MISERY LOVES COMPANY.

Especially on a Cold Night When a Man's Led on a Goose Chase.

Shortly after 2 o'clock one bitter winter morning a physician drove four miles in answer to a telephone call. On his arrival the man who had summoned him said:

"Doctor, I ain't in any particular pain, but somehow or other I've got a feeling that death is nigh."

The doctor felt the man's pulse and listened to his heart.

"Have you made your will?" he asked finally. The man turned pale.

"Why, no, doctor. At my age— Oh, doctor, it ain't true, is it? It can't be true!"

"Who is your lawyer?"

"Higgabotham, but—"

"Then you'd better send for him at once."

The patient, white and trembling, went to the phone.

"Who's your pastor?" continued the doctor.

"The Rev. Kellogg M. Brown," mumbled the patient. "But, doctor, do you think—"

"Send for him immediately. Your father, too, should be summoned; also your—"

"Say, doctor, do you really think I'm going to die?" The man began to blubber softly.

The doctor looked at him sternly.

"No, I don't," he replied grimly. "There's nothing at all the matter with you. But I'd hate to be the only man you've made an idiot of on a night like this."—Philadelphia Ledger.

His Cue.

The young man whom we have chosen to be the hero of this story was resolved to put his fate to the test. He dressed carefully, rehearsed his part until he knew that he was better perfect, and then sought the dwelling place of the lady of his choice. When he had seen to it that the stage settings were all right, he fell gracefully to his left knee and said:

"Will you marry me?"

"This," answered the lady, "is so sudden. Give me time to think it over."

"But how shall I know your answer?"

"Watch the papers. If you don't see my wedding announcement there by Wednesday, you will know that you are chosen!"—Cleveland Plain Dealer.

How to Detect the Alum Baking Powder

"Which are the alum baking powders; how can I avoid them unless they are named?" asks a housekeeper.

Here is one way: take the can of a low-priced powder in your hand and read the ingredient clause upon the back label. The law requires that if the powder contains alum that fact must be there stated. If you find one of the ingredients named alum, or sulphate of aluminum, you have found an alum baking powder.

There is another and a better way. You don't have to know the names of the alum powders. Use Royal Baking Powder only; that assures you a cream of tartar powder, and the purest and most healthful baking powder beyond question.

MALES AND MEALS.

[A contemporary remark on the fact that English girls regard men as a necessary accompaniment to all lunch or dinner parties.]

Oh, bevy of bachelor ladies, Who grace our occasional board, And it finds you uncommonly dear, In no wise because you are floored By attractions adept nor because you accept Mere man as your natural lord!

As a sex you are in the ascendant; You are raising no end of a fuss To prove you are quite independent Of the males you distress and discuss. But it seems that you feel when it comes to a meal you are uncommonly dear, That you can't get along without us.

You may blot out the male from the meeting Where President Christabel sits, But when it's a matter of eating Pride goes absolutely to smash, Taken down from the shelf, man's a host in himself

When her ladyship sits down to hash, Yes, it's odd you should deem us essential, But the bill makes the mystery clear. Our pocket's our leading credential, And it finds you uncommonly dear, For you stand us, 'tis true, just because we stand you, And the 'tisn't due to attraction, I fear.

—Alice Johnston in London Opinion.

PRACTICAL HEALTH HINT.

Hot Foot Baths.

There is a mode of using hot water which is an exceedingly valuable one. It is the habit of taking a hot foot bath every night before going to bed, for about ten or twelve minutes, as hot as it can be borne.

The effect of this on the feet, which should be immersed over the ankles, is to fill their vessels with blood, rendered apparent by their deep red color, and this affords relief by withdrawing it from the brain. Especially after intellectual activity, also after prolonged study or literary labor at night, the tranquillizing effect on the nervous system is very remarkable, and quiet sleep is promoted. Let the highest temperature which can be borne be maintained for at least ten minutes by repeated small additions from the hot water can close at hand.

THE LADY EXPLAINED.

Then He Probably Smiled, but It Must Have Been a Sickly Effort.

A woman with fifteen bundles boarded the street car the other afternoon when I was on my way to my suburban residence. She was a very pretty young woman. I felt sorry for her. She was returning from a shopping tour. Being a man with a kind heart, I helped her upon the car and piled her bundles about her. A man got on at the same time and took a seat on the other side of the young lady.

When the car came to my street I was surprised to see her rise and begin to pick up her bundles. Instantly my sense of chivalry prompted me to help her off the car, and, as I was going in the same direction, I asked permission to carry her fifteen bundles. The man got off also and started on ahead.

I was loaded down like a camel crossing the desert. In those packages she had everything from an electric flatiron to a five pound bag of prunes. We trudged along about a half mile. The man turned in at a gate.

When we reached this gate the young lady thanked me and said: "This is as far as I go. I live here. Thank you very much."

"But the man ahead of us, the man who came out on the car with us, turned in here too."

"Yes," she said, "He is my husband, but he hates to carry packages through the street."—Brooklyn Eagle.

Hospitality.

The appetite of the guest was a keen one, and he was doing full justice to the excellent dinner provided by his host. The little daughter of the house watched him open mouthed for awhile. Then finally she smiled on him brightly and said:

"Oh, I do wish you were here to dinner every day!"

The guest beamed with satisfaction.

"Do you, my dear? Why?" he inquired.

"Because," came the unexpected reply, "there won't be anything cold to eat tomorrow."—London Tit-Bits.

Discipline.

"How do you get your constituents so thoroughly accustomed to implicit reliance on your word?"

"Well," replied Senator Sorghum, "I made 'em understand at the outset that if they didn't accept my statements they'd have to listen to a long string of statistics."—Washington Post.

Wasted Effort.

"He never spanks his son, does he?"

"No; he's an efficiency crank."

"What's that got to do with it?"

"He says the upward stroke is lost motion."—Houston Post.

Indignant Denial.

"Prisoner, have you any collateral about you?"

"No, sah; an' dat man's a liar what said I ever don' teched any."—Baltimore American.

Musical Discard.

"He is a musician, is he not?" "No, indeed!" "But he plays in a band?" "He does."—Houston Post.

TALKING PICTURES AT GRAND

Thomas A. Edison's latest invention the Kinetophone, or Talking Pictures, has taken its place among the high class theatrical attractions now touring the country. A programme of twelve excellent subjects, combining musical and dramatic numbers, comedy, vaudeville and minstrel bits, and special features in which prominent statesmen and noted suffragettes are seen and heard has been arranged for presentation in the first class theaters.

Several companies have been organized by Mr. Edison, each equipped with its force of operators and necessary mechanical accessories of machines, etc., and having its advance agent and business manager. These companies are competing successfully with the largest dramatic and musical organizations for volume of business. In the hundred or more leading cities of the United States where the Kinetophone has already been seen during engagements varying from three days to as many months, the recognized dramatic critics have been unanimous in declaring it an unqualified success.

The coming engagement of the Edison Talking Pictures at the Grand theatre, three nights, starting Friday with matinee Saturday and Sunday.

Send your inquiring eastern friends the Semi-Weekly Aberdeen Herald, to inform them about the Grays Harbor country.
