**THIRTY-SIX YEARS.**

**The A. O. U. W. Celebrate their Anniversary with an Entertainment and Banquet.**

The members and guests who attended the social entertainment celebrating the thirty-sixth anniversary of the founding of the Ancient Order of United Workmen last Wednesday night in Fraternal Hall numbered one hundred and twenty-five.

Quite an elaborate program was rendered consisting of tableaux, songs, music and recitations.

The address of welcome was made by L. H. Laden in his usual happy and felicitous manner. He reviewed the progress of the order, paid an eloquent tribute to the founder of the order, Mr. Upchurch, and enlightened the public as to the good work that had been done in the name of the order, and the amount of money that had been paid to the widows and orphans of deceased members, and said a good word for the noble work done by fraternal orders in general.

After the quite long and unusually interesting program prepared by the committee the members and their guests sat down to a banquet prepared by Mrs. Phelan of the Degree of Honor, which is the woman's auxiliary. This feature, say the guests, has never been excelled in the history of fraternal entertainments in this town.

So enjoyable did all find the entertainment that they were loth to take their departure, and it was long after the usual hour when such gatherings break up before the last guest and member departed for home.

The Editor of the Echo regrets that sickness prevented him from taking advantage of a very kind invitation to be present.

The family of Emil Frank had a genuine surprise last Saturday night when a party of twenty-five or thirty drove up to his home in the Chumstick valley just after dark. It was a jolly party on amusement bent. They rode in wagons, the bottoms of which were well covered with hay. Several staid old fellows like Mr. Phelan and Mr. Bottsford got quite young and gay again and joined the young folks in singing on the way out. We have not the names of those who were so fortunate as to be of the party, but we are assured it was a most enjoyable affair. Mr. Frank put his large and elegant home at the pleasure of his guests and an old fashioned good time was had by all present.

A surprise party at the home of Geo. Briskey, across the river, last Wednesday night joined in by eighteen of the young people from town was one of the pastimes indulged in this week. Miss Susie and Mary Briskey were the victims of the well meant joke. Music, singing, games and then luncheon were indulged in. The party broke up at one o'clock.

**HOLMES FOR ASSESSOR**

**Brief Sketch of Republican Nominee For Important Office**

J. B. Holmes, the republican nominee for assessor of Chelan county, came to Washington from his native state of Michigan in 1888 and settled in the Waterville country. In 1896 he decided to change his location and settled in the Wenatchee valley, near what was then called Mission, but is now called Cashmere, and has lived there ever since. Mr. Holmes is a fruit grower and farmer, of which occupation he has made a splendid success, as his home place will testify. Mr. Holmes has never been an office seeker, and the present nomination came to him without solicitation on his part, by way of recognition of his sterling qualities as a citizen and tax payer and because he was thoroughly qualified to fill the position of assessor of this county. His warmest and best friends are those who have known him the longest. An old acquaintance of his in this town is Mr. Emil Frank, to whom he sold and delivered stock while he lived in Douglas county. Neither he or his opponent, Mr. Newland, have made an active canvass. Mr. Holmes says if, as he believes, there are more republicans than there are democrats he will be the next assessor. If republicans follow the advice of this paper he certainly will be.

The Leavenworth Mercantile Company is having a wood burning furnace installed in their cellar and will heat their store room with hot air this winter. Ed Ferguson has the contract to put in the furnace and pipes.

John Brender and wife came back from Kansas last Sunday. They left here about a month ago with the intention of making that their home but changed their mind and came back to Washington.

Mr. A. Lind is giving us another evidence of what he can do in the way of ornamental brick work in topping off the pillars in the Bjork building. He is this week engaged in putting round cones on each pillar made entirely of brick.

Judge J. J. King has been appointed inspector of elections for this voting box, and has received the books, stationery and ballots. L. J. Nelson was appointed one of the judges and Howell Ralston the other. The election will be held in one of the rooms of the new Bjork building.

Mr. Robert Dye this week closed a deal with P. H. Gilbert whereby he will again take possession of his barber shop. He had leased the shop for a year but both parties found it to their interest to cancel the lease.

Tom Burke returned from the St. Louis fair last Sunday. He says he had a good time and enjoyed the trip. He intended to devote ten days to seeing the sights, but before the time was up he had seen so much he got tired and quit.

The Echo had a very pleasant call from M. H. Cook. Mr. Cook is from Cincinnati, Ohio, and arrived here six weeks ago, spending his time with a brother in Wenatchee and J. B. Holmes, of Cashmere, his brother-in-law. By occupation Mr. Cook is a railroad man, having spent many years in the motive department of the Big Four. He is very much charmed with this country and will no doubt locate somewhere in the state.

In behalf of the Degree of Honor, I wish to thank all who so kindly assisted in making the program of Wednesday evening—the 36th anniversary of the Workman—such a success, and more especially thank those who were not members of the order.

Mrs. D. McCoy, Chairman Entertainment Com. J. B. Holmes, of Cashmere, the republican nominee for assessor, made this town his first visit during the campaign the past week, and made a brief call on the editor of the Echo. This was his first visit in about a year and he applied a number of improvements in the town.

A. E. Downing who has been in the employ of the Lamb-Davis Lumber Co. for the past year as civil engineer, severed his connection with the company last Saturday. He has made arrangements for his family to spend the winter in Seattle. He left for Wenatchee yesterday morning and will go from there to Seattle to spend a few days with his family. He will continue to make this his home until after the election. Being a candidate on the democratic ticket for county surveyor he can not say until after the election just what his plans are for the future. Mr. Downing is a competent engineer and a thorough gentleman, who has made many friends during his residence here.
