PITHY AND PERTINENT.

Extracts From William Jennings Bryan's Commoner.

Thorough organization, not reorganization, is what the democratic party needs.

If the foreigner pays the tax how comes it that the tariff-fed barons wax so rich?

The time to organize is right now. To wait until a few weeks before election day is political folly.

A democratic platform cannot be framed by men who think more of personal profit than they do of principle.

Perhaps one reason why the post check currency system was not adopted by congress is that the people wanted it.

It is quite generally believed that Mr. Knox can ignore anti-trust laws even faster than congress can enact them.

It seems that Mr. Littlefield drew his anti-trust bill under the hallucination that President Roosevelt was in earnest.

While Mr. Rockefeller is advertising for a new stomach he should insert a paragraph concerning a new conscience.

If Germany persists in refusing to accept borax treated meat from American exporters it can be stored until another war breaks out.

The indications are that the next time Mr. Baer will not declare there is nothing to arbitrate until after he has made a second examination.

The New York Tribune asserts that "Goebelism is still rampant in Kentucky."

The Tribune should take note of the fact that one Taylor is still rampant in Indiana.

Mr. David B. Henderson doubtless retires with the firm conviction that he made a very useless sacrifice to prevent his party from doing something it never contemplated doing.

The mention of Governor Cummins in connection with the vice presidential nomination is a neat little bait that the governor will not bite at if he is in earnest in his advocacy of the "Iowa Idea."

The St. Louis Globe-Democrat says: "The country will observe that the republican party is once more carrying out its promises; to which the Louisville Courier-Journal very aptly retorts: "On a shutter."

Digestum

Cures Dyspepsia and Indigestion.

For 60 years its mild potency has restored the sick. The name is the only new thing about it. If a mess of fried onions killed Napoleon, a Digestum tablet might have changed the map of the world. A certain Napoleon of finance was suffering from too much onions—he took one tablet, forgot his trouble and soon slept the sleep of the righteous. Several times lately the doctor was sent for to relieve a prominate lady who lives in the capital city. She says that one box of DIGESTUM has cured her. Don't experiment with your stomach; ask your druggist for Digestum, or send \$1 for a month's supply to,

A TRUE STORY.

Mr. G. W. Morley, of Seattle, was troubled for ten years with catarrh of the head and bronchial tubes. The discharge of mucus was so profuse as to necessitate his sitting up in bed at night to prevent strangulation.

As is always the case where there is dropping down of mucus behind the palate, a catarrhal condition of the stomach prevailed and in consequence the whole system was run down.

On the advice of a friend he undertook the complete MacKenzie treatment for catarrh. He says now—more than a year since commencing—that he is entirely free from colds, that the nasal passage and throat are free from catarrhal discharges, that his stomach and digestion are in better condition than for years. In fact, he says he is a well man and attributes his good fortune to the MacKenzie "Method."

What is this "method?" It is simply the double treatment of catarrh locally and internally. While the system is renovated and toned and the poison in the blood eliminated, the original point of infection, namely, the nasal passage and throat, is cured and the source of the blood contamination removed.
