**WENATCHEE LETTER**

(From our regular correspondent.)

We note in the Spokesman-Review that Indian Agent A. M. Anderson has been removed.

Mr. Wood one of the reporters on the Republic, has a brother visiting him from Tacoma this week.

The basement for Mr. Barne's new building next to the Farmer's and Merchants bank is nearing completion. Mr. Watts has the contract.

A. N. Courtway, a member of the firm of The Eagle Livery & Transfer Company, took Tuesday morning's boat for Chelan, on business.

The basement for the proposed addition to the M. E. church is nearing completion, and when the addition is completed it will be the finest church in the city.

There seems to be all kinds of trains running at all hours, to illustrate, four passenger trains arrived in Wenatchee Tuesday morning within an hour and a half.

Hon. John D. Atkinson left for Olympia Monday after a short trip into Douglas county. John D. is looking well and feels better. He is quite confident of his nomination.

A band stand has been erected in the city park, and the Wenatchee band rendered their first open air concert in it Thursday. The city has also set out a number of trees in the park, and made other improvements.

Work has been resumed on the Griggs block. John T. Gamble of this place has the contract for the completion of the building. The contract calls for the completion of the building in six weeks. Let the good work go on.

The Christian Endeavor of the Presbyterian church met at the home of Mr. Patterson, on Nob Hill, last Friday evening. There were about 75 young people present and all reported a good time. The evening was spent in playing games, and after the games lunch was served for the small sum of ten cents.

A meeting of all those who are interested in baseball is called for to-morrow night at the hardware store of George Keating. Steps will be taken to effect a permanent organization.

John B. Adams,

The Leavenworth Mercantile Company is expanding in every direction. The growing business of the firm requires more room and they are having a balcony erected in the rear end of their store room, which when completed will give them an additional floor space about thirty feet square.

Arthur Allen, one of the expert fish hatchery men of this state has spent several days in our town this week. Mr. Allen has a homestead up near Chawaukum which he is holding down. The past year he has been in Oregon a good portion of the time in the employ of the state locating new fish hatcheries.

**Birthday Party**

Miss Bessie Walker celebrated her 11th birthday by entertaining a party of her little playmates Wednesday evening. Those present were: Myrtle and Maud Wall, Lillian English, Dagmar Rasmussen, Alma and Harold Turner, Lloyd, Charles and Inman Durand, Jessie Hansen, Leta Spencer, Arline Farmer, George Dye and Tommy Davis. After a jolly good time and plenty of ice cream and cake they departed for home leaving behind a token of remembrance and wishing Bessie many more such happy birthdays.

Mr. B. W. Phelps, of Mission, spent a day in our town the first part of the week and while here he paid the Echo a pleasant visit. Mr. Phelps came to Mission last fall with the very laudable purpose of engaging in the creamery business and would have long since been engaged in that business had he received the amount of encouragement his project deserved. No enterprise that we know of would be of greater benefit to the farmers of the Wenatchee valley than a creamery, furnishing a ready market for all the milk they could bring at a good price and by feeding all their forage right on the farm, or at least a great part of it. Wenatchee alone buys on the Sound and at Spokane over five thousand pounds of butter per month, for which she pays from 25 to 35 cents the year round.

You can't plow with a pine knot and do any business. It's useless to stub along with a broken down plow, and you have no need to, we keep all kinds, harrows and implements as well. Don't worry about the price, we make that and the terms right--Leavenworth Mercantile Company.

**A BASE BALL CLUB**

Leavenworth is to Have a Strong Organization--Ready to Meet All Comers

One day this week John B. Adams, who by the way, is a baseball enthusiast, took it into his head that this town ought to have a base ball team, as there was sufficient good material out of which to form two very good nines. All that was required was for some one to take hold and push the thing along. He started out Tuesday morning and by Wednesday night he succeeded in raising seventy-nine dollars to defray expenses of securing suitable grounds, balls, bats, masks, pads, bag and pins, and such other paraphernalia as is necessary to make a first-class outfit. All these things have been ordered and will be here in time to have the first game next Sunday.

A lease has been obtained on an ideal ball ground for the season. It is located in the valley north of the track, just beyond the Bloom residence. Already considerable work has been done on the ground to put it in good shape. It is the purpose to erect elevated seats for spectators and make a small charge for seats. Just enough to pay expenses.

A meeting is called for to-morrow night to elect officers at Keating's hardware store.

Before the summer is old it is the intention to play several match games with clubs of neighboring towns. Only a little practice the boys think will put them in shape to dispute honors with all who may offer to meet them on the ball ground.

**Club Meeting**

The Woman's Twentieth Century Club held a business meeting Wednesday afternoon at the home of Mrs. Frank Sutton. It was decided to hold their meetings weekly during the next month instead of fortnightly as heretofore.

They will meet next Wednesday, May 4th, with Mrs. McClure at which time a very interesting program will be given. The afternoon will be devoted principally to the St. Louis Exposition and several papers will be read on this topic.

**A Request**

We have only one more month of school and I want to urge on the parents the necessity of the pupil's remaining till the last day. The child who loses a few days at each end of the

school term is deprived of his rights. It is enough to discourage any child. There is no chance for promotion. The child will begin next fall where he leaves off now.

I also want to ask the parents to kindly look up our library books and send them in. There a great number of them still out. Manza Farmer, Principal.
