

Tales of The Town Tensely Told

Lowney's chocolates. Evans Drug Co.

Owen Taylor left yesterday morning for Medford, Oregon.

R. A. Dalton, state food inspector, visited the city yesterday.

Dave Morley left yesterday to visit relatives at Stillwater.

Mr. and Mrs. M. A. Moar, of Centralia, spent Sunday in the city.

A son was born yesterday morning to Mr. and Mrs. N. F. Hamilton.

Japanese Toothache Drops will relieve the pain at once. Evans Drug Co.

Miss Parks of Los Angeles, is in the city, visiting Mrs. A. L. Davenport.

Mr. and Mrs. H. H. Gray, of Centralia, visited Aberdeen friends Sunday.

Stop that cough with our white pure cough remedy, guaranteed. Evans Drug Co.

A daughter, weighing nine pounds, was born yesterday to Mr. and Mrs. Frank Fisher, at Tacoma.

Bring in your prescriptions at any time, they will be properly taken care of. Evans Drug Co.

A ten-pound son was born Saturday to Mr. and Mrs. Joseph Ryan, at the Grays Harbor hospital.

The fire department was called to South Aberdeen yesterday afternoon to fight brush fires in Union Pacific addition.

Mr. and Mrs. Mullen and son, of Olympia, accompanied Mr. and Mrs. G. W. Thein to Pacific Beach for a week's outing.

Mr. and Mrs. Dan McGillicuddy left yesterday for Rochester, Minn., where Mr. McGillicuddy will undergo an operation.

Neil Cooney, manager of the Grays Harbor Commercial Co., entertained at dinner Saturday night at his home in Cosmopolis.

The children of South Aberdeen will hold a playground festival Friday afternoon under the direction of Miss Mable McKeever.

Mr. and Mrs. W. D. Peters and Mr. and Mrs. J. W. Carr of Bremerton, visited the city Sunday, coming from Bremerton by auto.

A playground festival will be held Friday afternoon on the Franklin school grounds, under the direction of Director G. S. Maxwell.

The Socialist party held a pleasant picnic at Electric park Sunday. There was a sports program and an address by Mr. Lessler, of Tacoma.

Edward Gault and Earl R. Gault left Thursday for Vancouver, B. C., to erect a monument over the grave of their mother, the late Mrs. Gault.

K. Zelasko returned Sunday night from San Francisco, bringing with him on the steamer Chehalis about 60 tons of structural steel for his new building on Wishkah street.

For sale—Heavy single harness. Good as new, only used three months. Also mare colt, 15 months old, \$50. Address W. C. Bignold, Aberdeen, Wash. 85-2t.

A. Sanda was brought to St. Joseph's hospital yesterday afternoon from Saginaw, suffering from an injured leg caused by a log rolling on him while working for the Saginaw Timber Co.

Mrs. W. A. Kennedy, Mrs. William H. Turner, Miss Irene Bradford and Miss Cora Turner, of Raymond, were in the city Friday, having walked up the beach from Tokeland to Westport, 21 miles, in 7 hours and 45 minutes.

Mrs. W. R. Macfarlane, of Manila, P. I., was in the city last week, visiting old friends. Mrs. Macfarlane came from the Philippine Islands, to place her daughter, Miss Jean, in St. Helen's Hall, Portland, and will return at once.

W. E. Hills and family returned last week from Fabrica, Philippine Islands, where Mr. Hills held a responsible position in the mills of the Insular Lumber Co. They were glad to return to Grays Harbor, the tropical climate not agreeing with the family.

Thirty-five acres of good bench land, six miles east of Aberdeen, near Montesano. Road just east of the country club and the golf links. A small house and barn is on the place. Holpa of the Aberdeen Investment Company thinks that it is a pick-up for \$2000.00 cash. 11t.

Glenn C. Hurtle left last week for Chico, Cal.

Miss Emily Hart is visiting friends in Portland.

Miss Gladys Ferrer is visiting relatives at Raymond.

J. B. Elder returned Friday from an outing at Lake Quinalt.

Mr. and Mrs. Henry Winkelman returned Friday from a trip to Hoods Canal.

The Canadian club will hold a picnic at Electric Park Thursday afternoon.

Cut flowers for weddings, funerals and other occasions. Rustic Flower Shop.

J. S. Waugh is building a summer home on the shore of Lake Quinalt.

Mrs. J. Ketchum returned home Friday from a short visit at Pacific Beach.

Mr. and Mrs. August Melhorn and children, of Seattle, visited the city last week.

Dr. G. E. Chamberlain left Friday night for Sol Duc Springs, for a visit of two or three weeks.

County Commissioner Phil. S. Locke returned Friday from his home, on Lake Quinalt.

Mr. and Mrs. T. H. Blyth and son have returned from an outing of two weeks at Cohasset Beach.

Mrs. Charles Craig is entertaining the Rowena club this afternoon at her home, 815 Boulevard avenue.

We guarantee our headache capsules if you are not satisfied with them get your money back. Evans Drug Co.

Judge W. W. Davies, of Black Diamond, was in the city last week, visiting his son, Arthur E. Davies and wife.

Drs. B. N. and Mayme MacLafferty have returned from the east and reopened their offices, in the Zelasko block. 82-9t

Miss Goldie Eagles, teacher of domestic science in the high school has returned from a visit in British Columbia.

The baseball nine of the local Moose lodge lost the game with the Centralia team, at Electric park, the score standing 2 to 1.

Mrs. Mary Crawford will entertain the Remembrance club tomorrow afternoon at her home, 111 East Market street.

Mrs. Silas Pearson entertained Friday afternoon at her home, 206 North D street, in honor of Mrs. Marlatt, of Lafayette, Ind.

Gunder Haukli, the well known street contractor, returned last night from a visit of three months at his old home, in Norway.

Word comes from the Hoh river oil field that the work of drilling on the new well of the Jefferson Oil Co. is progressing nicely.

Mrs. Mary Hugo, Mrs. Edna Dilard and John L. Blackwood left Friday for Edmonds, to attend a convention of the Church of God.

The Johnston Transfer Co. moved 10 tons of dynamite Saturday from the Northern Pacific yards to the powder house, near Fern Hill cemetery.

Mrs. J. C. Smith entertained the Ladies' Missionary society of the Presbyterian church yesterday afternoon at her home, 700 Second avenue.

The funeral of Alfred Stone was held Friday afternoon, services being held at the Pinnick & Kenny chapel, Rev. John J. Huleen officiating.

The Ladies Aid society of the Swedish Evangelical Lutheran Sliam congregation held a sewing auction Saturday evening, in A. O. U. W. hall.

Dr. and Mrs. J. B. Kinne returned Friday from Chicago, where they spent two months, while Dr. Kinne took a special course in medical work.

The funeral of Aaron Ross Vorhies was held Friday, services being held at the Adventist church. The body was taken to John river for burial.

Mr. Holpa, of the Aberdeen Investment Co., says that he has the best proposition in town for a working man; that is a truck farm in North Aberdeen, ground 150x140, with a six-room, plastered house, for only \$1100—only \$300 cash and balance like rent.

THE MAN WITH A SMILE

Oh, for a man with a smile—when matters are breaking wrong. When things have gone bad for a while, Oh, for a man with a song! For a smile or a song in that kind of a case Is a greater help than a somber face.

Oh, for a man with a laugh!—When matters are looking blue, When you're getting the daily gaff, Oh, for a grin or two! At a time like that then a laugh or grin Is the thing that will let the sunshine in!

Oh, for a man with a boost—When matters are on a rock. Oh, for a word unloosed To take the sting from a knock! For a boost, or clap, or a friendly pat, Is a certain cure in a time like that.

Miss E. Yeoman of Pe Ell, visited the city last week.

Mrs. J. E. Overton, of Carlisle, visited the city, Friday.

Mr. and Mrs. Edward Mark, of Tacoma, visited the city last week.

E. T. Steinbach left Saturday for Chelsea, Mich., to visit his parents.

Mr. and Mrs. J. L. Johnson left Friday for a visit to Mt. Rainier National Park.

Guy P. Halferty returned last week from a business visit of two months in the east.

Mr. and Mrs. L. Dalton made a motor trip to Mt. Rainier National Park last week.

Miss Lucile Ebbert left Friday for her home in Chicago, after a visit with her sister, Mrs. Harry Smith.

Mrs. Samuel McClymont entertained Friday afternoon in honor of her guest, Mrs. Fuller, of Pasadena, Cal.

Asa B. Wilson received word last week of the death of his father, at his home in Hentington, West Virginia.

Mr. and Mrs. Marlatt of Lafayette, Ind., arrived in Aberdeen last week, to visit their son, James I. Marlatt, and wife.

Mrs. George Nyere and baby left Friday for a visit to her old home in Grand Rapids, Mich. They were accompanied to Portland by Mr. Nyere.

Orville Reeder, the famous young pianist, arrived home last week from Victoria, for a short visit with his parents, Mr. and Mrs. Frank B. Reeder.

Frank Kaufman, a former pioneer of Aberdeen, now residing near Blaine, Wash., arrived in the city Sunday evening, to visit his son, J. J. Kaufman, and family.

L. L. Leighton, W. C. Mumaw and W. O. McCaw returned Saturday night from a trip of three days in the North river valley, made in Mr. Leighton's auto.

Mrs. C. P. Blyth is expected home today from a visit with her parents, Senator and Mrs. Clark, at Evanston, Wyoming. She will be accompanied by her mother.

A. C. Hughes and C. H. Younger, of the State Bureau of Labor, visited Grays Harbor industries last week, looking after the work of safety committees in the mills.

Mr. and Mrs. Thomas Carstens, Miss Nina McKowin and Peter Carstens, of Tacoma, were in the city Friday, looking over the local plant of the Carstens Packing Co.

The Grays Harbor delegates to the convention of the State Federation of Women's clubs, at Raymond, returned home Friday evening. They report a most pleasant and successful meeting. Mrs. L. G. Humbarger of Aberdeen, was elected auditor of the State Federation.

TO WHOM IT MAY CONCERN.

Notice is hereby given that my wife, Zada Ensign, has left my bed and board without just cause or provocation, and that I will not be responsible for any debts contracted by her from this date.

Aberdeen, Wash., July 27, 1914. 85-3t FRED ENSIGN.

BUCKLEN'S ARNICA SALVE FOR CUTS, BURNS, SORES.

Mr. E. S. Loer, Marilla, N. Y., writes: "I have never had a Cut, Burn, Wound or Sore it would not heal." Get a box of Bucklen's Arnica Salve to-day. Keep handy at all times for Burns, Sores, Cuts, Wounds. Prevents Lockjaw. 25c, at your Drugist. (2)

SPLASH COMMITTEE HAS MONEY

The Splash committee of the Chamber of Commerce held a meeting Friday evening to check up receipts and expenditures and will shortly publish a statement of the same. Chas. Holmer, treasurer, and Fred Wylie are checking up the accounts and will report in a few days. There will be about \$800 left over, which will be deposited in a savings bank, to draw interest, until the next Aberdeen Splash.

SUCCUMBS TO BLOOD POISON

E. J. Kadow, joint demurrage clerk for the three transcontinental railroads, died Saturday evening, aged 28 years, from the effects of an accident a week before. Going home the night of July 18, he found his wife and mother absent and the house locked up. He crawled through a window in which the glass was broken, and in doing so slipped and was cut severely by the glass and blood poisoning set in with fatal results.

WILL BUILD HATCHERY.

Henry O'Malley, Pacific Coast superintendent of the United States bureau of fisheries, returned Sunday from Quinalt Lake, accompanied by Game Warden Esses. Mr. O'Malley was enthusiastic over the conditions he found at the lake and the tributaries of Grays Harbor, and said this was the greatest undeveloped district for the fisheries standpoint in the Northwest. An experiment station will be established this fall on the lake, and Supt. O'Malley will recommend a hatchery at once.

KNIGHTS OF PYTHIAS MEETING

A number of Knights from Hoquiam and Montesano will visit Wishkah lodge, Knights of Pythias at the meeting Friday night. There will be third degree work followed by the usual banquet. A full attendance is desired.

MAKES ASSIGNMENT.

Benna Isaacs, of the Dry Goods Emporium, was adjudged bankrupt last week and L. H. Burnett, receiver, will offer the stock and fixtures for sale at 2 p. m., next Monday, August 3.

RESTORING THE RANGE.

System of Deferred Grazing Suggested as a Remedy For Deterioration. [Prepared by the forest service, United States department of agriculture.]

That a serious decline in the carrying capacity of vast areas of western grazing lands, due largely to the fact that stockmen fail to give the range plants a chance to keep growing, can be remedied without closing these areas to cattle and sheep is the statement made in a bulletin recently issued on range improvement. Excessive grazing in the spring before the forage crop is mature and such grazing continued year after year, says the department, are the main causes of range deterioration.

On the national forests, the department points out, where the government is doing away with these evils and stock is handled under government regulation, the range lands have improved to a point where it is again possible to market large numbers of beef and mutton animals directly from the range.

In the "free for all" period of early days, the department goes on to say, the most palatable forage plants were so closely cropped that they were unable to develop the necessary plant food and so literally starved. In addition, the roots were frequently injured by trampling or killed by exposure. As a result the best kind of vegetation grew weaker from season to season, and where the practice of early and close grazing was continued the range at last became practically denuded.

The vegetation which furnishes the grazing crop has much the same growth requirements as a farm crop. No farmer who hopes to realize the best returns from a permanent hay meadow, it is stated, would think of harvesting the crop as soon as it is tall enough to cut, regardless of whether or not it is mature. Nor would he graze a permanent pasture closely from the time the growth begins until it ceases, for he knows that this will result finally in killing it out. And since climate and soil conditions over much of the western grazing lands are less favorable to plant growth than those on the average farm even greater care must be exercised in utilizing the range crop than is necessary with that on the farm.

The remedy suggested for range deterioration is a system of deferred grazing. Under such a plan an overgrazed portion of the range, sufficiently large to supply the forage from the time the growth begins until it ceases, is protected from stock until the seed crop has matured. Upon maturity of the seed crop the forage is grazed during the first season, but not to the extent of injuring seed plants. The same area is protected in the same way during the second and, if necessary, subsequent seasons, or until the new plants have been securely established. When the area has been thoroughly reseeded it can be again grazed early in the season, and a second area, large enough to accommodate the stock from the time of seed ripening to the end of the season, is protected until the forage is mature.

By this method of alternating late grazing from one area to another weakened vegetation can recover its vitality without the need of having the land closed to grazing the entire year.

Zoology and Flags.

Zoology figures very largely on the flags of different nations. On the British royal standard is the lion. It was Richard Coeur de Lion, by the way, who altered the device from leopards to lions on the king's standard. The eagle appears on the standards of both Russia and Germany and both the lion and the eagle on that of Spain. Bulgaria has a lion and Mexico a bird quarrelling with a snake. Taken together with the animals that appear on nations' arms, the royal unicorn and Australian emu and kangaroo, a fairly comprehensive collection could be made from the various national emblems.

STACKING WHEAT.

Government experts declare that when the wheat is in stack "sweating" improves the color, condition, test weight of the grain and milling and baking qualities. Stacking is particularly important when thrashing cannot be done soon after the cutting, because it affords better protection at once.

Different practices are in use. In the east wheat is usually stacked outside or stored in mows as soon as dried out in the shock. It is then allowed to remain a few weeks or months until thrashing can be done. Thrashing directly from the shock is a more common practice in the west. The cost of thrashing from the shock is generally somewhat less than the cost of stacking and thrashing from the stack. The farmer who does not have sufficient storage space for shock thrashed grain usually finds it advantageous to stack his crop.—American Agriculturist.

SAFEGUARD THE FARM WELL.

Pollution From Well Water is a Menace to Be Guarded Against.

Farm wells, according to the United States department of agriculture, are often polluted from local sources. They are often located for convenience near the barn or stable, or close to the back door, out of which household slops are thrown. The soil surrounding the well becomes saturated with organic filth and allows the surface water percolating through it to carry contamination into the well.

The curbing or covering is often loosely constructed of boards, permitting small animals and vermin to fall into the well, and surface water carrying filth and manure, especially after rains, runs into the well from the top. Both deep and shallow wells are subject to contamination. Of 177 deep and 411 shallow farm wells examined in Indiana 116 of the deep well waters were of good quality, forty-five were bad and sixteen were doubtful; 159 of the shallow well waters were good, 209 were very bad and forty-three were doubtful.

The safety of water supplies when near sources of possible surface pollution often depends largely on the character and quality of the material in which the well is sunk.

The farm well, especially a shallow dug well, should be located somewhat above the barn yards and stock pens, at least in such a position that the surface drainage from all possible sources of contamination is away from the well. If local conditions and prices will permit it is a good idea to provide impervious floors with watertight drains for farm buildings and stock pens. Under the same conditions concrete manure pits might well be provided not only to prevent the liquid manure from polluting the neighboring soil, but to save the manure. No garbage, manure or rubbish should be dumped into stinks or basins in the immediate neighborhood, and these should be fenced off and kept free from polluting matter.

Combination Barrow Cart.

This is neither a wheelbarrow nor a cart, but does the work of both. It is made of boards one inch thick. Piece 1 is twenty-eight inches wide at the top, fourteen inches deep and fourteen inches wide at the bottom. Both sides are tapered equally. Piece 2 is twenty-two inches long. The opposite sides are made the same, which, together with a bottom, complete the body. Plow handles are attached as illustrated. Any strong pair of wheels will

EASY TO PULL.

do. I used wheels from an old guano distributor. They are eighteen inches high. A piece of bent iron keeps the cart upright when the handles are released.

This barrow is roomy and light and balances well. It is easy to pull and does not require much strength to keep it from turning over.—Farm and Fireside.

MIDSUMMER FARM WISDOM

It is all right to cut over the alder patches every year or two, but it is far better to root those alders out. This is the time of the year when you get interest on the money you invested in the barrow. See that you miss none of it.

Drain off the mudholes, screen the rain barrels, kerosene the swamps, and there will be practically no mosquitoes in your neighborhood.

Better bridges are needed in many localities nowadays—strong enough to hold up the heavy modern traction engines that are becoming so common.

If your grain is capped after a heavy rain take the top bundles off so that the sunshine and wind can dry the shocks. This may save a lot of spoiled grain.

How to treat land that is too wet for crops and not easily drained. Plow it in a very dry time, thoroughly harrow and seed to redtop (herd's grass) and alsike clover.

A circus parade always attracts a bigger crowd than an uplift movement. You never can tell. Sometimes the truthful man really catches the most fish.

Happy is the man who can forget all the mean things he knows about himself.

The people who sow the seeds of discontent generally reap the apple of discord.

PURITY OF THE AIR.

An English Scientist Attacks Our Theories of Ventilation.

Crowther, the English scientist, attacks one of the most cherished of our hygienic notions with a logic that commands respectful attention. His contention is that efficient ventilation does not depend upon the chemical purity of the air. The attempt should be to secure motion, coolness and dryness rather than to displace one body of air by another.

He denies that there is a toxic organic substance in the atmosphere as the result of human exhalations and challenges those who disagree with him to their proofs, as the existence of such poisons has never been scientifically demonstrated.

The lungs, according to him, are never filled with air some of which has not been exhaled. Inhalation follows so closely upon exhalation in normal breathing that a portion of the air that has just left the lungs is invariably drawn back into them.

Exhaustive experiments show that the amount of air thus returned is from 1 to 2 per cent in persons remaining quietly indoors. It is from 4 to 10 per cent in those asleep in bed. There are certain sections of the respiratory apparatus, moreover, the nose and the larger bronchi, in which exhaled air always lingers. It thus appears that the air in the lungs is always heavily contaminated with their own excreting gases, even in outdoor life, and the dead spaces make it certain that this contamination will not decrease.

It is not worth while, so the doctor argues, to pay much attention to the small amount of carbon dioxide in the atmosphere, therefore, and if the air is kept in motion and not permitted to become too moist or warm the necessary ends of ventilation will be subserved.—Cincinnati Commercial Tribune.
