To Have Water and Light.

The city council in regular session Tuesday night took up the water and light franchise as modified and offered by Clifton A. Cochran and the same was considered informally and thoroughly discussed in every phase; the session lasting until a late hour. On Wednesday night the council met in adjourned regular session and the franchise with the few minor changes agreed upon at the meeting of the previous evening incorporated, was given the first and second readings and with one amendment will be brought up for final reading and passage on next Tuesday evening December 12. A provision of the franchise makes it obligatory that work commence within 60 days after the adoption and publication of the franchise.

The system calls for the installation of a reservoir holding at least 200,000 gallons of water which will come through the mains with gravity flow and in case of fire will have direct pressure from the pumps. The city is to pay for 10 hydrants and one arc lamp or its equivalent in smaller lights the first year and three lights the second year and, if the assessed valuation makes a certain increase, five lamps third year. The rates agreed upon are those common to towns in this section of Washington where steam must be used to generate the power for the plant. It is understood that Wood & Cochran will operate a flour and feed mill in connection with this city plant and a day current will be on, so that a fine opportunity to secure power will be afforded to those wishing to use it in operating manufacturing or other machinery. The water is to be taken from the Columbia river at a point to be designated by the council and is to be kept free from contamination by the company.
