

BUY WHAT YOU NEED AT HOME

A Square Deal Between Local Buyers and Sellers Should Prevail

The Echo this week arraigns Leavenworth purchasers of commodities for disloyalty to home merchants.

The merchants are entitled to the home trade because their interests are identical with those of all other residents of the town.

The entire community is damaged by the purchase at retail of every bill of goods not bought of the home merchant, when it is possible to do so.

The stranger is urged to these reflections by overhearing a business man of Leavenworth say: "I am going to buy my groceries in Seattle hereafter, and I don't care who knows it."

But there is another side to the prism. Do the merchants do their part? Are they not charging more for commodities than is legitimate?

They should keep their prices down to an equitable basis. No reasonable person objects to paying a fair profit; no reasonable person should demand more.

SETTLERS FLEE BEFORE FLAMES

FIRES RAGING IN FORESTS OF NORTHERN IDAHO.

LOSS MAY RUN IN MILLIONS

Along Pend d'Oreille River Ashen Waste Is Mile Wide and Several Miles Long.

Spokane, Aug. 24.—Fires raging in forests northeast and southeast of Spokane are destroying an immense area of splendid timber and driving the few settlers in the more isolated region to the river's brink for safety.

While the fire along the Pend d'Oreille river in Washington is under control, it still blazes, having cut a swath a mile wide and several miles long. The damage will total an immense sum.

The Lumbermen's Protective Association is pressing every available man into service to fight the flames. A large fire is reported to have done a great deal of damage at Naples, Idaho.

Forest fires have destroyed several farmhouses in the vicinity of Port Hill, north of Bonners Ferry, Idaho, burning much timber also. Men cannot be had to fight the flames.

A million dollars would not pay for the timber already destroyed, but it is difficult to estimate the exact loss. Forest rangers have the fire under control east of Bonners Ferry, near the Montana line, with little damage done to timber there.

FRASER MEN ARE CLEARED

Revenue Cutter Finds They Did Not Steal Salmon.

Port Townsend, Wash., Aug. 23.—Returning from the cruise along the salmon banks near Point Roberts, recently the scene of much disorder because of fish piracy, officers of the revenue cutter Arcata exonerate British Columbia fishermen of complicity in the depredations.

The investigation has disclosed, it is stated, a wide conspiracy among local boatmen and fish trap employes and, where such arrangements could not be effected, armed assaults had resulted in creating a reign of terror.

Through fear of having their expensive outfits cut and destroyed by the pirates, trap operators have abandoned the illicit acts. Two arrests at Blaine have been made, and it is believed that the capture or dispersal of a gang of 20 men will end the conspiracy broken up and peace restored.

The fishermen report the season for taking sockeye is ended.

Power Sites in Utah Withdrawn.

Washington, D. C., Aug. 23.—The interior department has announced that in pursuance of the policy of the present administration and at the direction of Secretary Ballinger, Acting Secretary Pierce has withdrawn temporarily power sites including 2,950 acres along the White river in Utah. It will be reported to congress that these withdrawals have been made in order that proper legislation may be enacted to preserve power sites to the government, and to prevent monopolies, it was stated.

OPEN TWO RESERVATIONS

Drawing Plan Will Be Used, as at Coeur d'Alene.

Spokane, Wash., Aug. 24.—Superintendent J. W. Witten, who presided over the Indian land drawings recently held at Coeur d'Alene, announces that the Cheyenne River and Standing Rock Indian lands in North and South Dakota will be opened in October.

This is the largest compact area of Indian lands left unopened, being 90 miles long and from 30 to 40 miles wide, containing 2,019,000 acres in South Dakota and 217,000 acres in North Dakota.

Applications will be managed in much the same manner as for the Coeur d'Alene and Flathead reserves. Registration days have been fixed between October 4 and October 23, the registration points being Aberdeen, Pierre, Lemmon, Lebeau and Mowbride, South Dakota, and Bismarck, North Dakota.

The drawing of numbers will be held at Aberdeen, S. D., the last week in October.

PUT COMMISSION AT WORK

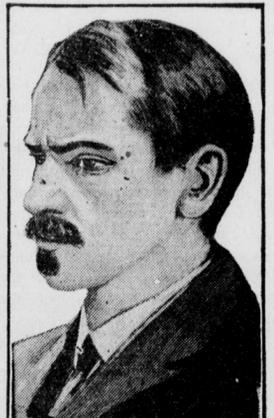

Plans Are Designed to Relieve Interstate Commerce Commission of Much Work.

Beverly, Mass., Aug. 24.—President Taft and several members of his cabinet discussed many changes to be recommended in the interstate commerce and anti-trust laws.

The final framing of the amendments to the interstate commerce and the anti-trust laws will be left to the commission designated by the President. The attorney-general will take to the commission, which is to meet in New York August 3, a definite statement of the President's wishes in the matter.

One of the subjects tentatively disposed of was an amendment to the interstate commerce act looking to a proper financial supervision and restriction to prevent excessive issues of securities by railways.

Plans approved by the President are designed to relieve the Interstate Commerce Commission of much of the work that is now heaped upon it.
