

THE LEAVENWORTH ECHO

IN THE WENATCHEE VALLEY—HOME OF THE BIG RED APPLE—WHERE DOLLARS GROW ON TREES

VOLUME 21—NO. 29.

LEAVENWORTH, CHELAN COUNTY, WASHINGTON, FRIDAY, JULY 7, 1922.

\$2.50 PER YEAR

SHOPMEN STRIKE AT STROKE OF 10

The railroad shopmen went on strike promptly at the stroke of 10 last Saturday forenoon and reports indicate that at least throughout the west it is a 100 per cent strike—all going out. There were some reports from Chicago for instance, of some of the men remaining at work. But it appears that only a very few, if any, who were called out stayed on the job.

Here in Leavenworth every man who came within the strike call walked out promptly and stayed out.

The issues involved are:
1st—The wage cut of \$60,000,000, recently ordered by the labor board and effective July 1.

2nd—Working rules pertaining to over-time and various shop conditions recently abrogated by the decision of the board.

3rd—The right of the roads to lease out shop work to contractors not amenable to the rules of the board.

The strike did not immediately interfere with the operation of trains, but it is evident that unless the men are soon returned to their jobs (or other men are secured to do their work, and it is not likely that they can be secured) engines and rolling stock will soon be in such condition that traffic will wholly cease, for already there are indications that the locomotives are fast losing their efficiency.

For instance, here in Leavenworth Master Mechanic Brower and Foreman Slavin are the only men on the job to keep engines in condition, and Mr. Laden, at the head of the car repair and inspection department is the only man working.

BIG CIRCUS COMING TO LEAVENWORTH.

Red wagons and elephants, bands and calliopes, will be on the streets of Leavenworth on the morning of Friday, July 14, for that is the date when Howe's Great London Circus with Van Amburg's Trained Wild Animals will give their monster free street pageant.

At 2 and 8 p. m., the three rings, steel arenas and stages will begin to teem with activity, the director will blow his whistle and the famous Marine Band, under the efficient leadership of Prof. O. A. Gilson, will furnish the musical accompaniment to the most gorgeously presented extravaganza in amusement history.

"Cinderella in Jungleland," it has been titled and although especially catering to the children it is enjoyed by all, as it turns back the pages in many a dreary life to the happy days of childhood, long gone. Prima-donnas from the operatic stage will render beautiful vocal music, three hundred and eighty four of wild animal actors and an army of humans take part, inaugurating what has been termed the most satisfying and complete "white top" performance assembled in a decade.

Forty dancing horses and forty dancing girls contribute to the beauty and grace of the program, which is extensive and lasts for two hours. Thirty-nine funny clowns make merry with up-to-date material, the humorous conceptions of Kenneth R. Waite, recognized as foremost in the world of jest.

Ponies, monkeys, goats and other domestic animals mingle with the fiercest of jungle beasts. Male and female trainers of nerve unparalleled, subdue and subjugate them before your very eyes, until you wonder whether they know fear. Come early for seats, as capacity audiences are the rule wherever this big show exhibits.

DEANE-PARRISH.

Mrs. Olive Parrish and Sewell Deane, of Couer d'Alene, Idaho, were married Monday, July 3, at 4:15 p. m., by Justice of the Peace John E. Porter at Wenatchee. They were accompanied by Mr. and Mrs. Carl Briggs and Mr. and Mrs. Ralph Briggs. They will make their home for the present at Leavenworth. Mr. Deane is well-known here as "Submarine" Deane, a puglist.

CARD OF THANKS.

We desire to express our thanks to friends and neighbors for the assistance and sympathy at the death and funeral of our beloved father, Joseph S. Smith, and for the beautiful flowers and other tokens.
—The Family.

WASHINGTON WEATHER FOR WEEK ENDING JUNE 27.

Seattle, June 28.—Another week of severe drouth in both divisions of the State, has further diminished the prospects of wheat and other grains, and pastures and ranges have become very short and dry. Except for a few light showers in widely separated localities, and in amount scarcely sufficient to lay the dust, there has been practically no rain for a month or more, except the rains of the 16th in the eastern and southern counties. Such a drought, occurring so early in the season, is believed without precedent in the rainfall annals of the western counties. Fortunately the early part of the week was of moderate temperature, and for that reason favorable for wheat and other grains. The last two days of the week ending the 26th became hot and therefore unfavorable for filling of grain. Winter wheat is now in the dough, and too near maturity to receive much benefit from rain even if it should come quickly, but spring wheat needs abundant rain and cool weather for successful filling, as it is heading, and in early fields in bloom. Even at the best, the average spring wheat crop is below a normal yield, and some on light soils, especially dry, very poor, badly "burnt" and scarcely worth cutting. Farmers are scarcely in the midst of haying, it is excellent curing weather, but the crop of hay will be short, where unirrigated, on account of the heat and dryness. Winter wheat is now in the dough and cutting will begin in a week or ten days. A hot wave with a desiccating wind, at the present time, would cause shriveling of the winter wheat and "burning" of the spring wheat. Oats in the western counties are greatly in need of rain. Potatoes are fair to good. All vegetables are doing well in irrigated districts. This season has emphasized the advantages of abundant irrigation, and the precariousness of dry farming in the arid and semi-arid counties. Fruit, although the crop was in places, much reduced by the damaging May frosts, appears to be making satisfactory progress. Apple thinning has begun. Strawberries are on the wane, and raspberries are beginning to ripen. Cherries are now on the market and being shipped. Seasonable vegetables are being produced plentifully in the irrigated districts.

DIED AT AGE OF 82.

Joseph S. Smith died at his home in this city on June 29, 1922, at the age of 82 years, from old age. It appears that he had not been sick, but that he suddenly grew weak and passed away peacefully. The funeral was held Saturday, July 1, at 4 p. m., from the Methodist church, of which deceased had been an attendant, and burial was made in the Leavenworth cemetery.

The deceased is survived by his three sons here—Robert L. James (postmaster at Peshastin) and Christ, and one son—Bert C. Smith, residing in New Mexico. He is also survived by two daughters—Mrs. C. M. Hendricks and Mrs. O. P. Bethel, both of this city, and Mrs. Amanda Town was his stepdaughter.

The old gentleman had been a resident of Leavenworth since 1910, coming here from Missouri, where the family had resided.

NOTICE TO CONTRACTORS.

Sealed bids will be received by the directors of School District No. 22, Chelan County, Washington, for the erection of a school building according to plans and specifications prepared by W. W. Durham, architect, Leavenworth, Washington. Bids may be filed with the architect or the clerk of the board and must be in their hands or in the Leavenworth postoffice not later than 12 noon July 15, 1922.

Each bid must be accompanied by a certified check on some bank in the state of Washington, made payable to the board of directors as a guarantee that the bidder will enter into contract if awarded the work. Plans may be secured at the K. & V. B. Hardware store in Leavenworth, Washington, or the office of the county superintendent of schools, Wenatchee. The board reserves the right to reject any or all bids.

S. E. CROMWELL,
Clerk of the Board.

Girls, Attention.

All girls belonging to the Girls' Civic Club are requested to meet at the park at 7 o'clock Wednesday evening, July 12, to hear some good news and discuss an important question. Everyone come.

PADDY RYAN, PETE MALARKY PINCHED

Paddy Ryan and Pete Malarky were pinched last Thursday at Paddy's shack near Chiwaukum and charged with "moonshining." Notwithstanding the fact that Sheriff McManus and Deputies Cameron, McPherson, Wine and Pollock could find no other evidence than a still, two barrels of mash and 1,500 bottles of finished products, Paddy and Pete got cold feet and plead guilty before Judge Porter and were sentenced to pay fines of \$500 each and serve 90 days in the county jail.

The Wenatchee World is our authority for the figures as to the amount of booze found. Local men, seemingly familiar with the topography in the vicinity of Paddy's shack, are inclined to believe that the figures are padded.

WHAT TO EXPECT FROM PUREBRED SIRES.

What can I expect from purebred sires or from both purebred sires and dams as a utility proposition? Many thoughtful farmers have asked this question and the answer, based on 525 farmers in 36 states, owning 25,000 head of livestock and 30,000 poultry, indicates that under average conditions this greater earning power, apart from their breeding or sale value, is forty per cent.

This superiority, based on utility, of purebred over common stock is evident from the fact that out of these 25,000 head of livestock, dairy cows had a superior earning power of 48 per cent; poultry, 40 per cent; swine, 38 per cent; sheep, 37 per cent; beef cattle 36 per cent and goats 36 per cent.

"All the above stockmen have used purebred sires for an average of nine years," stated C. M. Hubbard, livestock extension specialist, "to head their herds and flocks. About 30 per cent of their female stock is purebred, a few scrubs, and the remainder are grades and cross-breeds. The persons supplying this data to the U. S. Department of Agriculture, had had sufficient experience to make it dependable."

BIDS WANTED.

Bids will be received by the school board of District 68, known as the Eagle Creek school, for transporting the pupils from their homes to the school in the city of Leavenworth throughout the coming school year. Bids must be in the hands of the clerk of the board by 12 noon July 28, 1922. The board reserves the right to reject any or all bids. The number of pupils to be transported will not exceed twelve unless others come into the district.

J. B. SCHONS,
Clerk of the Board.
(37—July 7, 1922)

BIG FOREST FIRE AT CHELAN CONTROLLED.

A great forest fire burned most of last week south of Lake Chelan, but toward the end of the week was reported under control.

Between sixty and eighty men were engaged in fighting the fire and an orchard was for a time in danger of being destroyed. A change of wind saved it.

Mrs. J. D. Ely spent the Fourth with friends in Seattle.

The most successful poultrymen in the state are those who learn the secret of keeping their hens at work.

Mr. Garretson, who had an operation in a Seattle hospital some time ago, is understood to be doing fairly.

Mrs. Clifford Hall and baby arrived Friday from their home at Everett to visit Mrs. Hall's parents, Mr. and Mrs. Joe Stafford, and other home folks.

There have been no new developments in the matter of the disappearance of Chas. Will. Not an iota of evidence as to his fate has been discovered since his sweater and dinner pail were found at the water's edge on the river bank below town some two weeks ago. His description was wired to Yakima when it was learned that the body of a man had been taken from the river but word came back making it plain that it was not the body of Mr. Will.

LOCALS WIN FROM DRYDEN

Bob Smith made his bow to the Leavenworth fans as a pitcher last Sunday. Bob had lots of stuff to fool the Dryden batters with but the home plate was not wide enough. Bill Wunder relieved Bob in the third inning. Bill had on a suit of many colors, but that did not carry much weight in mixing up the Dryden outfit. Bill's stay in the box was brief. Left fielder Way was then sent to the mound for the locals and held the visitors in good shape, winning the game, 17 to 14.

Elder was on the hill for Dryden. The first ball he delivered in the game. Jim Cottrell busted for a home run. The locals piled up 13 hits and 14 runs off Elder in the third inning. As a pitcher he looked like a good apple picker.

Henry Jeske pitched the balance of the game, allowing but 5 hits.

Summary: Hits—off Smith, 6; off Wunder, 2; off Way, 1; off Elder, 13; off Jeske, 5. Walked and hit by Smith, 5; by Wunder, 1; by Way, 6; by Elder, 3; by Jeske, 0. Struck out—by Smith, 3; by Wunder, 0; by Way, 6; by Elder, 1; by Jeske, 6. Home runs—Cottrell, Nelson. Three-base hits—Mahoney, Wunder, 2, Jellison. Two-base hits—Wunder, Way, Jeske.

Peshastin-Malaga. Peshastin defeated Malaga last Sunday, 5 to 6, at Dryden. Eddie Miles brought in the winning run for Peshastin in the 9th. To this date we have received no record of the game.

LATEST AS TO THE STRIKE.

The strike situation here is unchanged since the men went out. None of them have shown an inclination to go back until a satisfactory settlement is made.

The company has several men here on guard and the foremen are doing what they can to keep traffic moving. The movement of freight is said to be less than prior to the strike. Passenger trains have run, but they are usually somewhat late, due principally to power trouble.

It is rumored that one of the units at the hydro-electric power plant just above town has been "burned out" and that trains are "smoking" through the tunnel, but as everyone is inclined to keep quiet, this rumor was not verified.

There has been absolutely no disorder here.

PLAIN NOTES.

Mr. and Mrs. Theo. King and son and daughter from Stratford, Wash., came up and spent the Fourth with their daughter and husband, Mr. and Mrs. W. O. Burgess.

Mrs. Chas. Shugart is spending two weeks visiting relatives in Spokane and Ephrata.

Miss Marie Pobst is visiting relatives and friends in Leavenworth this week.

Mr. and Mrs. LeRoy Hallock spent the Fourth with Mr. and Mrs. Shoemaker on the Hendricks ranch.

Arthur Peters was in the Leavenworth hospital a few days last week under the care of Dr. Lessing. He is doing nicely now.

The neighbors here enjoyed a picnic dinner the Fourth at Rock Creek, and in the evening came down to the home of Mr. and Mrs. M. A. Peters, where music, singing and foot racing were enjoyed, after which ice cream and cake were served to thirty-five. All reported an enjoyable time the Fourth.

ST. PAUL'S EVANG. LUTHERAN CHURCH.

Sunday School at 10 a. m.
Sermon at 10:45. Romans 8, 18-23 will be the text for the sermon.

There will be a short meeting of the congregation immediately after services Sunday morning.

Strangers are invited to attend our meetings.

WM. LUECKEL, Pastor.

METHODIST CHURCH SERVICES.

Sunday School, 9:45.
Epworth League, 6:45. Topic, "Amos."
Preaching services 11 a. m. and 8 p. m. Morning subject, "Ezekiel's Vision." Evening service in the park. Subject, "The World's Greatest Teacher."

WM. HOSKINS, Pastor.
Just received, a small number of Parisian Pattern Blouses, the very latest in sport blouses, at Sampson's.

PRODUCE BUTTER ENOUGH FOR CITY.

A Pound Each and 700 Truck-Loads Milk. Cow Testing Record.

Producing enough butterfat to make a pound of butter for every man, woman and child in either Tacoma or Spokane during the month of May, was the record of the 2967 cows on test on the state cow testing association for last month. If the milk produced by these cows could have been loaded on two ton double deck milk trucks, it would have required 700 such forming a procession three miles long to have carried the load.

The cows on test made the remarkably high average of 982 pounds milk and 37.5 pounds fat, the best record in the past two years according to the monthly report of Frank W. Kehrl, assistant dairy extension specialist. Of the number tested, 43 per cent produced above 40 pounds of fat each, while 491 cows made over 50 pounds of fat each and 125 cows gave better than 60 pounds.

Lewis county lead the state for the first time in number of cows tested, taking records on 515 cows, with 172 over the 40 pounds fat mark. Stillaguamish Valley association was a close second with 512 cows tested and Clallam county made third with 489.

The highest herd average reported is that of Frank Yates of Chehalis, whose herd of 9 Jerseys topped the list with an average of 1105 pounds milk and 57.7 pounds fat. The herd of Ben Ridgway's near Sequim was second with 15 Guernseys averaging 1149 pounds milk and 52.8 pounds fat. Other high association leaders were John Odell of the Snoqualmie Valley association with 25 Holsteins and Jerseys averaging 1309 pounds milk and 49.6 pounds fat; A. C. Hunt of Satsop, 14 Holsteins averaging 1345 pounds milk and 48.9 pounds fat.

The highest producing cow for the month was a five year old registered Holstein owned by Thos. J. Owens of Kirkland who made 2821 pounds milk and 90.3 pounds fat. Second honors went to Werner Nanny of Orting, whose six year old grade Holstein made 1872 pounds milk and 84.3 pounds butterfat.

SPRAY POTATOES FOR LATE BLIGHT.

Not Enough Attention Given Disease During Past Year.

Late Blight of potatoes should be given more attention by the farmers now than in the past, is the belief of George L. Zundel, extension plant disease specialist of the State College. In the potato sections west of the Cascade range the disease blights the foliage and causes a rot in the tubers. This disease has caused much damage to potatoes in various parts of the world and was the one that caused the Irish famine in 1845.

By properly spraying with Bordeaux mixture, of the strength of 4-4-50, the disease can be controlled. In addition to controlling Late Blight, the Bordeaux mixture also acts as a stimulant to the potato plant and the yield of tubers is increased.

Potato spraying work has already been started by the Extension Service in several of the western counties in the form of demonstrations.

Bordeaux Mixture may be made by using 4 pounds copper sulphate; 4 pounds quicklime and 50 gallons of water. Prepare the copper sulphate by suspending it in a gunny sack just below the surface of several gallons of water in a clean barrel. When the sulphate is dissolved, which requires three or four hours, remove the sack and stir into the barrel enough additional water to make exactly 25 gallons of the copper solution.

Prepare the lime by slaking it slowly and thoroughly in a clean barrel, strain, and add enough additional water to make exactly 25 gallons of milk. Stir thoroughly.

Pour the two ingredients together into another barrel, or better, directly into the spray tank if it will hold 50 gallons. Stir thoroughly and strain before mixing the two. Use copper or bronze wire strainer of 18 meshes to the inch. Do not put copper sulphate or Bordeaux mixture into tin or iron vessels, use wood or copper. Mix the Bordeaux as needed and apply at once. It is not so good after it has settled.

CARD OF THANKS.

We wish to extend our sincere thanks to our many friends and particularly to the Modern Woodmen of America and the Brotherhood of Railway Carmen for their help and sympathy during the illness and death of our husband and father.

—Mrs. Frances Robertson and Family.

McMANUS WANTS TO BE RE-ELECTED

World: Bert McManus, present sheriff of Chelan county filling the vacancy created by the resignation of E. Q. Forsyth, announces his candidacy for the office of sheriff at the general election Tuesday, November 7. Mr. McManus has been a law enforcement officer continuously for the past 25 years. He has served two full terms as sheriff of Chelan county, besides the present short term; and has been deputy under every sheriff Chelan county has had except Sheriff Forsyth.

He was sheriff from 1917 to 1921. From 1921 until he succeeded Mr. Forsyth he was special agent for the Great Northern railroad. He was deputy under Chas. Kenyon, Ed. Ferguson, R. P. Webb and Frank F. Keller. Before he was deputy he was marshal at Cashmere, and before that was special investigator for a stock association.

I. W. W. Rounded Up.

In 1917 after the United States declared war on Germany, in April, Sheriff McManus headed a movement to round up I. W. W. who were threatening to take over the government of Chelan county. Hans J. Stetson, then Spokesman for the I. W. W. in North Central Washington, called on Mr. McManus and told him the I. W. W. were going to run affairs in this county and the officers were helpless. He threatened concentration of wobbly forces here.

Mr. McManus appealed for Federal troops. He refused State troops. He refused State troops because Governor Lister insisted on declaring the area under martial law and taking the power out of the sheriff's hands if he sent troops. The War Department ordered a company of soldiers to report to Sheriff McManus and assist him in maintaining order in Chelan county. They arrived July 10, 1917.

On July 16, 1917, all I. W. W. connected with the lumber industry walked out.

A stockade was hastily built and all I. W. W. on strike were taken into custody under the war power. They were kept there as long as they refused to work, or until the apple harvest was over.

"By this means the fruit crop of this district was saved," says Judge William A. Grimshaw of the Superior court of Chelan county. "The wobbles would probably have succeeded in destroying property and have prevented the harvesting of the crop if stern measures had not been taken at once."

Mr. McManus served during the war as chairman of the local draft board of Chelan county.

OBITUARY.

Oscar B. Robertson was born at Bunker Hill, Illinois, Dec. 21st, 1862; was married to Frances Keller at Carlinville, Ill., Dec. 25th, 1889. Ten children were born to this union, seven of whom are still living. Mr. Robertson died at his home in Leavenworth, Wash., June 30th, 1922, at 12:30 p. m., and is survived by his wife, seven children and eleven grandchildren.

The funeral was held Sunday, July 2nd, from the Leavenworth M. E. church, the Rev. Wm. Hoskins preaching the sermon, and burial was made in the Leavenworth cemetery.

RAY E. SIMONS, POSTMASTER.

Ray E. Simons entered upon the duties of postmaster at Leavenworth last Saturday, July 1. Mr. Simons is a man of good business qualifications and ought to give us splendid service as postmaster. We understand that as civil service rules govern there will be no change in the office in regard to help, Ted Kuch as assistant postmaster, Dorothy Eresch as clerk, and Chas. West and Sexton Carquist, as carriers, remaining on their jobs.
