

Thirty-sixth Anniversary of the Electrical Industry

black and tar, soft paper, fish line, various combinations of paper and tar, linen, cardboard, celluloid, box wood, cocoon-hair and shell, shavings from hickory, bay wood, rose wood, and a thousand or more varieties of wood, lamp wick, punk, cork, bamboo fiber. These are, of course, but a few of the substances investigated.

Six and thirty years ago, on the 21st day of October, a remarkable achievement in science and engineering first literally "saw the light" at Menlo Park, New Jersey, and established for itself and its inventor a place of prominence and honor in our daily lives destined to endure as long as the world shall last.

It will more than repay you to tarry a while in the Display Show Rooms of the Electric Service and Supply Company in the Electric Building, where you will be received courteously and see things electrical, and every information cheerfully given you.

GREENBANK FARM'S PREMIER SIRE

Readers generally are elated over the fact that the state of Washington is the home of one of the greatest sires of the Holstein breed. King Korndyke Pietertje Pontiac No. 127, 887, the only son of King of the Pontiacs in the Northwest, enjoys this distinction.

daughters of Joe Gelsche DeKol Burke, the best son of Prilly—the greatest transmitting cow of the world, through her daughters, Beauty Pietertje Prince, the sire of May Korndyke 2d, is a son of Beauty Pietertje Butter King and Clarissa Clotilde Pietertje, who has a record of 32.52 lbs. of butter from 679.5 lbs. of milk in seven days.

KING KORNDYKE PIETERTJE PONTIAC, No. 106,518

One of the herd sires of the Greenbank Farm, Greenbank, Washington, and valued at \$10,000.00.

lbs. butter, stands as a world's record for that length of time. He has more 20 lb. daughters; more 20 lb. 2-year old daughters; and more daughters that have made 30 lbs. with second calf than any other sire living or dead. His list of 10 daughters, with records above 30 lbs. is exceeded by only one other—his sire Pontiac Korndyke.

Aside from his breeding, King Korndyke Pietertje Pontiac is an animal of exceptional quality, as shown by his picture, which appears in this issue; and, in bringing a sire of this high quality to the state, the Greenbank Farm of Greenbank, Washington, has done much toward furthering the popularity of this already popular breed in the Northwest.

PAINTED CARS AND BANANAS.

H. P. Potter, district freight and passenger agent of the O. W. R. & N. company, has just returned to this city. While away he visited his old home in Ballymacree, Ireland, also many of the principal cities of the East in the United States.

While we do not doubt Mr. Potter's veracity we propose to see Bro. Scurry of the F. & F. Garage and get his version of this yellow painted car business—"Think of it!" Mr. Potter also says that business is improving all over the country.
