Mrs. C. S. Taylor royally entertained a company of about thirty friends at her home, 224 Center, last Wednesday evening. The fore part of the evening was very pleasantly spent playing Five Hundred, the first honors going to Mrs. R. J. Smith and Dr. C. A. Laws, and Mrs. R. B. Simons and Mr. Mon Newdall, consolation. The company then enjoyed a very appetizing and delicious lunch, after which dancing was enjoyed until a late hour.

Mr. B. H. Bryan retired the first of this week from the management of the J. C. Penney Company store at Leavenworth, having resigned to go into business for himself, having several good propositions which he is considering. Mr. and Mrs. Bryan will probably locate, temporarily at least, at Seattle. Mr. Bryan has made a good record during his management of the store here. He has been with the company for five years and prior to beginning with the Penney organization had been the manager of other stores, among them being the Bon Marche at Seattle. He will be greatly missed in business circles and the Commercial Club, but all will extend the very best wishes for his success. Mr. Bryan may leave at once, but Mrs. Bryan will remain here until the Choral Club concert, of which she is the director, is put on. She will indeed be missed thereafter from the social and musical circles of the city. Mr. Glen Putnam, who has been employed in the store here for something over a year, is now in charge of the business. He is a young man of good accomplishments and experience and we shall look forward to a further successful business experience of the company at this place.

The other speakers talked on matters of interest to the three neighboring posts. The boys were further entertained with vocal and instrumental music and stories. The local American Legion Post desires to express their thanks and appreciation to those outside of the Post membership who assisted in making the get-together meeting held March 29 an unqualified success, and especially to Mrs. Bryan and Mr. Putnam who assisted in making the occasion both pleasant and profitable. And also to Mrs. Curtis, Mr. Putnam and Rev. Hoskins for their efforts and assistance in connection with the Memorial Services held at the auditorium, on Sunday, April 2nd, and assure each one assisting the Legion in their efforts to perform their duty to their comrades and to the community, that their help is always appreciated.

County Road Overseer Parrish was up from Cashmere Friday attending to business matters and in conversation with an Echo man, said that the south road between here and Peshastin would be made passable probably about May 1. It is to be graveled, he said, but it is not probable that work will begin until fall, possibly in August. A rock crusher is to be erected at Peshastin creek at a cost of some five thousand dollars and as soon as it is installed graveled will begin. The material will be hauled, as we understood him, from that point toward Dryden, Blewett and in this direction, and roads covered as fast as possible. Seemingly the authorities are endeavoring to give us the best roads possible with the funds still available and are doing the work where the demand is most urgent. Our regret is that the Leavenworth-Peshastin road on which so much work was put last fall and winter, cannot be graveled early this spring so that it may be hard and smooth before the fall rains set in. It is greatly needed during the fall when the crop is being moved on the road north of the river.

J. H. Auvil and D. L. Woodruff, president and general manager respectively, of the Wenatchee District Co-Operative Association, were in town last Tuesday afternoon attending the meeting of the fruit growers of that organization. Mr. Woodruff reports all the fruit of the organization sold except some 80 cars of Winesaps which he expects to sell in the next two or three weeks. He also reports that the sentiment among the Co-Ops, favoring their own selling agency is very strong. The trustees at their monthly meeting next Tuesday will probably decide to organize such a selling agency.

TRIP NO. 3

Icicle Canyon

Prose, poetry and picture combined cannot properly describe the beauties of Icicle Canyon. The entrance to Icicle Canyon is but four miles distant at the south end of Leavenworth Basin and can be reached by auto over a very good road without dangerous grades. A half hour after you leave our garage you will be at the entrance to the canyon where towering mountains on either hand put an abrupt end to man's attempts to make a road. Here you must take the trail that runs the entire length of the canyon, sometimes along the water's edge and again high among the cliffs and crags of this grand old canyon. The view is always changing as you hike along and the stream is ever the center of attraction as it winds its way among huge boulders to tumble over a small fall and enter a large quiet pool among heavy timber or ripple away along a gravel bed for a few yards, and everywhere you see the place you want to whip with your fly, for you know the stream is full of fighting Rainbows. You may not fish at all; and you may fish and not catch the limit, but you will enjoy the trip, be it for a day or be it for a week, and when you are getting your car ready for the next trip you will remember to

A Sensitive Skin

Chapping, roughening and freckling are sure to result from an exposure to spring winds and sun unless the skin is protected by a good preparation such as NYLOTIS COLD CREAM.

It affords full protection and its use is a pleasure. It is a dainty preparation, white as snow and delightfully perfumed. Unlike most cold creams, it never becomes rancid.

A jar of this dainty cream should have a place on your toilet table.
