

—Run-down?
—Tired?
—Weak?

Every Spring most people feel "all out of sorts"—their vitality is at a low ebb. Through the winter months shut up a great deal in heated house, office, or factory, with little healthy exercise in the great outdoors—eating more than necessary—the blood becomes sprung with poisons! The best Spring medicine and tonic is one made of herbs and roots without alcohol—that was first discovered by Dr. Pierce—years ago. Made of Golden Seal root, blood root, with glycerine it is called Dr. Pierce's Golden Medical Discovery. Ingredients on wrapper. It eliminates from the blood disease-breeding poisons. It makes the blood rich and pure, and furnishes a foundation for sound, physical health.

Bellingham, Wash. — "My blood was bad for a long time. My skin was all broken out with big red blotches. I read of Dr. Pierce's medicine so I decided to try the 'Golden Medical Discovery' I took it and was cured. I am always glad to recommend Dr. Pierce's medicine." — Mrs. E. McHALE, 2324 Orleans St.

WHY NOT ELECT A BUSINESS MAN?

Candidate For President Should Have Commercial Training.
GOVERNMENT IS A BUSINESS

Set Back Professional Politicians, Horn Blowing Orators and Briefless Lawyers and Place at the Head of the Biggest Corporation in the World an Experienced Man.

WHY can't we have a business man in the Presidential chair next time, is the query of a prominent New York newspaper. Government is a BUSINESS, and a BIG BUSINESS. Seaguing and overland commerce, taxation, tariffs, rate regulation, monopoly regulation, the mails and parcels posts, conservation of resources, development and maintenance of waterways, the huge payrolls of Government employes, the courts of justice, the national revenue collectors and police, the army and navy—what are all these but pure business problems, demanding the same trained and capable business executive direction that any great business concern demands? What board of directors would think of hiring a professor of Sanskrit to be president of a great railroad? What huge shipbuilding or engineering concern would select a peripatetic stump orator or a lyceum lecturer to direct its activities? Big Business Men Needed. Big business concerns seek big business men with big business brains to be executive chiefs. Now, here is this big business corporation in which every one of us, big or little, is a stockholder—the United States of America. It is the BIGGEST BUSINESS CONCERN the world ever saw. And what do we do every four years by way of selecting a head for this wonderful, gigantic business concern? Why, we always select a man who has never shown enough business ability to run a one-horse drying concern. In the fifty years that have elapsed since Abraham Lincoln died not one of the eleven Chief Executives of this colossal business corporation called the United States has had the SLAUGHTER-BUSINESS TRAINING or any acquaintance with the complex, varied, ramifying and interrelated problems of finance, production, transportation and world exchange upon which depend the welfare and prosperity of the whole people and of each individual citizen. Hindrance of Prosperity. Is it any wonder that our national business is one long serial story of stupid HINDRANCE OF PROSPERITY, stupid depression of commerce and trade, stupid opposition to the forward impulses of business co-operation and consolidation and of wasteful and criminally extravagant expenditure of the people's money to the tune of thousands of millions that we WASTE each year an amount of money that would fortify our coasts, stock our magazines with ammunition, equip our navy properly and SECURE BEYOND ANY POSSIBLE DANGER the safety of our country? Suppose that just once, by way of experiment, we gently, but firmly and positively, set the whole lot of professional politicians, horn-blowing orators, briefless lawyers, pretty phrasemakers, theoretical schoolmasters and all that sort on a shelf in the back woods, and put a BIG, BRAVE, CAPABLE, EXPERIENCED BUSINESS MAN, who has done big things well all his life, in the chair of the President of the United States? What do you think about this, citizens? For an idea, Not an Individual. The views expressed in the above editorial are exactly the views held by THOUSANDS OF INFLUENTIAL BUSINESS MEN throughout the country. As an outgrowth of this sentiment there has been formed an organization called the Business Men's Presidential League, which has for its object the exploitation of an idea instead of an individual. What it seeks to bring about is the nomination of a candidate for president WHO CAN BE ELECTED, also to prevent action next June at Chicago that would be party suicide. An All Round Business Man. To win next November the Republican party must DESERVE TO WIN. That means we must have a candidate who first of all merits and commands the confidence of the business men of the nation. Among the prominent men mentioned as candidates who would meet this demand is General Cushman Du Pont, of Delaware. Du Pont is distinctly a business man. He has been everything, from a miner, working with a pick and shovel, to the director of one of our greatest industrial corporations. He has built and managed railroads and is a banker and a farmer. In every line his activities have been SIGNALLY SUCCESSFUL, and no man has had a more varied experience to equip him for the Presidency. He is the kind of man who could save to the taxpayers of this country the three hundred million dollars that the late Senator Aldrich said were wasted annually in running the public business. Utah That Sings the Business. Perjury having been rife in Bangson courts because no form of oath existed which the Burman considered binding, the government prescribed a formula which is a queer admixture of Buddhism, Brahmanism and Shamanism. Here are phrases from it, picked at random: "If an untruth passes my lips, may all the goats that live in lakes, ponds and brooks and the goats of the five great rivers of India destroy me. May curdled blood pass my lips rather than a lie, and may I die vomiting blood, my body bent in the—"

So He Would. The keeper was feeding the pythons. Several live rabbits were tossed into the cage and were immediately and greedily seized by the reptiles. The struggling rabbits, although seemingly almost as large as the snakes, were swallowed whole one after another. The ghastly sight prompted the scholarly looking man to exclaim, "Grewsome, eh, keeper?" The keeper turned a glance of scorn upon the professor. "Yes, and you'd 'n' grow some, too, if you'd eat all that live stock, I guess." The Rose and its Thorns. This is the old legend of how the rose came by its thorns: One day in paradise Cupid was flying over a garden of roses. Blossoming there was a beautiful pink rose. Cupid bent to kiss it when a bee hidden in the flower stung him on the lip. Crying with pain, Cupid fled to Venus, his mother, demanding vengeance. Venus, to pacify him, gave him a bow string with captive bees and set the stem of the rose with stings torn from the poor bees. These stings now are called thorns. His Income. "How much is he making?" "Between a motorcycle and a car."—Philadelphia Bulletin
