of five sessions closed at the Dudley

is being completed and will be in use
about the middle of October.

towns. The man is a fraud and a bilk.

Fred Greenwald, the well known hotel
man who disappeared from Mullan a
short time ago.

vicinity than ever before in the history
of the country.

Word comes from Ionia of the peculiar

Members of the reform school board,

Hardly had the news of the death
of their famous chief, Joseph, reached
the Nez Perce on their reservation
near Lewiston before letters and messengers
were dispatched in all directions
calling every Indian within hundreds
of miles of Lewiston to gather
for a grand feast and war dance
in memory of their departed leader
and to select his successor.

Five thousand Indians are expected
to arrive during the next two, or three
weeks, at which time the ceremony
will commence. These Indians will
not only be Nez Perce, but, invitations
have been sent to the Spokanes, Coeur
d'Alenes, Blackfoots, Yakimas, Flat-
heads and Umatillas. It will undoubtedly
be the largest gathering of red
men seen in Idaho since the war times
of the early 70s.

One of the Parkinson brothers, who
are known as the most notorious horse

by the Crow Indian police at the agency.

While the casket containing the body
of the infant child of Mr. and Mrs. D.
T. Sullivan of Butte was standing near
an open window in their home the
wind blew the lace curtain into the
flames of several candles burning near
the coffin. Before the fire could be
extinguished the casket was badly
scorched and the child's body also
suffered from contact with the flames.

The report of train robber John
Christie having led the officers to a
mountain cache, where several thousand
dollars of the plunder taken from the
North Coast Limited train at Bear-
mouth was secured by the officers, just

Heinze judges of Silver Bow county,

or will soon be, taken over by the
Amalgamated Copper company.

Continued dry weather throughout
the Coeur d'Alene district is causing
much uneasiness among the mineown-
ers and operators, as the scarcity of
water makes it impossible to run the
mills to their full capacity and as it
is at present none of the mines have
the amount of water they need.
