Bacon, canvassed hams, snowflake hominy, sugar, rice, and apples by the dozen or barrel can be found at the ALLIANCE STORE. The approaches for the bridges are about complete and the iron work will soon begin. Our stock of goods is sufficiently large to meet the demands of West Texas. Superior quality and neatest styles. Call on WARD BROS. What is the matter with the Literary society, such is not only highly entertaining but beneficial besides. McELREE'S WINE OF CARDUI for female diseases. Parties owing me notes and accounts are requested to settle same promptly when due. All notes and accounts put due if not paid soon will be placed out for collection. Respectfully. JOE S. CLARK'S. If it was not for paying out an editor might make some money but at the end of each month the Devil's to pay. Come and see. We have a nice line of queensware and glassware of the A. Peeler stock that we are selling at reduced prices to make room for more groceries, come and see for yourselves before buying. W. R. HARRIS & Co. By beginning now and constantly, faithfully working for the fair next fall, we would be sure to make a success. STOVES. I have just received a car of over one hundred of the Bridge Beach stoves of all sizes and kinds, which will be sold at bottom prices. JOE S. CLARK. When we say that those behind on subscription are requested to pay up. We don't put that in merely to fill up space. Notice. All parties owing me a note or account must meet their obligation promptly on Oct. 1st as it will be impossible for me give further time. J. L. BALLARD. Mr. H. M. Harvey, of Lampasas, passed through town Monday going to assist J. L. Baker in repairing his gin. You should see my large stock of saddlery and harness and price with me before buying. Largest stock ever brought to San Saba. Opposite Dofflemeyer Hotel. JOE S. CLARK. Mr. Lee Kirkpatrick of Santa Anna is in town. Lee's sociable disposition has won him a host of friends here. Blank notes in any quantity at 1 cent each. For sale at this office. \$0.75 per 100. \$1.50 per 250. \$2.50 per 500. \$4.00 per 1000. H. H. SMITH.

Saturday an election will be held in Lampasas for the purpose of testing whether or not corporation shall be abolished in that city. T. A. Murray is up with the time and is prepared to meet the demands of the people. Call and examine goods and prices. He will not be undersold. Mrs. Leona Lambertson of Santa Anna is visiting Mrs. Jas. F. Brown and other friends and relatives in San Saba. Full and complete assortment of ladies dress goods, consisting of Henrietta Novelties, Cashmeres, Glaghams, Prince, Flannels, Plain, Plaid, and Figured at T. A. MURRAY'S. Mr. E. Christenson has made some neat and substantial improvements to the residence he purchased from W. J. Spillman. New Goods! New Goods! We are now receiving and opening our Fall stock of Dry goods, boots, shoes, hats, dress goods, fabrics, notions, gents furnishings, etc., etc., at WARD BROS. From the amount of cotton seen in town it would seem that the whole county has been engaged in the cotton business. The new line of dry goods is just arriving, and Ward Bros. store is filled with a grand display of seasonable goods of all kinds, and lots of boxes to be unpacked yet; call in and see for yourself. We would be very pleased to hear from the Alliance, we have offered a column to be utilized by that organization, we would like to hear from them. Mrs. Joe S. Clark left last Friday on a visit to her old home and friends at Little Rock Ark. Joe is lonesome, but owing to rush of business he has not time to weep. Neuragic Persons. And those troubled with nervousness resulting from overwork will be relieved by taking Brown's Iron Bitters. Genuine has trade mark and crowned red lines on wrapper. We had one meeting for the fair and much interest was manifested. It is getting about time to call another meeting and live things up a little. I am now receiving my fall stock of goods, consisting of stoves, hardware, tinware, queensware, glassware, woodenware, and all kinds of farm machinery, saddles, harness, buggies, hacks, road carts, etc., which will be sold cheap. If you want bargains call on me. JOE S. CLARK. We have tried to raise a park, tried to raise a county exhibit, tried to raise a band fund, tried to raise a fair, but the only thing that can be successfully raised is a racket. As a mild, pleasant and reliable cathartic Cheatham's Tasteless Castor Oil is without a parallel. No trouble to take it; no trouble to administer to children. It is simply great. Price 25 cents. For sale by T. M. Gray. Would not San Saba be bettered by having her own fair so that people could come here rather than have our citizens go to fairs elsewhere. We could have one here by a little effort accompanied by a little spontulidus. Dissolution Notice. The firm of Gray & Montgomery has this day been dissolved by mutual consent. H. M. Montgomery retiring. T. M. Gray assumes all liabilities of the old firm, and collects all accounts, due said firm, Sept. 24th 1891. T. M. Gray. Referring to the above, I commend my successor, T. M. Gray, to my many friends and patrons, whom I ask to accept many thanks for their past favors and patronage. Yours Respectfully. H. M. Montgomery. We have been frequently asked, Who is olderly? We never tell who our correspondents are. We will add that one somebody once upon a time through curiosity opened a box and every thing got out but Hope alone remained, and every since that day or night the human family has been more or less, generally more, effected with CURIOSITY. We have just received a stock of hats, the finest assortment, the most elegant styles at the lowest down prices ever exhibited in the town of San Saba, and ask for your own good and comfort that you examine them before going elsewhere. We also have in transit the best selected stock of clothing, furnishing goods etc, the people of this county have ever seen. We are now prepared to fit you in suits ranging from \$3.00 to \$45.00. Come to see us. FAYER, OLIVER & FAYER. Wealth is supposed to give ease, but what if the possessor happens to have a child? Why, he should simply exchange 50 or 75 cents of his wealth for a bottle of Cheatham's Tasteless Chill Tonic and his ease would be restored. It always cures chills. Guaranteed. Sold by T. M. Gray.

Mr. H. M. Montgomery, formerly of the firm of Gray & Montgomery having sold his interest in the firm, left last Thursday for Austin. Mr. Montgomery is a popular, enterprising business young man. The News wishes him success in what-ever he undertakes. Teachers Take Notice. The Board of examiners will convene in San Saba Friday October 9 for the purpose of examining applicants. All who are expecting to teach are requested to be present promptly at 9 o'clock A. M. The Board will not meet again until in January 1892. B. Reagan, Sec. F. M. Behrens, Pres. Mr. R. Corn formerly a citizen of San Saba county but now of Erath county is among his many friends here. He says crops are good in his county, and that the coal mines of Erath are being worked, the coal is not first class but is of good quality. Cheatham's Tasteless Chill Tonic has gradually made its way into almost every southern state; we might say, every southern family. It would not have done this had it not been a medicine of rare merit. When you have chills give it an honest trial and it will surely cure you. Price 25 and 75 cents. Guaranteed. For sale by T. M. Gray. A lady was so reduced in flesh last summer by the chills that she actually had to wear suspenders to hold her coat up. Some friends advised her to take Cheatham's Tasteless Chill Tonic—she did so. That pair of suspenders for sale cheap. She now tips the beam at 140 lbs. For sale by T. M. Gray. J. N. Votaw, of Hico, is in town looking for a location for the law business. Mr. Tom Gray has purchased the interest of H. M. Montgomery in the drug store on South side Wallace Street. Tom is now sole proprietor. We wish him great success, and regret that H. M. Montgomery should withdraw from business. IF YOU WANT Keg pickles, Irish potatoes, onions, cabbage, cheese, dried grapes, vermacelli, gooseberries, blackberries, strawberries, pepper, spice, sage, french mustard, jellies, and canned grapes, apricots, pears, pears, peaches, pine apples, cinnamon, cloves, desiccated coconut, chocolate, extract of vanilla and lemon, potted ham, salmon, sardines, oysters, tobacco from 20 to 70 cents per lb., field kags, molasses kegs, tubs, wash boards, salt by the pound or sack. And many other good things at the ALLIANCE STORE. Mr. Editor, will you please answer the following question. We are told that water becomes ice at 32 degrees, then is the temperature of the ice susceptible of change? If so, why so? Most any child can ask questions that on ordinary man can't answer. We will simply answer, yes, and leave the wherefores for some body better posted. ARRIVALS. AT THE DOFFLEMYRE HOUSE. E. W. Redding, Galveston; C. D. Abshed, Newark; A. Abshed, Newark; J. N. Votaw, and wife, Hico; J. R. Berry, Cleburne; I. Sichel, Sautonia; S. Bacon, Galveston; C. G. Tripis, Waco; S. S. Woodcock, Mulvane Kan; E. Kerschauer, Galveston; J. A. Lovell, Milwaukee; J. C. Kelley, Brownwood. Prof. D. F. Brown, the well known Artist, will begin a class in art at the college Monday Oct. 5th, and will continue teaching so long as the class will justify. His terms are \$5 for twelve lessons, \$2.50 in advance, and the balance at the end of the 12 lessons. He is a specialist and possesses that happy gift of imparting his knowledge to his pupils. He guarantees satisfaction. He speaks of establishing an art school here, and devoting his entire time to the work. This would be quite an acquisition to our town. A long felt want supplied at last—a pleasant castor oil. It is known as Cheatham's Tasteless Castor Oil. Children take it with delight, any time of the day or night. Sweet as honey and just as effective as the plain sickening castor oil that we have been used to. Price 25 cents. Sold by T. M. Gray. The weather has been cool and delightful, but just a little dry. Health is good, and all are pleased with the progress of the county. But there is need of public energy, spirit, and effort to urge the county on to deeds of further greatness. A chronic creeper is bad enough, but a continual scratcher is worse. Letter instructs a mile than a hen. Hunt's Cure will do up the worst case of itch known. Price 50 cents. Sold by T. M. Gray. Gin! Gin! Gin! My gin has been completely overhauled and nearly all new machinery put in. Patent automatic suction elevator for unloading attached. My gin is now second to none outside of corporations and companies. Bring a bale at a load and it will be ginned at once from the wagon. The gin will be in regular operation Sept. 1. Liberal share of public patronage solicited. J. H. BEYERIDGE. Subscribe for the News.

Richland Springs. En. News.—Our school is progressing nicely, new students being enrolled nearly every day. Mr. Charlie Rimmer of Tennessee who has been visiting his brother S. W. Rimmer returned home Monday. Messrs N. C. Brown J. W. Brown, W. H. Gibbons and J. H. Taylor left Monday to attend the Brownwood Fair. An old gentleman by the name of Walker died on the Hall farm last Saturday evening and was buried at the grave yard near uncle Bob Devenports Sunday. Mr. Logan Smith and family was in town Sunday visiting the family of J. J. Carter. Rev. W. P. Smith of Cotton wood was in town Monday. Andy Lane Jr. of Nubin Ridge was in town one day this week. The gin after losing all day Saturday and half of the day Monday on account of the inspirator getting out of fix, is going again. There was some twenty bales of cotton left here Monday for San Saba. Mr. Cyrus Terry put up a model of his patent gale here Saturday and goes to Brownwood with it this week to exhibit it at the fair. Mr. C. C. Bibbs of Bowser Bend is here on the sick list. More next time. X. X. X. China Chips. We Chinamen are still numerous and China creek runs down stream just the same as ever, (when it rains.) We had a light shower to day, and I examined the drops to see if they were stamped U. S., but could not find it, so I guess the rain makers are giving us the go by; but if we still trust in the good master, and uncle Sam too, we will have rain ere long. Two wagon loads of Chinamen started for the Brownwood Fair this morning. Rev. Wilmett, of the Christian denomination, preached to our people Sunday. We have preaching every Sunday now. Several hundred acres of China will be rolled up in wire. Riley Roberts, Dick Sullivan, the Greenlee, Bros., C. G. Baker, John McKee and Mr. McCarley will begin fencing as soon as it rains. Mr. Editor, in crossing the street the other day, I saw and old Mexican woman applying the rod to a little Diaz. He begged in Spanish but cried in English just as plain. It seems they are learning some English. Some people are grumbling about the low prices of cotton; but when we take in consideration the good crops made of all kinds we think the farmers have many things to be thankful for. I think most all farmers will get out of debt, except to the preachers and Doctors, and they can haul them a little wood and cotton seed as usual. News is scarce and I will quit by singing the boys a little song. I'll sing you a song of country life, Where all the flowers bloom; Where free from toil and city strife. The old maid keeps a groom. The country has a beauty rare, Devoid of fleas and dust; I'll flee to its delightful air; I'll flee to it or bust. I love to hear the milk maids song, Reecho from the rocks; As silently she trips along, Her hair in golden locks. And as she walks the woods awhile, And gets behind the spruce, The farmers boy comes with a smile, And lings her like the dune. If it was not a goat, I might be a poet. A CHITSAMAN. McElree's Wine of Cardui and THE FORD'S BLACK-DRAUGHT are for sale by the following merchants in SAN SABA COUNTY: J. N. Edlins, San Saba. Ketchum & Son, San Saba. Thos. Hollis, Bend. Mrs. R. W. Daily, Cherokee. S. N. Hauner, Bend. J. N. Barkley, Cherokee. J. J. Taylor, Richland Springs. Talk up the Fair.

No Mean City. To one who has the daily opportunity of overlooking the entire vicinity of San Saba, at one single glance of the eye, the place presents no little attractiveness. More pretentious places have not half the advantages that San Saba has; and many place dubbed as "cities" almost from their location, have not half the claims to the appellation of city that this same quiet unobtrusive places really possess. Amongst the many material advantages that its citizens can rightfully claim for it, those that may be witnessed every Sunday morning stand out prominent in view. There is nothing more imposing to the lover of christianity than the chiming of church bells on the holy christian Sabbath. This sacred music is painfully absent in many places, but not so in San Saba. Here nearly all the different churches of the day are represented, and most of them have their houses of worship. From these the church bells send forth their peals Sabbath after Sabbath, summoning, first, the children and young people of the place, to the different churches, to engage in the important services of the Sunday school; and next, the old and the young to sacred worship in the great congregations; and citizens may be seen going in different directions to their respective places of worship. And this routine is kept up Sabbath after Sabbath. There are no hollows and consequently no hollows, nor are there any ravines in the town of San Saba. It really is "beautiful for situation" stretching out from east to west in a beautiful valley of the far famed San Saba river. It may be overlooked from an elevated standpoint a little south of it. From here it seems to be the margin of a most picturesque landscape stretching northward and eastward for many miles. The lovely San Saba river is just a mile north of town, and is ever moving along gracefully, without let or hindrance. No one can see it as it really is without taking a bird's eye view of it. San Saba is an important place to us of the vicinity as well as to the citizens of the whole county. And it takes daily life and activity to make it what it really is. In ancient times a place of such importance and such environment, would be regarded as "no mean city." If it takes energy, activity, capital and business to make a city, then San Saba is a city. If it takes a fine school in a fine college building, and quite a number of neat commodious churches to make a city, then San Saba is a city. If it takes a considerable number of quiet, yet active, stirring, progressive people who live in harmony and work for the general good of the place, to make a city, then San Saba is a city. Then why not call it a city? Who would be regarded as egotistic, and what other town would be wronged? Our town paper has not claimed the appellation, but this may be said to its credit. Our citizens have not aspired to such honor, but this does not detract the least bit from their just claims. The citizens of the county have not demanded it for their county seat, but have rather just watched its progress without boasting of its importance. The place is not incorporated, but what for that? It does not contain 5000 inhabitants, but what for that? It is old enough, but it does not take age to make a city, but growth. And if a place grows in the material elements and proportions of a city, then it is a city, and why not recognize it as such? Therefore, from this time onward let us say "Our city" and "The City of San Saba." W. J. W. To day closes the first month of the Public school at this place. The school has an able faculty and good work is being done by both pupils and teachers. Five teacher are engaged in the literary department, with one teacher in the music department and one in the art. Owing to many needed repairs the Trustees have deemed it proper to close the public term at the expiration of four months. The discipline of the school is mild, parental, refined and moral. The advantages offered by this school are as good as can be found elsewhere.

It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material that will not be injured by any kind of acid or alkali. It is the only water proofing material that will stand up to the most severe tests. It is the only water proofing material that will not become stiff and brittle with age. It is the only water proofing material
