**CITY NEWS**  
DID YOU FAIL TO GET YOUR ECHO THIS WEEK?

If you fail to receive your Echo this week do not put the blame on us. We have given repeated warnings. We have many readers who have been taking the Echo for years and paying for it any old time, which was quite satisfactory under the pre-war rule, but now that it is unlawful, with a penalty for violation, to continue sending the paper when a subscriber is three or more months in arrears, we simply can not take the risk of violating the law. If for any reason one of our subscribers failed to receive notice of his arrearage, and his paper has been discontinued, we can only say we regret the fact, whether due to our own or someone else's carelessness. This paper has always advocated obedience to the law and can not now become a violator.

The demands of labor unions deserve just as much consideration as the demands of any other body—no more or less. Fair requests should be granted. Unreasonable requests deserve not the slightest consideration and the government has the power to put a stop to any industrial tie-up that is instituted in the effort to force such demands.

Seattle's reputation has suffered at the hands of its labor councils. If the rest of the country begins to question this city's loyalty, it will be the acts of these labor leaders, and to organized labor for allowing such men to continue in control. Conservative working men often take issue with and denounce the actions of these men, as do some of the more conservative leaders such as William Short. The actions of the Seattle Central Labor Council, and the Metal Trades Council have been anything but patriotic; they have acted solely for their own selfish ends, placing themselves and their unions above the government.

The new regulations in preparation by the government, wherein it will be laid down that all positions which can be filled by women are non-essential will work a great revision in the industrial life, and bring about more and more the dilution of labor by women. All men holding such positions will be required to seek other employment vital to war work.

Get what you pay for

A MAN said recently: "I do not mind paying a good price for real value, but I certainly object to paying a high price for a poor article."

You may feel that way about clothing. You know it isn't possible to keep up quality standards at former prices. You are willing to pay enough to get good values but you want to be sure you get it.

**Hart Schaffner & Marx clothes that save**

are the fine, high class, guaranteed value you want. We guarantee your satisfaction with them; they are all-wool.

These splendid suits and overcoats are real economy. They last long; you don't have to replace them soon; they save money for you and materials and energy for the nation.

If you don't need clothes, it's patriotic not to buy new ones, but if you do need clothing come to us and get guaranteed quality
