

THE LEAVENWORTH ECHO

IN THE WENATCHEE VALLEY—HOME OF THE BIG RED APPLE—WHERE DOLLARS GROW ON TREES

VOLUME 21—NO. 23.

LEAVENWORTH, CHELAN COUNTY, WASHINGTON, FRIDAY, MAY 26, 1922.

\$2.50 PER YEAR

DO YOU WANT "30-10" TAX PLAN?

Better Look Into It and be Prepared to Vote Intelligently When Election Time Arrives.

A great campaign is being put on, sponsored by the Washington Branch of the National Congress of Mothers and Parent-Teachers Associations, with a view to the adoption of the "30-10" plan by which taxes on the schools of the state would be levied and the state pay thirty dollars for each child in the schools and the county ten dollars.

A survey has been made and a list of 1088 districts is given in a circular from which we take the following examples of what is claimed would be the result in dollars if the plan were adopted and put into practice:

For instance Wenatchee had 1728 pupils in its schools in 1920-21 and their school levy is given as 9.5 mills, with an equalized valuation per pupil of \$4.074. Under this plan the district would pay to the state the sum of \$59,792 and draw back \$7,829, or receive \$1.30 for each dollar of school tax paid to the state.

Cashmere had 521 pupils in its schools, has a levy of 12.3 mills, a valuation per pupil of \$4,339, would pay in \$19,200 and receive in return \$2,149, or \$1.26 for each dollar paid to the state.

Leavenworth had 427 pupils, a levy of 13.3 mills, valuation per pupil of \$4,304, would pay \$15,610 in and draw out \$20,375, or \$1.31 per dollar paid in.

Chelan had 271 pupils, levy 14 mills, value per pupil \$2,112, would pay in \$4,860 and draw out \$13,304, or \$2.76 per dollar paid.

Peshastin had 177 pupils, levy 10.7 mills, valuation per pupil \$6,287, would pay in \$9,452 and draw out \$7,598, or 80c for each dollar paid in.

North Dryden had 111 pupils, levy 11.5 mills, valuation per pupil \$7,844, would pay in \$7,395 and draw out \$4,985, or 67c for each dollar paid in.

Monitor had 79 pupils, levy 15.8 mills, valuation per pupil \$11,820, would pay in \$7,272 and draw out \$1,984, or 68c for each dollar paid in.

Malaga had 72 pupils, levy 9 mills, valuation per pupil \$7,986, would pay in \$4,883 and draw out \$4,275 or 88c for each dollar paid.

Those are instances of the local effect on the taxpayers. Below we give a few others:

Seattle had 41,435 pupils, levy 10 mills, valuation per pupil \$5,304, would pay in \$1,871,663 and draw out \$1,953,684, or \$1.04 for each dollar paid.

Bellingham had 4,395 pupils, levy 11 mills, valuation per pupil \$3,870, would pay in \$145,637 and draw out \$200,758 or \$1.38 for each dollar paid.

Bremerton-Charleston had 2,052 pupils, levy 30 mills, valuation per pupil \$1,069, would pay in \$28,778 and draw out \$88,249 or \$3.07 for each dollar paid.

The above figures ought to arouse the interest of our readers and they should give the matter study enough to satisfy themselves as to whether they want to support it or not.

FRESHMAN PICNIC.

The Freshman class of the L. H. S., chaperoned by Mrs. Town, Mrs. Applegate, and Miss Madalyn Myers, the class advisor, spent a most enjoyable day at Inzalls Creek last Saturday.

They arrived on the grounds just in time to help the forest ranger, Mr. Henry Wavland, erect a new flag pole. An impressive patriotic ceremony followed. The class assembled around the post and after giving the flag salute, sang The Star Spangled Banner, just as Old Glory was unfurled to the breeze.

Two electrical engineers from the U. S. Arizona, were spending a short vacation there and joined the picnickers. The day passed all too soon, in hiking, exploring, fishing, and—eating. Mrs. Town told fortunes, and from the bright futures predicted, the future success of the Freshman class is assured.

The class wishes to thank the following who so kindly donated their cars and time to the cause: Mrs. Town, Mrs. Applegate, Mr. John Kincherf, Mr. Fred Sinclair, Mr. Jesse Allen, Mr. John Cockcock, Miss Cozic Gilmore.

FRONT STREET PARK GREATLY IMPROVED.

The Women's Civic Club has had very fine improvements made in the Front Street park. Flower beds have been made and plants set out and the band stand is undergoing thorough repairing. Now if the public will give attention to what the ladies are endeavoring to accomplish, and not throw paper and other rubbish about the park will soon be a real beauty spot.

The Echo congratulates the ladies on their work. With them continually striving to bring about improvements in the appearance of the city a great change ought to be noticed within the coming weeks.

ATTENTION KNIGHTS AND PYTHIAN SISTERS.

The Pythian Sisters will hold a weight social at the hall on the evening of May 31. Be sure and come and bring your guests.

TREE SPRAYING.

People of Leavenworth who want their trees sprayed ought to notify the Echo office at once. It is now time to put on the calyx spray. Report at once if you are interested.

SOPHOMORE PICNIC.

On Saturday, May 20, the Sophomore class, accompanied by Mr. Sutton and the Class Advisor, Mrs. Van Tassel, held its annual picnic at Lake Wenatchee.

Leaving Leavenworth at 8 o'clock, the party arrived at its destination about 10:30, all determined to make a big day of the annual celebration. Although the weather was not so favorable as it might have been, this did not dampen the spirits of the jolly picnickers.

The day was spent in boat riding, baseball and various other games. The launch was hired to tow five boats across the lake, and from there an adventurous party climbed to Hidden Lake.

At one o'clock at Cougar Inn, lunch was set before the half famished young folks, who could not make an impression on the ample "eats" provided.

At six o'clock the party was called together to make the start toward the Chewawaw river, where a "weenie" roast was to be held, as the final event in the program of the day. The bravery and fortitude which the boys showed in disposing of the superfluous ice cream requires the thanks of the entire class.

Nine o'clock found the cars all journeying toward home and all happy over the "wonderful" time they had enjoyed.

REV. MOORE'S MOTHER DEAD.

Mrs. Mary Moore, mother of F. L. Moore, former M. E. pastor here, but now living at Farmington, Wash., passed away at the family home at 9:35 Sunday morning, May 21, 1922.

She had been sick since January, but here facilities were clear and bright to the very last. She felt that the time had come for her to be away, and said that she wanted to rest.

Mother Moore never expected to live to old age; and has been living a real Christian life these many years. Her life has told in making it easy for others to be faithful; and she has been most anxious to bring about a real revival of God's grace in her church.

Though frail of body, and full of years, she was always busy, and "abounding in the works of the Lord." She was 83 years, 8 months and 15 days old. She leaves two children, Matte A. and Frank L.; ten grandchildren, and 14 great grandchildren.

The Rev. M. H. Marvin of Tekoa, Wash., preached the funeral sermon, and the Rev. Howard W. Mort of Oakesdale, assisted, and had charge of the burial. She was laid to rest in the Oakesdale cemetery.—Contributed.

DRYDEN.

The Dryden school has yet four weeks of school and are having several events of interest. Last week they had a game of ball with Leavenworth grade school, and won. The same day Miss Easton's room, the 5th and 6th grades, had a half holiday and motored to Peshastin Creek for a picnic. This was their reward for winning the contest in getting out the largest attendance to the P. T. A.

The next P. T. A. meeting will be next Saturday night when J. L. Webster will be the principal speaker.

Friday evening a good program was given by the school to a crowded house. The program consisted of songs, recitations, folk dance, a minuet, a butterfly dance by little girls, a pantomime, Babes in the Wood with a happy ending, an oration, and exhibition of a mechanical man. Each number was much enjoyed.

The Dryden ball team went to Malaga Sunday and won the game by a 9-6 score.

Mrs. Chas. Hoback is enjoying a visit with her mother, Mrs. Chapman, who arrived recently from California. The baby boy of Mr. and Mrs. J. L. Kookan has been placed in a Spokane hospital under the supervision of a child's food specialist.

Gay Sherman is building a good 7-room house on lots in the Scheble addition in W. Dryden. It is now being wired for electric lights.

Mrs. Bland's Sunday school class of girls enjoyed a picnic up Peshastin Creek after the Sunday school hour.

EAGLE CREEK ITEMS.

Mr. and Mrs. Frank Heath and children attended church in Leavenworth Sunday, after which they drove to Ingles Creek and enjoyed a picnic lunch.

Mabel Bjork and Ellen Booth spent the week end at the Bjork ranch.

Mrs. Matthews, of Olympia, after spending the past month with her daughter, Mrs. A. M. Anderson, returned to her home Tuesday evening.

The Eagle Creek school picnic was a wonderful success, especially from the children's viewpoint, and the quantity of ice cream consumed. The picnickers were Mr. and Mrs. Morgan and family, Mrs. J. H. Sharpe, Mrs. H. A. Anderson and children, Mrs. R. Sands and two boys, Miss Ruth Larson, Mr. and Mrs. Ed. Reynolds and children and Mrs. Finch and children of Leavenworth. Miss Sarah McDonald of Dryden and our teacher, Miss Krieschel. The picnic lunch was served in true Eagle Creek style and the day was well spent playing games, etc. The boys rushed the season a bit by finding a most tempting swimmin' hole, where they declared the water was really warm.

PENTECOSTAL MISSION.

Sunday School, 10 a. m. Preaching 11 a. m. and 7:45 p. m. Prayer meetings Tuesday and Friday at 7:45. —Pastors M. McPhee and Wife.

MEMORIAL DAY PROGRAM IS READY

Service Is Under Auspices of American Legion Post. Sam R. Sumner to Speak.

Memorial Day, May 30, is to have the observance it deserves in Leavenworth. Under the auspices of the American Legion the following program will be presented at 10:30 next Tuesday morning in the city park.

Patriotic Selection — Band Selection — American — Band Invocation — Rev. Hoskins Quartet

Mrs. F. B. Slavin, Mrs. Geo. Hyilton, Mr. Holmes, Mr. Newdall

Reading—"Lincoln's Gettysburg Address" Mrs. R. F. Taylor

Introduction of Speaker, Maj. Lessing Address—Sam R. Sumner Solo—The Vacant Chair, Mrs. Hyilton Silent Tribute to the Heroic Dead (Standing, 30 seconds)

Star Spangled Banner—Audience Benediction—Rev. Hoskins

Upon the conclusion of this program as many as wish will proceed to the cemetery in cars provided for that purpose, there to continue the tributes to America's heroes. A firing squad will fire a volley and taps will be played by the bugler. A prayer will also be offered at the cemetery by Rev. Hoskins.

All ex-service men are requested to appear in uniform. A cordial invitation is extended to all veterans of former wars to join with us in this memorial service. If any G. A. R. veterans wish transportation to and from the park it may be obtained by notifying R. F. Taylor at Leavenworth State Bank.

If any citizens wish to offer the use of cars for the occasion they should communicate with J. C. Lindley at the Citizens State Bank.

MANUAL TRAINING EXHIBIT.

An exhibit of manual training work was on display in the shop Tuesday afternoon and evening and was inspected by a very large number of patrons and friends of the school. The display covered work from the sixth grade to the senior year of the high school. All of the pieces made during the year were on exhibit with the exception of several taken home early in the year which could not be returned in time. One of the features was the turned work, which was of a very high grade and which was commented on very favorably by a large number.

The pieces included nut and fruit bowls, trinket boxes, shaving mirrors, table lamps, hair pin receivers, darning eggs, card trays, and other small articles. A complete inventory of all the various pieces on display would be out of place but the sixth grade airplanes were enthusiastically looked over by all the smaller visitors.

Some cushioned footstools by the eighth grade and the bookholders by the seventh grade, were deserving of more than passing mention.

In the high school cabinet work a wide variety of pieces were to be seen made from most of the standard cabinet woods in several finishes. The natural finishes predominated in the hard woods, paint being superfluous when the natural beauty of the grain exceeds anything that can be produced by hand graining. Most of the oak work was fumed, this being done in the fuming tank built in the shop for that purpose last spring by the high school boys as a part of their regular work. Among the oak pieces were easy chairs, magazine racks, chests and kerchief boxes and an in-laid flower stand. The holly inlay was used in gum walnut, mahogany and oak, making both novel and pretty effects. Two cedar chests trimmed with copper were a center of attraction. A breakfast table in granite gray caused several ladies to inquire as to the possibilities of buying it. Many articles could have been sold had they been for sale. Only furniture made to order was sold during the year.

Every piece shown was first drawn to scale at the drawing room before the stock was cut. The best shop practice in joinery and surfacing has been required. Quantity work has been discouraged whenever quality would be sacrificed. While the work shown was not in many cases of as high quality as that of a high class cabinet maker, many instances of splendid work stood out and demonstrated what beginners can do with tools when they make honest attempts at perfection.

BASE BALL NEXT SUNDAY AND TUESDAY.

Manager Walton has arranged for a game of ball next Sunday here between the home team and the Seattle Ashi team. The game will be called at 2:30 and the admission will be 50c. The visiting team is known as the best Jap team in the country and our team will be strengthened for the occasion.

Next Tuesday, Memorial day, the regular league game between Peshastin and Leavenworth will be played here at 2:30 and the fans may look for a mighty interesting game—as war has been declared.

The interior of the J. C. Penney store has undergone considerable change recently. The corner door has been closed and a hat department placed in the corner. Then a part of the high rack down through the store has been removed. The latter gives a better view of the store, and is a noticeable improvement, while closing the corner door gives more room.

CLASS OF '22 COMMENCEM'T TONIGHT

Exercises at Community Building. Address by Dr. F. F. Nalder of State College, Pullman.

Following is the program of the commencement exercises which will be held at the Community building this (Friday) evening:

Invocation—Rev. Wm. Hoskins. Song—Stars Brightly Shining, Girls' Chorus.

Commencement Address—Dr. F. F. Nalder, State College, Pullman. Vocal Duet—Dance of the Favs, Misses Merle Green and Winifred L. Barr.

Presentation of Diplomas — Mr. B. C. Rutherford, Chairman Board of Directors.

Valedictory—Miss Inez Ewing, Honor Student of the Class of 1922. Benediction—Rev. Hoskins.

WEEKLY LUNCHEON.

Some thirty members of the Commercial club gathered last Friday for the luncheon, which was served by Mesdames T. J. Logan, H. M. Goff, Minor McLain, Roy Holman, A. Hehrington and Chas. LaPointe, with Mrs. W. W. Elmer in her usual place as cashier; and it was a very nice past.

The campsite was reported to be finally quite completed, the electric lights having been installed.

A resolution was offered by L. R. Hart and passed. This resolution offers the co-operation of the club with the city council in bettering the roads in and about town, so that tourists may find their way into town made as pleasant as possible. Particular attention was directed to the road from the Chumstick bridge to the viaduct.

Comment was made upon the installation of the fire siren, and the statement was made that the cost of wiring it if it be placed on the raise north of the railroad yards, would be about \$300. The matter was referred to the committee for investigation and to ascertain whether or not a saving might be effected by placing it elsewhere.

A letter was read by Secretary Constable from Supt. Doyle of the Great Northern, relative to the water at the depot, which is said by the state board of health to be "polluted." This matter has been before the club with the idea of removing this libelous notice from the depot, as strangers will evidently believe that the water of the city is impure, whereas the water in question is from the wooden tank maintained by the railroad company for supplying tenders of its engines. Perhaps in the course of human events city water will be made available at the depot — and the signs "polluted" removed, but our state health department seems to have no other interest in the matter than to place signs. The secretary is taking the matter up with the state board.

The matter of celebrating the 4th was discussed. That the city ought to celebrate seemed to be the sentiment of many though no one seemed anxious to take the lead.

BACCALAUREATE SERVICES.

The baccalaureate services for the Class of 1922 were held in the evening at the Community building and were attended by a large gathering of the people of the district and visitors from neighboring communities.

The services were opened by the congregation singing the hymn, "Faith of Our Fathers," which was followed by the Rev. Wm. Hoskins pronouncing the invocation. Then the anthem, "Morning Invitation," was sung by the Girls' Chorus. (It had been the intention to hold these services in the morning and when a change to the evening was decided upon there was not sufficient time to prepare for another anthem.) Rev. Hoskins also gave the scriptural reading and Marguerite Van Orsien sang "Plains of Peace."

The Rev. Robert E. Smith, pastor of the Methodist church at Wenatchee, preached the sermon, taking for his text: "Young man, let no man despise thy youth." Remember the power within thee." The sermon was a good one ably delivered and replete with advice for the young people.

The services closed by the congregation singing "Abide with Me" and the benediction by Rev. Hoskins.

The democratic county mass meeting was held at Wenatchee last Saturday and was called to order by O. A. Hoag of Chelan. Frank Reeves was chosen to preside and M. E. Simmons acted as secretary. The following were selected as delegates to the state convention held Wednesday at Olympia: O. P. Barrows, O. A. Hoag, Jack Willis, George Hauber, G. W. Joxsey, C. A. Campbell, Frank Reeves, Mrs. Frank Reeves, John Hanna, M. W. Atwood, Blak Stromme, J. C. Gordon, A. N. Banks, E. T. Balch, M. E. Simmons and Mrs. I. J. Bradley. Those attending the state convention were empowered to fill vacancies and to vote the full vote of the county.

Where They Play Next: Malaga at Dryden, Sunday. Peshastin at L'worth, Tuesday.

LEAVENWORTH STILL HAS CLEAN RECORD.

Third Defeat of Season Administered to Locals Sunday by Peshastin. Score 6-4.

Bill Walton's bunch of ball tossers met Peshastin on the Peshastin grounds last Sunday, losing by a score of 6 to 4. However, it was the first signs of baseball that the Leavenworth crew has displayed this season.

Denny Malloy held Peshastin hitless and scoreless for 5 innings only to have the Peshastinites grab off 5 hits in the 6th, two of them being home runs, and making a total of 3 runs in this inning.

Wilson pitched a nice game for Peshastin, but the real honors of the day go to Firstbaseman Day and Lefty Douglas. Their timely hits broke up the ball game.

MALAGA 6, Dryden 9.

Malaga fell before Dryden last Sunday on their own grounds by a score of 9 to 6. Chas. Kuelbs pitched fine ball for Dryden. Owing to a very poor job of score keeping on this game we are unable to tell just what each pitcher done, or in fact, tell much about anything, except that Laughlin started for Malaga and Dryden won the game in the first inning.

THE DEADLY CARBON MONOXIDE GAS.

During the winter months at least one person a day is killed by carbon monoxide, that deadly gas which is thrown out of the exhaust of the gasoline engine. The fact is the more appalling because it is an indication of gross carelessness. Fortunately in most cases, only the careless one suffers.

Until the motoring public is fully aroused and alarmed, carbon monoxide will continue to claim its victims. Carbon monoxide is a very peculiar product of combustion and is deadly because it kills without alarming its victims. It has no smell and once it has struck, death is certain. If you run the engine of your car in a closed garage you are taking a chance with the deadly gas. And even more, if you run the engine out of doors and keep the side curtains firmly buttoned you are also gambling with death because the exhaust may be blown into the car through the floor.

Carbon monoxide is heavier than air and sinks in air. Thus if you are working in a pit, in a garage and there is an engine pumping the gas into the shop, the pit will soon be filled and the gas will work into your lungs.

Once in the lungs the gas chemically combines with the liquid portion of the blood, decomposes it and prevents it from absorbing the oxygen so necessary for life. Once this chemical combination has progressed far enough and the blood is broken down, there is no help and the patient literally "drowns." Oxygen may be pumped into the lungs, but the blood cannot absorb it and life soon ceases.

The first sign of carbon monoxide poisoning is dizziness, but this is followed so soon by unconsciousness that the victim has no chance to escape.

Prevention is a million times better than cure because there is so little chance of a cure.—Ex.
