J. W. Burns, Miller, S. Dak., writes the Echo, remitting for his paper, and says they hope to be back in the valley before this time next year as they like orchard ranching better than farming in South Dakota. An item which escaped the Echo last week was the arrival of Mr. and Mrs. Frank Searles on Monday to spend their vacation with Mrs. Searles' parents, Mr. and Mrs. Fred Searles at Lake Wenatchee. Mr. Searles is traveling engineer of the Great Northern on the Havre, Mont., division. He says that prospects in Montana are better than for years, farmers expecting a half crop of grain and considerable hay and other crops. The latter part of the week the Searleses were guests at the home of Mr. and Mrs. Harry Geerds in Leavenworth.

J. Oiden, charged with killing a bear, was arrested by Warden Gonsler and brought before Justice Day last week and fined \$20.00. The story told in court by him was that he had come from Montana, where a reward was paid for killing bear, and when he had a chance to kill the one alleged to have been killed, he promptly did so, not knowing or thinking that it was unlawful to do so. Mr. Oiden, we understand, is employed by the Royal Development Co., and the story has gotten around that the bearskin was "planted" on him. We are convinced that the party who told us the story of the "planting" was innocent of any intent to deceive, but it is not reconcilable with the justice court account.
