If Dr. Terry and his codiscoverers have not been carried away by finding forgotten but really great music where they had been expecting to unearth only ordinary compositions, music will have a parallel to literature as respects the fickleness of fame in passing by a great genius who seems to have been even more careless of his fame than Shakespeare. In the meantime the general public as well as musicians must wait with what patience they can for the proofs of such claims as have been put forth as to this newly discovered Shakespeare of music.

A man with only a quarter was in the act of throwing it into the bay when we plead with him to give it to us, which he did and then we set out to find something to spend the quarter for, but was not successful and so we threw it for him.

The colored voters of the state are requested to register and vote and be able to give the Democrats of the South a bad black eye. The colored vote of many of the states of the North, heretofore doubtful Republican states, have votes enough to keep each of them solidly Republican, which they should do, until the Democrats in the South give the colored vote of that section a square deal.
