## City Dray Line

Does all kinds of hauling  
Delivers freight, baggage and express

L. H. TURNER, Prop.

## UNCLE JOHN HOLDEN

Does Things  
ALL OVER THE CITY  
such as delivering freight, express and baggage  
Leavenworth, Wash.

## FARMERS PHONE

Will Be Extended to Cashmere in the Early Spring.

## SUPERIOR TELEPHONE SYSTEM

A Proposition to Be Put Before the People to Extend the Line to Leavenworth

The town of Cashmere has closed a deal with the Farmers Telephone Company, of Wenatchee, whereby the company will put its system in that town. Mr. Arthur Gunn represented the company before a public meeting of the citizens of the community one day last week made the following proposition which was accepted and a committee appointed to solicit stock subscriptions. For every \$180.00 in stock subscribed the company will build four miles of telephone line.

A central will be established in Cashmere, open from 8 a. m. to 8 p. m., or so long as an operator can be secured at a cost not to exceed \$25 per month. As many lines as possible will be plugged into the Wenatchee central during the hours when the Cashmere central is closed, as the wires will accommodate. When 100 subscribers are secured in Cashmere a 24 hour service will be instituted.

Every subscriber to the stock of the company at the rate of \$50.00 per share will receive a telephone for a monthly rental of \$1.00. Non-subscribers to the stock will pay \$1.50 per month. Toll charges to be abolished in all cases. Should any one use a line more than 3 minutes a charge of five cents will be made for each minute over three.

Telephones will be installed free within a distance of 300 feet of the line. Any further distance must be paid for by subscriber.

A phone will be installed at the depot free of charge.

Mr. Gunn told the writer that he would put much the same proposition before the people of Leavenworth at an early day.

From conversations had with a number of the residents of the Chumstick valley we know that the people of that valley are anxious to be put in telephone communication with the outside world and it is quite possible that arrangements could be made to extend the line to Lake Wenatchee as the Chumstick valley line would be in the direction of the lake.

### A Mammoth Enterprise.

Geo. H. Gray & Son, of Entiat, who are furnishing the electric power for lighting the town of Waterville, are now figuring on a mammoth undertaking in the line of irrigation. It is their intention to utilize their extra power for the purpose of irrigating the lands all along the Columbia valley.

Messrs. Gray & Son are well pleased with the plant they have installed and will, if necessary to carry out the scheme they have in view of irrigation, add more power to their plant. An enterprise of this kind will mean a large expenditure of money by this company and it will also mean an increase in income to the fruit raisers in the valley. It is hoped that the enterprise will meet with success.—Big Bend Empire.

### Sues Great Northern.

Wm. H. Doyle and Lottie Doyle vs. Great Northern Railway Company is the title of a \$50,000 damage suit started this week in the superior court here. There is quite a story behind this suit. Doyle is the fireman who was injured several years ago when the Great Northern passenger train stuck in the Cascade tunnel. He with the others was overcome with the smoke and gases and fell against the firebox, burning his foot horribly. He recovered, however, and the Great Northern managed to secure a settlement out of him for \$500 for the injuries sustained. Shortly afterwards he was sent to the asylum at Medical Lake, having become insane. While there his foot which had been injured bothered him to such an extent that it was finally amputated. He began to mend at once and in a short time was discharged as cured.

A couple of months ago his wife filed suit for divorce and attached his account in a Spokane bank. Nothing more was heard from the action until this week the fact developed that they have let bygones be bygones and be-

come parties to this suit against the railway company for \$50,000 damages. They base their suit on the claim that at the time Doyle settled for \$500 he was not in his right mind, as a result of his injuries, in as much as he recovered his mind as soon as his foot was amputated. The case will come up at the next jury term, the last of this month.—Wenatchee Advance

### Advertise Chelan County.

At a meeting of the trustees of the Commercial Club last Saturday afternoon, the matter of a Chelan County exhibit at the Portland Fair was discussed at length. It was unanimously decided to lend every energy toward securing a union of the several different communities and towns in the county for one big display of the products of the county instead of several smaller community exhibits. The plan which the officers of the Club decided to propose is that the four incorporated towns, Chelan, Lakeside, Cashmere and Wenatchee and if possible Leavenworth, shall each appropriate \$150, making an aggregate sum of \$750 and that the county commissioners, as allowed by the law passed by the legislature last week, give a like sum, which would furnish a working capital of \$1,500. That about \$1,000 to \$1,200 be devoted to the publication of a booklet advertising Chelan County and her industries and resources, the book to be replete with pictures of the different localities throughout the county and scenes of the principal industries thereof. Then that each of the five towns appoint one commissioner and the county three more, these eight to comprise a board with full power to go ahead and get up a general exhibit of the whole county. The idea is that, in order to make it doubly certain that the necessary time and work will be put into the gathering of an exhaustive display, this commission hire a suitable man to devote a month, or several months as the case may be, exclusively to this work. Secretary Littlefield was instructed to correspond with the commercial bodies of the four towns named and find out what they think of the plan and whether or not they will do their part to push it through successfully, or, if no, what suggestions they have to make.—Wenatchee Advance.

### Bloodhounds for Spokane.

So many criminals have gone unwhipped of the law in Spokane in the past year because of inability to discover them that effort will be made to run them down with bloodhounds. Dr. F. M. Pike, says the Review, is taking an interest in the matter.

A Siberian and a English bloodhound are being trained to play a part in the detection of crime in Spokane. The dogs are owned by Dr. F. M. Pike, and are being trained by Harry Draper. The dogs are young and a Siberian bloodhound is being imported from the convict camps of Texas to add in the education of the Spokane dogs. "We are training the dogs and expect that they will help in the detection of crime in Spokane," said Harry Draper yesterday. "If a pair of properly trained bloodhounds had been available the tracking of Arao, the Japanese slayer of Sam Chow, would have been an easy matter."

"The dogs are wonderful animals. They tracked me through the timber on the North Side the other day for a mile and a half."

"It is marvelous the way the dogs pick up a scent and stick to it. They travel fast, and a man has to be on horseback or a wheel to keep up with them."

"We will keep the dogs available, so that if anything does come up they can be used."

### Taxes Soon Due Again.

Taxes on real estate will become due on the first Monday in February succeeding the year for which the assessment was made. A rebate of 3 per cent is allowed to all taxpayers who shall pay the taxes on real property in one payment and in full on or before March 15. Taxes on real estate are payable in installments when total tax payable by one person is two dollars or more—one half on or before May 31 and the remaining half on or before Nov. 30. Delinquent taxes bear interest at the rate of 15 per cent per annum from delinquency until paid.

An Everett capitalist announces that he will at once establish a cheese factory at Olympia upon receiving assurance of the supply of milk from 500 cows.

## THE EAGLES' BALL

A Large and Enthusiastic Crowd Monday Night.

## THE EVENT OF THE SEASON

More Than Seventy-five Couples Attend "Home Sweet Home" at Four in the Morning.

Last Monday evening the Eagles gave their first annual ball at Tholin & Smith's Opera House which proved to be one of the most successful entertainments given in the city this winter. The hall was beautifully decorated with streamers and electric lights comprising the Eagle's emblematic colors. A huge eagle sat peacefully in a cage on the stage which was quite an attraction for the merry makers.

The crowd began to gather early and the grand march was started at 9:30 when the orchestra played "The March of the Eagles," a piece of music especially composed and arranged by Prof. Jas. McDaniels for the occasion, and which proved to be very popular. The worthy president, H. E. Carr led in which over seventy-five couples participated.

No pains was spared during the entire evening by the floor committee in assisting all of the unacquainted in supplying them with the full quota of dances. The program was followed out closely up to midnight, when a short intermission was taken and everybody repaired themselves to the Hotel Overland where a bountiful repast was served to all that desired to replenish the inner man. After lunch the dancing was again resumed and all began with renewed vigor and remained until the early hour of morning.

The music was furnished by the popular McDaniels Family Orchestra and in their ever ready manner of responding to the many encores they received throughout the evening they are truly worthy of the many compliments paid them by the many music loving people who had the pleasure of dancing to their sweet strains.

To Mr. John B. Adams, the efficient floor manager, assisted by an ever ready reception committee composed of Wynne Faulkner, J. W. Teshera, C. W. Moon, O. J. Wold and Mr. Billups, is due a great deal of credit for the happy manner in which the floor program was gone through.

The Eagles without question did themselves proud on this occasion and those who had the pleasure of attending their first annual ball can only speak in the highest terms of the manner in which order was preserved throughout the entire evening.

### Steam Heat in the Round House.

The railroad company is spending several thousand dollars in putting in steam heating plant in the round house. A gang of men have been at work the past 10 days in arranging and putting up the pipes. About two car loads of pipe from two to four inches in diameter will be used. In addition to this a large new steam pump will be erected to be used to wash out engines and oil boilers. These and other improvements that have been made in the equipments the past few months would indicate that the railroad company has no intention of moving the division point from Leavenworth. The coal sheds and other buildings will be overhauled and possibly rebuilt in the early spring.

### Feared the Worst.

Friday Vizer, a familiar negro, about town in a certain part of Mississippi, had been found dead, and being a member of no church or lodge—very unusual for a negro—there was no one to pray for his soul in the great beyond. A few old intimates, however, carried the body to the cemetery in a rude pine coffin, and Bob McLaven, one of the number, an old "befo-de-war dandy," was called upon for a few remarks. Bob removed his hat and stepped reverently and sadly towards the open grave, and in solemn, funeral tones said:

"Friday Vizer, you is gone. We hopes you is gone whar we expects you ain't."—February Lippincott's.

The Odd Fellows, Knights of Pythias and some other orders are planning to put up a handsome structure in Wenatchee early in the summer for the use of the different lodges. The building is to cost about ten thousand dollars.
