## ROOSEVELT'S QUIET SUNDAY

ATTENDED METHODIST CHURCH  
AT SHARON SPRINGS, KAN.

Rev. Wm. Carter, a Presbyterian Min-  
ister of Kansas City Officiated—  
Two Little Girls Shared President's  
Hymn Book—He Shook Hands With  
a Large Number—Horseback Ride.

Sharon Springs, Kan., May 4.—  
President Roosevelt attended the little  
Methodist church at this place and  
listened to a most instructive ser-  
mon preached by a Presbyterian min-  
ister, Rev. William Carter of Kansas  
City, who came here for that purpose.  
A number of pastors from this neigh-  
borhood also participated. A pleasing  
incident occurred as the service be-  
gan. Two little girls were standing  
in the aisle near the president's pew.  
As soon as the president saw them  
he drew them into his pew and during  
the singing the three shared the same  
hymn book. At the conclusion of the  
services the president shook hands  
with a large number of people.

In the afternoon he went for a long  
horseback ride, accompanied by Sena-  
tors Burton and Long and President  
Butler of Columbia college. Senator  
Warren of Wyoming and Civil Service  
Commissioner Foulke joined the pres-  
ident here today. The town is full of  
strangers, some of them riding 50  
miles for that purpose.

A Sharon Springs admirer of the  
president presented to him today a  
two weeks' old badger. The little ani-  
mal is as friendly as can be, and will  
be taken home to Washington to go  
into the menagerie of the Roosevelt  
children.

### At Denver.

Denver, May 4.—Everything was in  
readiness for the reception of Presi-  
dent Roosevelt, who arrived in this  
city at 10:30 Monday morning. Two  
and a half hours was spent here and  
during that time the president deliv-  
ered an address at the state capitol and  
was driven through the principal busi-  
ness and residence sections and view-  
ed the city park. The streets through  
which the president traveled and the  
buildings adjacent thereto were lav-  
ishly decorated with flags and bunting  
and hundreds of pictures of President  
Roosevelt placed in conspicuous  
places.

President Roosevelt crossed the  
eastern border of Colorado before day-  
light and made his first stop at Hugo,  
to be the guest of the Lincoln cow-  
boys for breakfast. There he was  
joined by Governor Peabody and a  
committee of Denver citizens, who  
extended an informal welcome to the  
state. Major Wright proclaimed Mon-  
day a holiday.

A feature of the day was a gather-  
ing of school children at City park,  
they lined up on both sides of the  
driveways over which the president  
journeyed so as to give all an oppor-  
tunity to see the nation's chief.

### Public Debt Diminishing.

The monthly statement of the public  
debt shows that at the close of busi-  
ness April 30, 1903, the total debt less  
cash in the treasury amounted to \$938,  
935,418, a decrease as compared with  
April 1, 1902, of \$668,501. The debt is  
recapitulated as follows: Interest  
bearing debt, \$914,541,390; debt on  
which interest has ceased since matu-  
rity, \$1,230,050; debt bearing no in-  
terest, \$386,490,165; total, \$1,312,261,  
605. This amount, however, does not  
include \$895,925,869 in certificates and  
treasury notes outstanding. The cash  
in the treasury is classified as follows:  
Gold reserve, \$150,000,000; trust  
funds, \$895,425,869; general fund, \$158,  
359,111; in national bank depositories,  
\$150,389,771; in Philippine treasury to  
credit of United States disbursing of-  
fices, \$3,588,430; total, \$1,357,769,183,  
against which there are demand liabil-  
ities outstanding amounting to \$985,  
464,996, which leaves a cash balance on  
hand of \$373,326,187.

### Twenty Lives Lost.

Norfolk, Va., May 7.—A collision at  
sea, that cost the lives of 20 or more  
people and the sinking of the Clyde  
steamship Hamilton, occurred be-  
tween Winter lightship and Fenwick  
island lightship, on the Virginia coast,  
at 4:40 o'clock in the morning.

### Young Society People Drowned.

Shreveport, La., May 6.—Miss Evelyn  
Hodge, Miss I. Minge and Samuel  
Williams, three prominent young so-  
ciety people of this city, were drown-  
ed near here. They rowed up near a  
dam and were drawn down the falls  
by the eddy.

### Chinese Flock to Chicago.

Chicago, May 7.—Chinese are flock-  
ing to Chicago to take advantage of  
this golden opportunity to engage in  
the laundry business.

### Fatal Accident at Ymir, B. C.

Ymir, B. C., May 7.—A fatal accident  
at the Wilcox mine stamp mill re-  
sulted in the terrible death of Wil-  
liam Salmon.

Graceful submission conquers fate.

## FEARS AT FRANK, N. W. T.

Another Slide Is Expected—People  
Move.

Frank, N. W. T., May 4.—Opinions  
are divided among the handful of peo-  
ple left at Frank as to whether an-  
other rock slide is probable. Chief  
Engineer McHenry of the Canadian  
Pacific announces that from observa-  
tions taken at Turtle mountain an-  
other slide on the eastern side was  
possible. There is yet no marked in-  
dications of another slide. There is  
no excitement over these conjectures,  
although if a new slide should occur  
it would probably complete the de-  
struction of Frank. Practically only  
those remain in Frank who are de-  
tained by the police, engineering or  
other duties.

All who desired were taken from  
Frank to adjacent towns by a special  
train chartered by the government.  
Mr. McHenry is engineer of the entire  
system of the Canadian Pacific, and  
was formerly chief engineer of the  
Great Northern. He is considered an  
engineer of great ability and his warn-  
ings will have great weight. Many  
believe that even if there should be  
no further rock slides, the fear of such  
a recurrence will prevent further op-  
erations at the foot of Turtle moun-  
tain and may result in the abandon-  
ment of Frank as a town. This would  
mean great loss the invested interests  
being estimated at \$400,000. The mine  
was well equipped and the company  
had built cottages and buildings on a  
superior plan. It is doubtful if men  
can be induced to live in them, at least  
for a time.

## LEWIS & CLARK EXPOSITION.

Federated Trades of Portland Os-  
jects.

Portland, Ore., May 5.—In declaring  
its purpose to defeat by referendum  
vote, if possible, the state appropria-  
tion of \$500,000 for the Lewis and  
Clark exposition of 1905, the federated  
trades assembly of Portland has dealt  
what now appears to be a death blow  
to the fair project. The directors of  
the fair held a conference this after-  
noon behind closed doors and decided  
to stop all work of preparation and  
all expenditures of money pending de-  
termination of the referendum matter.  
If the state appropriation shall be de-  
feated on referendum vote, then sus-  
pension of the work ordered today will  
be made permanent. If the action of  
the legislature shall be sustained by  
the people work will be resumed.

### Resolutions of Trades Council

The resolutions of the federated  
trades council says that property own-  
ers have raised rents, sawmills have  
raised the price of lumber and have  
not raised wages, painters and car-  
penters have been refused an advance  
in pay the cost of living generally has  
increased and as the fair, as they con-  
ceive, will be a detriment to the work-  
ing man, they call on organized labor  
to set its ban of disapproval on the  
project.

According to estimates approved by  
the buildings and grounds committee  
at this meeting it was intended to ex-  
pend not less than \$10,000 immediately  
on the fair grounds in making im-  
provements of a more or less perman-  
ent character.

### Blow Up the Bank.

The Ottoman bank at Salonica, Eu-  
ropean Turkey, was destroyed by dy-  
namite recently. The Turkish postof-  
fice and other buildings were also at-  
tacked, resulting in a panic, during  
which two men were killed and two  
persons injured. A detachment of 2000  
additional troops has since arrived  
here from Smyrna.

The attack on the bank was carried  
out by two bands of men. One of  
them attacked the guard on duty at the  
bank and the other hurled the bombs.  
It is thought that the strong room  
resisted the explosion. Several of the  
men who took part in the attack have  
been arrested.

In addition to the two bands which  
attacked the bank, a number of men  
rushed through the principal streets of  
the city throwing bombs into the  
cafes. Afterward a bomb was thrown  
into the railway station and some lo-  
comotives were damaged.

### Steamer Destroyed by Bomb.

The destruction of the French steam-  
er Guadalquivir by an explosion while  
leaving this port was evidently caused  
by a bomb. A Bulgarian has been ar-  
rested in connection with the outrage.

### More Slides at Frank.

Blairmore, N. W. T., May 5.—Small  
slides have been coming from Turtle  
mountain at intervals during the past  
36 hours. Monday morning the largest  
rock slide at Frank since the first dis-  
astrous one occurred, causing much  
uneasiness among the handful of of-  
ficials left in Frank.

### Reelected Mayor of Omaha.

Omaha, Neb., May 7.—Frank E.  
Moore, republican, has again been  
elected mayor of Omaha for the third  
time, having beaten his three oppo-  
nents out with about 1000 plurality.

Maxim Gorki, the Russian novelist,  
who was extremely poor before he be-  
came popular as a writer, has pur-  
chased one of the most ancient estates  
on the Volga for \$150,000.

## RAN INTO EXCURSIONISTS

THE FLYER KILLS TWELVE PEOP-  
LE AT DETROIT, MICH.

The Dead and Wounded Are Mostly  
Polish People From Toledo, Ohio—  
They Were Waiting for Train in  
the Evening When a Train Comes  
From the Other Way.

Detroit, May 5.—A day of merry-  
making and celebration by 1500 Polish  
excursionists from Toledo was brought  
to a close by a frightful catastrophe  
at the corner of Canfield and De-  
quindre streets at 8:30 o'clock to-  
night, in which at least seven were  
killed. The excursion was given by  
the Polish Lancers of Toledo over the  
Lake Shore railroad. The excursion-  
ists left the train at the corner of  
Canfield and Dequindre streets in the  
morning, and were greeted by a num-  
ber of local Poles and Polish societies,  
who escorted the visitors to St.  
Joseph's church. An entertainment  
was held later at Harmonia hall.  
About 8 o'clock the visitors began to  
gather again at the corner of Canfield  
and Dequindre streets to take their  
train back to Toledo.

Both the Lake Shore and Grand  
Trunk tracks run out from the Brush  
street station on Dequindre street.  
Four policemen stood at the corner  
of Canfield and endeavored to keep  
the excursionists from crowding  
through the gates onto the track. De-  
spite their efforts, hundreds walked  
under or over the gates and crawled  
down the dark tracks to await the  
arrival of their train, which could be  
seen coming slowly from the station.  
Probably 1000 persons were scattered  
along the tracks for two blocks wait-  
ing to board the Lake Shore excur-  
sion train and secure seats. It was  
only a few blocks down the track,  
creeping carefully along.

Suddenly from out of the darkness  
came the Grand Trunk Chicago-New  
York express, known as the Pan-  
American Flyer. It plowed through  
the mass of people, throwing them to  
both sides of the track, bruised and  
maimed, and grinding a number of  
men under the wheels. Patrolman  
Fred Schultz, John Synda, a promi-  
ent local Pole, and numbers of others  
who were at the crossing, assert that  
the Flyer's whistle was not blown nor  
was the bell ringing. The Flyer was  
checked and stopped as quickly as pos-  
sible and backed to the scene of the  
catastrophe, where for two blocks  
the track was covered with mangled  
and dying people. Four of the dead  
were killed outright and the others  
died after being taken to the hospital.  
The tracks are very dark below Can-  
field street, and lanterns had to be  
brought into use to find the victims.  
A neighboring coal office, several  
houses and the gateman's shanty at  
the crossing were made temporary  
hospitals, and the wounded were car-  
ried into them until the ambulances  
arrived a few moments later. Every  
ambulance in the city was called to  
the scene, and the injured were soon  
under the care of surgeons in the  
hospitals.

### HAD MINED UNDER SALONICA.

With Intention of Blowing up the  
Town.

Paris, May 5.—A dispatch from Sa-  
lonica says the police in their search  
for prisoners suspected of being con-  
cerned in the outrages discovered that  
the revolutionists had mined the prin-  
cipal districts of the town with the in-  
tention of blowing them up simultane-  
ously but circumstances forced them  
to act before their preparations had  
been completed and the planned dis-  
aster was averted.

The Turkish population, however, is  
dangerously inflamed. It is estimated  
that 300 persons are dead as the re-  
sult of the outbreak. One thousand  
arrests have been made.

### Jailbreak at Bozeman, Mont.

Butte, Mont., May 6.—With a pen-  
knife for a pick and his fingers for a  
shovel, Mike Ryan, arrested on a  
charge of burglary, dug his way out  
of the Gallatin county jail at Boze-  
man. He escaped by a miracle and  
only his wit saved him. The sheriff  
afterwards found he had been playing  
"possum" to conceal the hole he had  
begun.

### Spokane to Roosevelt.

Spokane, May 6.—The general com-  
mittee in charge of the Roosevelt re-  
ception have decided that the souve-  
nirs to be presented to President  
Roosevelt and his party when they  
come here May 26 will be green onyx  
goblets. An onyx vase will also be  
presented to the president for Mrs.  
Roosevelt.

### Genius puts life into reptition.

When General Ludington retired  
from the quartermaster's department  
several days ago, he received from the  
officers who served under him a beau-  
tiful gold and silver loving cup.

It is said that nine-tenths of the peo-  
ple of New York city live in tenements.
