STATE OF MASSACHUSETTS, at St. Louis.
STATE OF ILLINOIS, at Centralia.
STATE OF NEW YORK, at Jacksonville.
STATE OF NEW JERSEY, at Albany.
STATE OF MARYLAND, at Baltimore.
STATE OF VIRGINIA, at Richmond.
STATE OF CALIFORNIA, at Placerville.
STATE OF PENNSYLVANIA, at Pittsburg.
STATE OF KENTUCKY, at Louisville.
STATE OF WISCONSIN, at Milwaukee.
Sliger's Grover & Baker's, Wood's, Slat's Webster's, Sewall's and twenty others, have ALL BEEN SUCCESSFULLY AND FAIRLY BEATEN.
No rational man can deny the fact that the WHEELER & WILSON SEWING MACHINE IS THE NEarest UTILITY OF ALL SEWING MACHINES: PAUL MORPHY OF CREATION.

The following is the published report of the PENNSYLVANIA STATE AGRICULTURAL SOCIETY, on awards of the Premiums at the conclusion of their Fair, at Pittsburg, on the 1st of October:
"The Committee have given a full opportunity to the exhibitors of several Sewing Machines to show and explain their several articles, and after a close investigation, have concluded, while Sliger's Machine, for heavy work is equal to any, and also an excellent Machine for general use, Grover & Baker's is more simple in its construction, and equal in its ability to perform for general purposes but without disparaging the merits of either of the above the Committee feel constrained to award a Diploma to the Wheeler & Wilson Machines as being the best or all family purposes."
(Signed) R. B. MOOREHEAD, MOSES F. SATON, WM. MURDOCK, JOHN A. SMALL, Committee.

The sales of Wheeler & Wilson's Sewing Machines in New Orleans, where the difference between the "Old time Shuttle" and Chain Stitch Machines and the new improved Wheeler & Wilson Machine is understood is more than four times greater than the sales of any Shuttle Machine, and has been for the last four months, more than FIFTY to one over Grover and Baker's complicated Chain Stitch Machine.
A large supply of the above Machines are on hand at every Steamship from New York, and for sale at the only Depot of WHEELER & WILSON'S SEWING MACHINES.

MANUFACTURERS OF
Stationary and Portable Steam Engines,
CALORIC ENGINES,
SAW MILLS, AND ALL DESCRIPTIONS OF PLANTATION MACHINERY,
Gullett's Patent Steel Brush Cotton Gin.
MR. STONE will be in Monroe and vicinity for the next three months, and Planters desiring to put up Steam next season, for Gin or Saw Mill, will find it to their interest to get his estimate before purchasing.
We were awarded the first Premium at Mississippi State Fair in November last for the best Stationary Engine on exhibition, when there was a large competition. As we are manufacturers of our Engines, we can furnish a better Engine for the price than those who barter in them. The Steel Brush Cotton Gin has taken the Premium wherever exhibited, and has gained more cotton and made a better sample from the same material, (this Gin will clean the cotton of nearly all the dust and sand,) and Planters run no risk in trying it, as NO PAY if it does not perform well.
When it is started properly it has no competition for speed, sample, and cleaning cotton of sand. We are all ways ready for competition on Plantations, or at Public Fairs, for tri-against the Gin makers of the world.
This Gin is made at 117 & 119 Tchou, pitouas Street, New Orleans.

DENTISTS,

MANUFACTURERS of Artificial Teeth of every size, shade and color, and inserted on Gold, Platina, Cheoplastic and Vulcanite base. We would be pleased to say to those requiring artificial teeth, that there is no method of inserting them of greater utility, comfort and satisfaction to the wearer surpassing Vulcanite base. It is ONLY ONE-HALF the price of Gold or Platina, and produces no irritation when first worn. Its adaptation is so perfect that the mouth can be restored to its proper contour with complete accuracy in cases where the best of Dentists have failed to effect the desired purpose with metal plates. Its cheapness, durability and cleanliness renders it highly commendable to all requiring artificial dentures.
Particular attention given to regulating children's teeth, and treatment of diseases pertaining to them.
Dr. Smith will be in Monroe September 25th, and remain three weeks, prepared to execute all operations entrusted to him in the most improved style.
