BACK FROM ALASKA.

T. S. Melvin, well known to old timers here, is back from Alaska and stopping at Seattle until he recuperates. He writes to W. A. Morain that he is reduced to skin and bones and that a third Alaskan trip would certainly finish him. He made two inland trips this time, one of 70 and another of 75 miles, but got sick and was compelled to return to Seattle. He will be down to Kennewick as soon as he recovers his strength enough to get around.

A Timely Suggestion.

Mr. Tuttle last Sabbath evening, speaking of some of the things that Kennewick needed, referred to the fact that we had no ground set aside for a park. This certainly has been a great oversight on the part of the founders and promoters of the town.

A good park, centrally located, with shade trees, flowers, seats and nice walks would help wonderfully to beautify the town and make it attractive; and in this dry, dusty, treeless country it is really a necessity, for there is no place to go for shade and rest or recreation.

Can't some of our land owners and boomers be liberal enough to set aside a few acres for this purpose and thus benefit the community and make a great name for themselves? Let's talk it up. CITIZEN.

Farewell Reception.

One of the most pleasant gatherings in connection with the history of the First Presbyterian church of this city was enjoyed Wednesday evening, May 2nd. It was a farewell reception given by the ladies of the church to their retiring pastor, Rev. Thos. H. Dry, and his family, which took place at the beautiful home of Mr. and Mrs. Thos. McCain.

The house and lawn were arranged for the occasion, special seating being prepared on the lawn which was illuminated with Chinese lanterns. The house was also very beautifully decorated. Two hundred people were present to give expression of their good will to Rev. Dry. Addresses were made by Rev. Snape, pastor of the Congregational church, Rev. Tuttle of the Methodist church, and Rev. LaPorte, also of the Congregational church. Each spoke in high appreciation of Rev. Dry. Rev. LaPorte, who had known Mr. Dry from his first coming to Kennewick, gave a brief outline of the retiring pastor's work and the efficient service that he had given, not only to his own church but to all the other churches of the city. Rev. LaPorte also said that the principal element of Mr. Dry's ministry was that of deep spirituality which always characterized the brother's preaching; further, that Mr. Dry's work was a pioneer work, like the Master's work; a work of preparation, and, like the Master's, of short duration. Rev. Dry responded to the addresses in his own felicitous manner.

The ladies served refreshments which were in keeping with the other part of the program most excellent in both quality and quantity.

Many spoke their regrets at Mr. Dry's leaving this field in which he has done such a prosperous work. Mr. Dry said in his remarks that when he came to the field he had found a small congregation and a membership of only eight. Now the original eight had gone and there was a membership of fifty-six and all departments of the church in a good condition.

The band gave some of their best selections during the evening and this increased the pleasure of the reception. Mrs. Henry Bler brought her phonograph, which is an instrument above the average, and some very delightful music and recitations were furnished.

The reception was a grand success, giving evidence of much forthright and earnest work on the part of the ladies who had planned and executed it. Mr. Dry received many expressions of good will and must feel, on his departure, that he leaves many true friends.

He has been assigned to the Hover and Finley fields. At Hover he has already organized a church and secured 81 members. The foundation of the new church at Hover is laid and by June 30 Mr. Dry will have it completed. It is to cost \$2,500.

By Order of Committee.

THE NEW HOTEL

MODERN FIFTY-ROOM HOSTELRY AT A COST OF \$28,000

The new hotel so much talked about is now to materialize. The location will be at the corner of Second and Pacific streets, south of the King & Son building.

Through the courtesy of architect Swingle the Courier man was permitted to examine the plans. The structure's dimensions 75 x 85 feet with 75-ft. front on Second street, and will be three-stories of cement stone. The first floor provides hotel office, private office for H. A. Hover, dining room 26 x 46, and kitchen, bar, two sample rooms, lodging rooms for the help, and toilet rooms.

On the second floor are the fine apartment rooms, including two suites with private bath and toilet. On this floor there are 22 outside rooms and 8 inside rooms, besides the storage room, toilet and bath. On the third floor there are 20 rooms with every convenience and lighted either from the outside windows or from the large skylight above.

In general appearance the new hotel will be grand and second to none in furnishings and equipment. The dining room will be conducted on the European plan. When this house is completed Kennewick will be in a position to advertise and make good as a winter resort.

TWO CRATES OF STRAWBERRIES SHIPPED.

William Pastorius this morning brought in the first crate of berries for shipment and received the check for \$25.00 offered by the Columbia Commission Co. The Thornton boys were a close second, but did not have a full crate, it being completed by a few boxes from Section 7. Both crates will be shipped to the Seattle market. They are in fine condition and will undoubtedly bring a fine price.
