#### TWO FISHERMEN ARE FINED; ESSUS BEY

County Game Warden L. J. Esses arrested two salmon fishermen, fishing in the Chehalis river between Cosmopolis and Aberdeen, Saturday afternoon. One was an alien. They were tried that evening before a justice of the peace in Cosmopolis, both being guilty of fishing without having the license number on the boat, and the alien being guilty of the provision which debar an alien from fishing for profit. Each was fined \$5.00 and costs.

These are the first arrests of salmon fishermen made in Chehalis county this season, and Game Warden Esses states he is going after law-breakers of this class from now on, plenty of warning having been given.

### CAMPAIGN CLOSED BY JOHNSON AND HANSON

tion of the Wilson administration. Like every republican campaigner this year, while denouncing the measures passed by the Democratic congress, he failed to name a single one of them or his party would attempt to repeal if returned to power. He practically announced a disposition to tear down, but outlined absolutely no plan of construction.

He condemned the currency law which is admired by the financiers of the world—because, as he said, it was written by a Wall Street editor, yet, in almost the same breath, he told of its original crudity which had to be whipped into shape in the senate, after the editor's bill had passed the house, by an almost unanimous vote. He dragged into the tariff discussion the arguments that were invented by the late Marcus Hanna, and worn to tatters in every campaign since. Arguments that were repudiated in 1910, when the nation elected a democratic congress with direct instructions to reduce the tariff, an instruction, by the way, that was faithfully carried out to the satisfaction of the country, a satisfaction that was made plain to the most blind in the elections two years ago.

Exhibiting a cartoon that has run the gamut of the Perkins Press, Mr. Johnson let go of a calamity howl calculated to cause the old time populist turn green with envy. Contradicting the press dispatches in the newspapers every day, he told horrible tales of distress in the east, and surprised the lumbermen present by telling them how they were ruined by British Columbia "dumping logs on the Washington market, in apparent ignorance that the province levies a prohibitory export duty on logs. His master stroke was what he termed "a complete answer to the tariff question," when he said the reason Charles Drury was satisfied with the present tariff was that he was in the tailoring business, and that he was enabled to buy his cloth cheaper and still maintain old time prices. Convincing, what?

The congressman concluded by an explanation of the failure to get the Grays Harbor improvement in the house rivers and harbors bill, in which he indignantly denied being "asleep at the switch" as had been charged by the Aberdeen Chamber of Commerce. The explanation was accepted, albeit, some were disappointed at not hearing him say what he expected to secure for Grays Harbor, when in a speech on the floor of the house on September 29, on the bill to appropriate a lump sum of \$20,000,000 for rivers and harbors, he argued in favor of a substitute reducing the sum to \$5,000,000. The writer was one of a number who would like to have heard just how that was expected to aid the extensive shore line of his district.

#### BE PRETTY! TURN GRAY HAIR DARK

Look Young! Nobody Can Tell If You Use Grandmother's Simple Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe for about 50 cents. Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy. ### TIMES ARE MENDING IN EASTERN STATES

J. S. Waugh Returns from Extensive Tour in Eastern States and Canadian Provinces.

Mr. and Mrs. J. S. Waugh returned home on the Owl train Sunday morning from a trip of six weeks through the middle western and eastern states. On their trip, Mr. and Mrs. Waugh visited 32 states and two Canadian provinces, the purpose of Mr. Waugh being to make purchases of winter goods for his dry goods stores.

Mr. Waugh says that while hot political fights were on in all the states, business conditions appeared on the upward move. This, he said, was particularly true of the New England states, where the manufacturer has got over the new tariff scare, having discovered that it did not injure their business, and that the fabric mills were running day and night.

He found the middle western states in a most prosperous condition, this being especially the case in the farming state of Iowa, where the crops were huge and prices high. He noted the sale of cattle right off the grass range selling for \$10 per hundred pounds on foot, and ceased to wonder at the broad smiles worn by the farmers.

Now that foodstuffs are moving toward Europe and the matter of foreign exchange is being settled, he believes the demand for lumber from those states will soon keep the mills of Washington busy.
