larger and better than I expected to see it. During my short stay and hurried glance at the exposition, only having six days in which to see it all, with other States the Texas exhibit compared favorably. To the Texas Commissioner, Colonel J. F. Elliott, all praise should be given."

"The Mexican exhibit is not quite finished, another large pavilion being in course of construction in their grounds. The Mexicans and their exhibit attract great attention."

"An immense amount of work was done in the seven months the officers of the exposition were at work. The States' exhibits building and contents is alone worth going to see."

"The prices asked for all accommodations are very reasonable. The hotels are not as extortionate as I had heard, though probably when the city is crowded, especially the hotel-grad, they may be. Good hotel accommodations may be had for \$4 per day, though, of course, the finest hotels come higher and charge for the night."

"The hackmen's charges are enormous, though it is not absolutely necessary to use a hack, as the street cars traverse nearly all parts of the city, and you can go almost anywhere for five cents. I believe there are more hacks in San Antonio than there are in any other city. Saloons and restaurants are reasonable, and a fine dinner can be had for 75 cents or \$1. We had a pleasant and quick trip to New Orleans, and the accommodations are excellent. Everything comfortable, and conductors polite and obliging. Only 24 hours are consumed in making there at present."

"New Orleans has many interesting points for the tourist besides the exposition, amusements are many and diversified. First, the promenades, in the city, do not think it would be advisable for our citizens to visit New Orleans before March or at the latest, as everything will be finished and comfortable and all the sights can be seen."

"Thanking Mr. Mueller for this interesting interview, the Light reporter withdrew. The Laurer is glad to present his views of the great World's fair to our citizens, inasmuch as it is a good, clear-headed, German, and a conservative, and does not discourage visitors or intending visitors by grumbling at the inconveniences he may have encountered, and does not overpraise the city or what he saw, and nothing but plain facts are given by him. The exposition can be seen as readily as

FOUND DEAD.

A Colored Man Suddenly Expires On the Street.

About 7 o'clock last evening Allen Cook, a negro, was found dead in front of 230 Cruckett street. An inquest on the body was held this morning by Justice Neuenhofer, but at time of going to press it was not concluded. From the deposition of his wife it appears deceased suffered from heart disease, and this will probably be the verdict of the coroner's jury. Cook was chief bugler in the Ninth cavalry, and served at Fort Stockton. When mustered out in 1871, he came to San Antonio, and has lived here since that time. He had been ill for some time, and left his wife about three weeks ago to go to the poorhouse. Instead of going there he went to live with Henry Manson, near the San Pedro springs.

A Gutter Snipe

The following tally sheet was dropped near the caucus chamber of the City Council last night, and looks more like a bait to catch eager newspaper reporters than anything else. The facts given are supposed to be anything but correct:

Captain Sharbelin, City Marshal.  
Captain Cardenas, First Assistant Marshal.  
Captain Hughes, Second Assistant Marshal.  
C. G. Clendon, City Clerk.  
Antonio Brun, Market Master.  
C. P. Matlack, City Engineer.  
G. Frantz, Assessor.  
Henry Vermer, City Physician.  
Fritz Ross, Recorder's Clerk and Interpreter.  
Ed Blische, City Treasurer.  
Henry Vermer, City Physician.  
R. L. Blencourt, City Weigher.

Ladies approve of your smoking Little Joker tobacco.
