Mayor Sampson went to Seattle yesterday to interview L. C. Gillman, attorney for the railroad company in the hope that some modification of the plan of the overhead bridge can be agreed upon. It is very evident that to complete the crossing according to present plans will result in closing front street or making the crossing useless so far as vehicles are concerned.

Miss Hannibal's millinery store is completed and she will announce her opening next week. She has received several large orders of goods and more will be coming in this week. J. B. Hathaway left at this office last week some samples of Spitzenberg, Jonathan and winter Banana apples that were raised on what is known as the Sam Ellinger place on the ridge south of town. The apples were as hard and firm as when plucked from the tree last October. The keeping quality of the apples grown in this vicinity is most remarkable. The apples Mr. Hathaway had will keep until July, or fully ten months.

Since that awful loss of life in the school house fire in Cleveland last week the different towns in Washington have been making an investigation of the facilities for escaping from a burning school building. In Wenatchee they found that conditions are not at all satisfactory. Has our own school board given the matter thought? Do the doors swing outward? This is one most important consideration.

W. T. Kelley met with a serious accident the fore part of the week. While attempting to board a moving engine his foot slipped on the bar, and he was thrown into a pile of cinders, his head striking against a rail. The fall rendered him unconscious and laying across one of the tracks. A railroad employee passing by saw the prostrate man and carried him to a place of safety, where he revived some two hours later. Mr. Kelley's head is badly cut up, but he is congratulating himself that he got off so easily.

THE SCHOOL ENTERTAINMENT

Proved a Great Success Financially and Otherwise

One of the largest crowds ever assembled in the opera house greeted the children last Friday night. Without going into particulars we may say that the entertainment was a great success in every way. Too much credit cannot be given the teachers for the time devoted to training the children. It was understood that the net proceeds were to go toward paying for the piano bought last fall. It is very gratifying to say that thru the liberal patronage of the people of the town the net proceeds amounted to over \$125.

GARRETT AND GARRETT

Have Moved Their Outfit Up the Canyon and Will Erect the Steel for Great Power Plant

Garrett & Garrett, who built the steel bridge across the Columbia river at Wenatchee, last week shipped five cars of tools and hoisting machinery to the power plant three miles up the canyon. Five cars of the steel for the bridge are here in the yard and the large steel tubes made of three-quarter inch boiler steel, 8 1/2 feet in diameter, in 40-foot sections, will begin to arrive in from 30 to 40 days. There is approximately 3000 feet of this steel tubing to be riveted together, besides putting up the steel bridge on which the pipe line will cross the river.

Messrs. Garrett & Garrett have three or four months' work right here and will employ from 50 to 100 men.

SCHOOL NOTES

Nota Peake has withdrawn from school to go home. We regret she cannot finish the year's work here.

Payne and Karl Pfeiffer and Leo and Frederick Hathaway entered school this week.

Mary Otto and Georgia Doty are out of school this week on account of sickness.

Clarke Marble, David Stephens and Helen Roberts were out of school this week.

Sada Hoshigowa, a Japanese girl, enrolled in the first grade last week. Those absent this week from Miss Navarre's room are Nettie Davis, Lyle Monkton, Nancy Stephens, Roscoe Howerton, Florence Benjamin, Dudley Emerson and Amelia Frank.

Fred Egan is out of school on account of sickness.

Those neither absent nor tardy in the second grade last week were: Inman Durand, Thomas Featherstone, Clifford Hagler, Ralph Harris, Alonzo Hartman, Chas. Hathaway, Lester Hood, Clarence Huston, Eddie James, Morris Mason, Max Sprömberg, Walter Stacy, George Thomas, Edward Richie, Harold Woldenberg, Margaret Albright, Lizzie Beard, May Chapman, Muriel Debord, Cynthia Lingley, Hazel Lowell, Magdaline McCoy, Gwendolene Mc-

Leod, Winona Miles, Alice Otto, Oriette Peterson and Hulda Frost.

The school entertainment, so much talked of and advertised, is now on the list of past events. To say that it was successful, especially financially is putting it mildly. The receipts were \$150.90. The net is \$125.75. This goes toward the piano which was installed last fall in the school. We certainly appreciate the reward of our efforts in giving this entertainment. We are not advocates of a promiscuous number of these entertainments during the school year, but one or two a year is certainly excellent training for the children. Some intimations have been going the rounds that the entertainment should be repeated. If this sentiment is sufficient we should consider a second appearance for those who were unable to be present at the first because of a lack of room.

There seems to be some misunderstanding about the compulsory attendance law. Anyone looking into the matter will find that the secretary of the board is held liable if he does not enforce the law. The district will forfeit one fourth of its apportionment if the law is not carried out in every instance. Then the secretary to protect himself requires the principal to enforce the law to the letter, or the principal is liable to a fine. Furthermore, in order that this law may be enforced, an attendance officer is appointed by the board, to whom the principal submits all names of absences and tardiness, and the officer must look into the cases and report. The above being the conditions, should anyone feel offended if the attendance officer comes to inquire about those who are absent or tardy? To carry out the law the principal must have every child between the ages of 8 and 15 in school every day or have a valid excuse for absence. This information he cannot get except upon investigation. And the attendance officer is the proper man, according to the law, to secure the information.

The school now boasts of a new flag, which may be seen flying from the flag staff on any nice day school is in session.

PEACH BLOSSOM FLOUR MUST BE THE BEST During the year 1907 there was sold of this popular brand of flour 95,876 sacks, and it might be added, that the only reason more was not sold is the inability of the mill to make more of this brand in one year.
