**CHARGES REASONABLE**  
Leave orders at Smith's Racket Store.  
**Lew Monger**

**PICTURES FRAMED**  
**P. H. TOMLINSON,**  
Leavenworth, Wash.

## THIRTY-FIVE TONS OF GOLD

That Amount Passed Through the Government Assay Office Last Year

Assayer Frederick A. Wing, of the Seattle government assay office, stated that the gold deposits in his office for the fiscal year which ended June 30, amounted to \$17,449,989.89. The weight of these deposits is given as 35.15 avoirdupois tons, while the number of deposits totaled 4,029.

Yukon territory heads the list, with a total of \$11,711,907.39, while Nome is second, with \$3,582,130.99. The latter is far in excess of the deposits from any other source of gold supply. The remainder of Alaska, \$884,539.07, a total for the territory of \$4,466,670.06.

The amount from British Columbia was \$1,043,773.86. The total deposits from Washington, Oregon, Idaho, Montana and adjoining states amounted to \$227,688.59.

The figures given do not indicate the total output of these districts, as a portion is shipped each year to the U. S. mints and to other U. S. assay offices. The Seattle office, however, receives a generous amount of the mineral harvest from these sections each year, and the total amount of deposits received since the establishment of the Seattle office July 15, 1898, just six years ago, shows that Mr. Wing and his staff of assistants have been kept busy handling the precious mineral.

The total amount of deposits made in the Seattle office since its establishment up to the first of the present month is \$86,314,780.07. Of this amount Alaska is credited with the total of \$17,906,678.93, of which Nome has sent in \$14,368,102.07 and the remainder of Alaska \$3,538,576.86. Yukon territory has yielded the enormous total of \$62,554,051.76 and British Columbia \$4,472,554.33.

The states of Washington, Oregon, Idaho, Montana, etc., have turned over to the Seattle office \$1,381,495.05 in the six years.

The number of tons given in the report for the total is 177.8. The number of troy ounces is 5,187,733.52, and the total number of deposits 28,815.

The mineral yield of the state of Washington for the calendar year 1903 was \$862,443.76. More than half of the total was gold, which amounted to \$466,364.38. The silver total was \$394,861.93. The value of the copper is given as \$12,102.22, and lead \$9,115.23.

**Poisoned by Canned Meat**

One day last week Chelan had a wholesale poisoning. At first it was thought to be typhoid malaria, which naturally caused considerable surprise and comment, as this vicinity is noted for its remarkable freedom from malarial diseases.

It was learned that those afflicted were among the number who attended the Boyd school picnic at Larson's grove recently, and all were taken down at about the same time, so the physicians have pronounced it ptomaine poisoning, caused by eating some kind of canned meat. While some of the cases were severe, the attending physicians say they think all the patients will recover—thirteen in number.

**A Persistent Office Seeker**

Governor Stanley of Kansas was once so pestered by office seekers, relates the Saturday Evening Post, that he found it necessary publicly to make the statement that in view of the exceedingly numerous applications for office he had received through the mails he should be unable to give any attention to them much less afford any hope of success to the various applicants.

In the course of a few days after making the statement in question the governor received the following note: "My Dear Governor—I understand that you have said that you were going to take a week off to destroy the letters asking for jobs. If everything else is gone, then, my dear governor, I should like the job of tearing up the letters."

When I was young it was the fashion to bleed folks for different complaints, but they say now that's a big mistake; the doctors still bleed, but they lance the pocket instead of the veins.

Mary had a little lad  
Whose face was fair to see,  
Because each night he had a drink  
Of Rocky Mountain tea.

## Regarding the "Henry" Bridge Peshastin, Wash., July 15, 1904.

Editor Leavenworth Echo:—

In your last issue you were not quite correct in regard to the remonstrance in regard to the "Tom Henry" bridge. Within the last year the county has incurred a bridge fund indebtedness of over \$13,000 taking over \$1000 per year to keep up interest. The bridge fund tax is limited by law and in this county only amounts to a little over \$4000 per year.

Under these conditions those signing the protest thought it unwise to incur a further indebtedness by spending over \$5000 in one year on two bridges about one and a half miles apart to benefit practically the same persons, especially as about one-half of those that the bridge was supposed to benefit had signed the protest, and to the fact that it is almost impossible to get any money expended to keep up present roads and bridges in some parts of the county. As for instance the road to Blewett, which is of great benefit to Leavenworth and vicinity, which has been condemned and has notices posted along it warning people that the road is dangerous and that those traveling it do so at their own risk.

The protest contained over 250 names of representative citizens and taxpayers of this end of the county and contained no reference whatever to any other location and another site was not considered by the great majority of those signing the same.

I thought it a duty to those signing the protest that their position should be made clear in the matter. You are at liberty to publish this over my signature if you so desire. Yours,  
S. P. Beecher.

## THE ST. LOUIS EXPOSITION

An Object Lesson for the Observant and a School for Grown People

The great St. Louis Exposition the latest and greatest of world shows, which have become features of modern life, at successive intervals, may very appropriately be called a school for grown-ups, where they can take a post-graduate course in world knowledge.

The following from the pen of Mr. Gilliland the humorist of the Baltimore American, who will make a lecturing tour in the west this fall and winter tells how impossible it is to describe the great show in words.

"What did I think of the fair? I won't tell you. Not that I'm modest—the Lord who built my lump of vanity knows better. But I can't, that's all. Like the freshman at college, 'I don't know no language but the English,' and that won't serve. There are only a few tame adjectives like magnificent 'superb' 'limitless' ect., and Tommy MacMechen has worn all those threadbare telling about the pike. But the nicest thing about the press work in connection with this fair is that the men entrusted with the job of telling absentees about it can't over state anything. They can't come up to it. They can tell folks 'it is bigger than Chicago.' Of course it is. It is also bigger than the town of Pinhook, Ind., and prettier. The comparison in one case is about as enlightening as in the other. When I looked at that fair I said to myself, 'No matter how good a fellows intentions might be he could not lie about this thing. It's the most discouraging situation to a willing liar that I ever encountered. The press notices sound good but the public think they are extravagant. If they could only come and see they would realize as I have realized that the story has not been one twentieth told, and that instead of suffering from lacerated consciences the chaps who wrote those advance notices are leaning against the oaks in Forest Park crying because there were no adjectives that meant what they wanted to say. 'The only way to lie about the expo. is to say it isn't infinitely grander than has been or can be told. And you'd be taking chances with lightning when you said it. Nobody tries to rob you' either. Go, see and believe.

Constipation, headache, backache, feels mean, no appetite, all run down. Hollister's Rocky Mountain Tea will make you well and keep you well. Money back, if it fails. 35 cents. Tea or tablet form. City Drug Store

## TURNER'S DANCE HALL

Spokane Business Men Celebrate White Families are at Summer Resort

The following roast on some of the prominent and respectable(?) business men of the city appeared in the Review of last Saturday. The Review should have given the names of the revelers for the benefit of those who visit the city and want somebody to show them the sights(?)

"With their wives and sweethearts camping at summer resorts or innocently slumbering at home, about thirty well known citizens of Spokane, assisted by an equal number of girls from Front avenue, ten kegs of beer and five dozen quarts of champagne, held one of the wildest orgies ever seen in this city in Turner's hall Thursday night. It was privately tipped that there would be a select French ball for about a dozen of the lonesome spirits of the town, but before the invitation list was closed it contained twenty names, and others were bidden by word of the mouth.

"Before the affair ended many of the features could have stunned the Molin Rouge for scandalousness. The cocottes were there in silks, satins and high heeled slippers. The revelers retired from the scenes of their debauchery about 2 a. m. An insufficient supply of hacks was easily overcome, as many of the girls climbed on top of the vehicles, while others bestrode the horses and were conveyed to their homes. When all were mounted ready for the journey a final round of champagne was had as a farewell salute.

"The gathering included single and married men, business men, bank employes, physicians and several members of the Spokane club. After the first exhilarations of music and wine were experienced other revelries were designed. Plain Dancing was forsaken and acrobatic stunts by the 'ladies' were called for and loudly applauded. As the orchestra purred its slowest waltz time the performers balanced themselves on their hands and swayed around the room to its rhythm. Wild ribald songs added to the hurrah until the party broke up. Not a respectable woman was present.

"Billy Crane, the comedian was filling an engagement in Denver not long ago and one evening after the play sat into a poker game at the swell Denver Club, where he is always a welcome guest. He had his rooms at the Brown Palace hotel just across the street, where Mrs Crane was sitting up for him. The game was just getting good when a messenger boy appeared with a parcel for the actor. With out any hesitation he opened it and unfolded to view a night shirt. A roar of laughter went up as Crane said solemnly: 'Gentlemen, I have decided to cash in.' He promised to buy cigars and things ad lib next day if his friends would keep quiet about the joke. They all agreed to do so of course but the story was to good and next day pretty much everybody in Denver had laughed at it.—Chicago Record.

While Secretary Hay was in the country last summer an important piece of official business was pending, and he arranged with Washington that any news that might arrive about the matter should be telegraphed to him in cipher. Day after day he waited but no telegram came. One morning happening to go to the lonely little telegraph office he said to the operator: I suppose you have received no dispatch for me? Why, yes, sir' the operator replied, there was a dispatch for you the other day but it was all twisted and confused. couldn't make head or tail of it so I didn't think it was any use to send it up to you.—Hartford Times.

Don't drink water out of a hose or hydrant. Draw it in to a glass or receptacle where you can see what you are to consume. Yesterday morning a living snake, worm, or something of like species a foot long and about the size of a knitting needle was taken from one of the pipes in the Reeder residence and is now on file in this office. Those accustomed to slacking their thirst any old way by quaffing sparkling city water will, after examining this exhibit feel inclined to be more cautious along those lines.—Ritzville News.

Small waists are no longer in style. It's the round plump waists that come by taking Hollister's Rocky Mountain Tea; that's all the go. 35 cents. Tea or tablet form. City Drug Store.
