## SOCIALISTS LOSE OUT IN FIVE WARDS

### Representation Is Cut to Two By City Election Tuesday

### M'MASTER WINNER

### Beats Milette in Sixth; Wieland Wins Against Miller

But two Socialists are left on the city council as the result of Tuesday's city election. Emil Milette, Socialist incumbent from the Sixth ward, was defeated by James McMaster, 298 to 192. In the First, where Charles Ivana, Socialist candidate, was regarded as having a good chance, E. C. McKnight, Republican incumbent, beat him, 191 to 129.

E. E. Wieland, Socialist incumbent from the Second, won out against the Republican nominee, Oliver Miller, 182 to 143. With Anton Pista, the Second's holdover councilman, he will represent the Socialist party in the council after next month.

In the Third John Fraser beat Mark McGregor, Socialist, 278 to 97; and in the Fourth and Fifth the victories of Republican incumbents, J. M. Bowes and J. D. Walker, over Socialist aspirants T. H. Ash and Peter McNally, were more pronounced, the vote being 237 to 34 and 364 to 15.

Peter F. Clark was returned as city clerk for the thirteenth consecutive year, with 1621 votes against 421 cast for his Socialist opponent, Joe Thomas. T. H. Hill was re-elected city treasurer, with 1719 votes, and Glen Snider police judge, with 1696 votes, neither being opposed. The vote was light, about 2100 out of a registration of 3533. Those who did not vote will have to register again if they desire to vote at the next election.

## W. H. Tucker is Out for Prosecuting Attorney's Job

W. H. Tucker has announced his candidacy for the office of prosecuting attorney of Grays Harbor county, subject to the Republican primaries in September. Mr. Tucker, who graduated several years ago from Leland Stanford university, has been a Grays Harbor resident and popular practicing attorney here for the past seven years. He should make a strong race for the nomination, having an enviable reputation as a lawyer and being possessed of hosts of friends made by his agreeable personality.

## BIBB ANNOUNCES CANDIDACY FOR SUPERINTENDENT

THOMAS W. BIBB.

Announcement of his candidacy for the office of county superintendent of schools is made this week by Thomas W. Bibb, instructor of science in the Aberdeen high school. Mr. Bibb assumed charge of the department on his coming to Aberdeen two years ago and has done very good work.

A native of Missouri, Mr. Bibb graduated from Williams Jewell college, Liberty, Mo., in 1908. He is 31 years of age, has held positions in the schools at Jozeman, Mont., and Weisner, Ida., and was school superintendent at Burton.

## GOOD CHANCE FOR BOYS TO FIX SCREENS

The fly season is nearly here and most of us are contemplating having fly screens put in our homes or looking over the screens we had last year and estimating the cost of having them put in shape for this year. During the winter our boys have been taking lessons in manual training, says the state board of health in a bulletin. Some of them have brought home nicely turned candlesticks, others well constructed taborets and others pieces of decorative furniture. This work has undoubtedly, given the boys good training, but is it not possible that these boys are gaining the idea that decorative work is more important than the essentials of life? These boys can make a taboret but can they make a fly screen?

This statement is not made in the spirit of criticism of our school system and especially of our manual training department. It is thrown out as a hint with the hope that our schools may adopt the idea of having the boys carefully measure every window in their homes and let their manual training work result in making screens for these windows. When they have learned to make a good screen then let them begin on doors. In making the door they can get in such scroll work and turning work as they like. After the house is screened let them begin on the barn, and by so doing they will learn to make the articles that are necessary in their homes and reduce the running expenses incumbent on parents.

## Grays Harbor City is Subject of Story by Morris and Mack

Local Newspapers Collaborate on Sketch Appearing in April Sunset Magazine

Dusty annals of Grays Harbor City and reminiscences of the pioneers who bravely attempted to make a metropolis of its site, are given in a story in the April issue of Sunset. Pictures show the line of men who waited all night, away back in '89, to be first in the bidding for town lots, and of the lone survivors of the Grays Harbor City population, Mr. and Mrs. Aloph Jaeger.

A half million dollars worth of realty changed hands on the day the former picture was taken. The assessed valuation today runs from \$1 to \$2 a lot.

The story, which was written by W. L. Morris of the Herald staff, and Russell V. Mack of the Aberdeen World, recalls the days when the future of Grays Harbor seemed to depend entirely on what the Northern Pacific railway would do. The Grays Harbor City pioneers were unfortunate in that they could not wait for the railway, which had selected Ocoosa on the south shore as its terminus, to make its extension down the north shore.

## CURFEW AT 9 NOW

Curfew does not ring until 9 o'clock now. The advance of an hour's liberty for youngsters was made April 1 and will be in effect until October 1.

## HIGH SCHOOL WINS INDOOR TRACK MEET

Athletes of the Aberdeen high school last Friday night won the second annual indoor track meet given by Co. G, 2nd Reg. W. N. G., at the armory. Hoquiam Y. M. C. A. was second, Co. G third and Moose, represented only by M. A. Messegue, fourth. Kensel and Cook of Co. G were the bright stars of the meet.

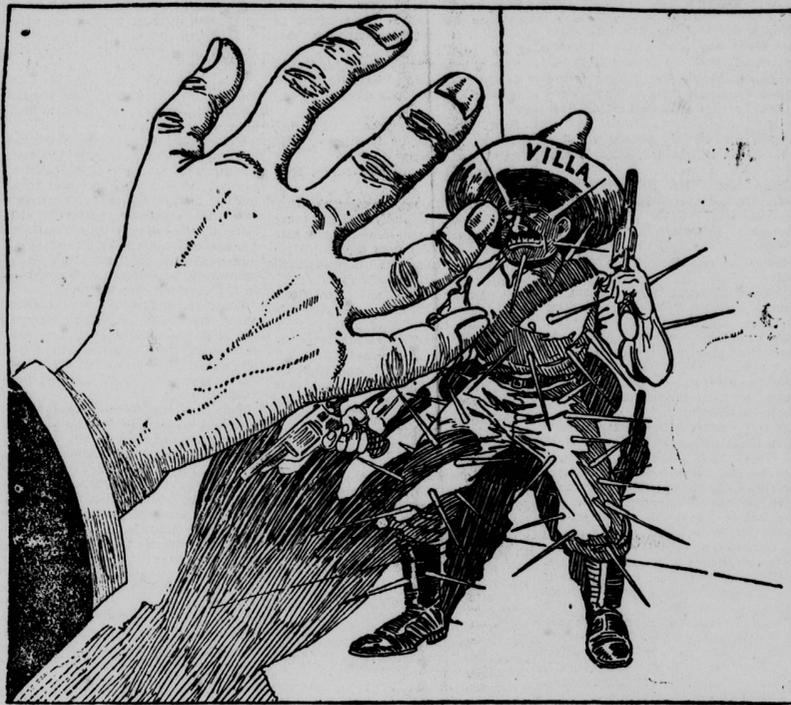

## THIRST GROWS MONTHLY

- January, 70 permits.
- February, 252 permits.
- March, 539 permits.
- This is the record of permits to buy liquor, for the first three months in Grays Harbor, as shown in the county auditor's office at Montesano.

## THE GRANT HOTEL

Among the registrations at this popular hotel are O. Abelman and A. M. Nelson, Portland, J. L. Doggett, M. M. Conway, J. A. Cooper, Tacoma, Vance Hills, Carlisle, D. C. Coch, Olympia, M. T. Adams and wife, New York, C. Hart, C. Powers, St. Paul, M. Allen and wife, Denver, M. Casey, Aloha, E. E. Lambler, Salem, W. W. Martin, Seattle.

CORNERING A PORCUPINE MAY BE EASY, BUT GRASPING HIM IS DIFFERENT.

—Goldsmith in Boston Globe.

THE FIRST TIME SHE TRIED TO COOK.

—Chapin.

Respectfully Dedicated to the Domestic Science Section of the Aberdeen High School.

### A NEW FIRM

The Grays Harbor Welding Co., at 315 So. G street, surely are needed in this city. Their specialty of which they are experts is welding, brazing, cutting and machine work.

Broken castings of every description are made as strong as when new. Farm machinery is a department in which they do most excellent work, saving time and much expense to the farmer when some part of a machine breaks. They are already finding much work in the mills and when their superior work is more fully known they will be in great demand.

### GET FINAL PAPERS

Final naturalization papers were granted last Saturday by Judge Geo. D. Abel to Peter Aldreievic, Michael Valiska, Albert Rounding, Anton Siemion, Samuel I. Rowe, John Chytl, Anton Anderson, John Victor Anderson, Emil Gustafson and Edward J. DeBush.

### LILIES PLentiful FOR EASTER NOW

Easter Sunday comes two weeks from next Sunday, April 23, and indications are that local churches will be well supplied with lilies. At the Aberdeen Greenhouse 1700 lilies were bursting into bloom this week, and there will be calla lilies, too, at the greenhouse in good time for Easter. Better business conditions on the Harbor likely will account for a bigger demand for the lilies this year than last.

### SEARLES AND SCHMIDT GET BOOTLEGGERS

Some clever sleuthing by Deputy Sheriff Joe Searles and Chief of Police R. J. Schmidt and staff last Friday, resulted in the arrest of three alleged bootleggers. George Lind, cook on the steamer Coronado, was lodged in the county jail, and Capt. A. W. Erickson and Steward C. H. Brunn of the same vessel were fined \$50 each. The cook was arrested by Searles after the latter, meeting him on the street, had opened the cook's grip and found eight quarts of whisky in it. Later, Searles and the local police raided the Coronado and found about \$100 worth of liquor and wine, some in the captain's but most in the steward's possession. Lind will have his trial later.

### FRONTIER DAYS APRIL 19

Wishkah lodge, Knights of Pythias, will hold its third annual Frontier Days celebration at the armory April 19 to 22 inclusive.

## PROHIBITIONIST SPEAKER WILL COME IN MAY

Enthusiasm was evidenced at the meeting, Tuesday night at the First Baptist church, of Grays Harbor county advocates of national prohibition. Strong addresses were made by Rev. H. T. Murray and other speakers. It was announced that J. C. Hall of Kansas City, Mo., will speak here on May 21.

An executive committee for the county was selected consisting of Rev. W. T. Randolph, H. B. McNeill, Charles Slover, Mrs. A. B. Bellman, Charles Fuller and Rev. Jurgenson. These were elected delegates to the state national prohibition convention in Seattle next month: E. B. Crary, Harry Fry, Grant Wheeler, Rev. Jurgenson, Chas. Fuller, Chas. Slover, W. T. Randolph and H. B. McNeill.

## W. J. PATTERSON TO MAKE EASY FARMER LOANS

Local Banker Sets Aside Fund After Conference With W. C. Mumaw and C. F. Monroe

Under an arrangement reached after conference between W. J. Patterson, manager of the Hayes & Hayes bank, and W. C. Mumaw, head of the farm development bureau of the Aberdeen Chamber of Commerce, and County Agriculturist C. F. Monroe, Mr. Patterson has set aside money to be loaned farmers, at 6 per cent, for the purchase of high grade bulls and building silos. Some \$5,000, it is understood, will be used by Mr. Patterson as the nucleus of the experiment which is designed to encourage improvement of stock in Grays Harbor county.

That the Aberdeen banker was influenced to make this arrangement by public spiritedness possibly more than by pure banking rules seems evidenced, not only by the low rate of interest charged but by the fact that no mortgage is to be taken on farms to secure the loans, although it will be expected that the borrower shall not have his place already heavily encumbered. The average loan, probably, will be about \$400.

## OPEN BIDS ON SMALL SALES OF DOUGLAS FIR

The district forester at Portland has just opened bids on two small sales of timber on the national forests, one on the Olympic forest in western Washington, and the other on the Crater forest in southern Oregon.

The sale on the Olympic forest consists of 1,725,000 feet of western red cedar and Douglas fir saw timber and 3,500 cords of western red cedar shingle bolts, not far from Port Townsend. This sale has been awarded to the Snow Creek Logging company, which has already purchased other large bodies of timber in the vicinity; the prices paid are \$1 per thousand for the saw timber and 50 cents per thousand for the shingle bolts.

## ASSIGNEE IN BANKRUPTCY

W. B. Paine has been appointed temporary assignee in the bankruptcy proceedings concerning M. V. Snider, proprietor of the Fairmont hotel. The first meeting of creditors in the bankruptcy will be held April 11 in the Finch building before W. H. Tucker, referee.

## TO EXTEND PHONE LINE

A telephone line from Humptulps City to Lake Quinault district probably will be built, as a result of favorable recommendations by Manager W. C. Mumaw of the Pacific Telephone & Telegraph company, who made a trip over the proposed route the other day with J. M. Treen, consulting engineer for the company, and County Commissioner Phil Locke and J. S. Waugh.

## SMITH'S DAIRY FARM

This popular establishment is certainly enjoying a remarkable increase in their business, so much so that they have been compelled to add another auto truck to handle the business.

The milk from the cows milked in the morning arrives in this city at 8 o'clock a. m. Delivery starts at 5 o'clock in the morning on the evening milking. All the milk is bottled at the ranch, so the cream goes along with every bottle. Good, pure, unadulterated milk is the kind you get from Smith's Dairy Farm, city phone 178.

## WILL FORCE IMPROVING OF STREETS

### Council Decides Against Patching Second Street

### STARTS CLEAN-UP

### Citizens Urged to Remove Garbage and Rubbish Heaps

Improvement of West Second street, from M to Washington, practically was determined on by the city council at Wednesday night's session, despite the protest by interested property owners. Councilman James Bowes declared that the protest did not represent 50 per cent of property owners on that thoroughfare. The sentiment of the majority of the council is decidedly against patching the plank roadway on West Second any more, at the expense of property owners all over the city. City Engineer L. D. Kelsey's estimate showed that a 36-foot asphalt roadway could be laid for \$320 a lot and concrete for \$280. Resolution providing for the improvement was ordered for introducing next Wednesday.

The Aberdeen shipyards were given permission to use the ends of fourth and fifth streets for stacking lumber. Peterson & Son were allowed this privilege without charge by the city and the privilege will run until the city shall notify them that it needs the streets.

Mayor Phillips and the health committee were authorized to inaugurate a clean-up campaign, in which citizens will be urged to remove all garbage and rubbish from their premises. The health committee was instructed to look into the wisdom of preparing an ordinance compelling all dairies to use only bottles for serving milk to customers on routes. In this ordinance, too, may be incorporated a provision that bottles may be filled only at the driver's starting out, and not during the trip. The ordinance is favored by the larger dairies which follow such sanitary practice themselves and desire the smaller milk dealers to do the same.

The council rejected all bids for furnishing 2,000,000 feet of pipe staves for the Wishkah water project and decided to buy them in open market. Crane & Co. were awarded contract for air and vacuum valves. Advertising for bids for 8,000 feet of 6-inch pipe for the water department was ordered.

Chief of Police R. J. Schmidt's report for March showed 45 arrests, 12 being for drunkenness; 167 given nights' lodgings; 776 meals served; \$310 received in fees and fines. Fire Chief W. H. Tomblin's report for the quarter ending March 31 showed 33 calls answered; 1450 feet of hose laid; 672 blocks traveled.

Wages of the four city teamsters were raised from \$70 to \$75 a month. They had been reduced in November.

On the city engineer's report that the location survey of the Wishkah pipe line would be completed by Saturday, advertising for bids for construction was ordered. Kelsey was instructed to prepare plats of the right of way needed so that the work of securing it may be pushed while bidders are shown over the pipe line route.

The council denied Mrs. Jean B. Stewart's request that she be reimbursed the amount of attorneys' fees paid by her during the condemnation proceedings instituted by the city to acquire a route for the Wishkah road through the Stewart property. The special bridge committee was instructed to proceed with repairs of the West bridge approaches. The bridge will be thrown open, stated Kelsey, to rtravel, very soon.

## PETERSONS GET THIRD CONTRACT

Within the next couple of weeks Andrew Peterson & Son will start work on a third big vessel at the Aberdeen shipyards. This is the second steamer ordered by Wilson Bros. & Co.

## REID IS CONVICTED.

Earl Reid was convicted of theft of an automobile, by a jury in the superior court, Wednesday night. It was his second trial.
