The Largest and Most Successful Sale Ever Put On!

If you want to get the benefit of this price reduction in first class goods do not put it off. ### The Policy of This Store

Has ever been not to hold goods over from one season to another, but to sell all goods bought in one business year at the close of the year to the best advantage, with less regard to what the goods bring than to move them and make room for the newest and best goods to be had for the next year's trade.

It is this policy that has kept the Leavenworth Mercantile Company at the front of Leavenworth's mercantile establishments and made it the one place where the people can get the best and most dependable wares at a fair price.

### Dryden People to Make Effort to Secure Agent

Disgusted with their transportation and depot facilities, Dryden people are to make an effort to better their conditions. Accordingly a meeting of the citizens of that community has been called for next Tuesday night, January 20, to discuss ways and means to better themselves.

At present, an old box car, dirty and cold, and without an agent, serves them for a waiting room. But one train makes a stop and lack of telegraph services often causes much waiting. Tired of what these people term an outrage in a civilized com-

munity, and believing that their importance and the business that issues from their community warrants better accommodations, they will put on a solid front and demand relief, probably through the State Railroad Commission. Every citizen of Dryden and vicinity interested in its welfare is urged to be present at next Tuesday's meeting and take a part in the discussion.—Cashmere Record.

Mrs. James Doty who has been in Providence hospital at Seattle the past three weeks where she underwent an operation is reported to be out of danger and on the road to complete recovery.
