E. H. WELLS & CO., Publishers. Every afternoon except Sunday. Telephone Pike 150.

DAY OF JUBILEE.

There will be a grand jubilee in Seattle when the Washington volunteers come sailing home. As fighters in the Philippines they have made themselves world famous. Over three hundred of these men are citizens of Seattle.

It will soon be time to begin preparations for the event. The Star proposes that a public subscription should be taken up to defray the expenses of the jubilee.

FACTS ABOUT THE STAR.

The Star has the news. Yesterday this paper contained the exclusive announcement that the Philippine had decided to sue for peace.

For the benefit of many new readers of the paper, it may be stated that the Star takes the Scripps-McLure press service, which is fast becoming noted throughout the country as the very best in existence.

Several years ago there were two press associations in the United States controlled by the morning newspapers—the United Press and the Associated Press.

All morning papers were barred, and the new press association found itself on the high road to success before it was two months old.

The service is a nearly complete anything can be. Condensation is one of the features of the service. Facts are furnished without an unnecessary padding of words.

Scripps-McLure telegraphic service, is well satisfied with its bargain. There is a pleasing certainty of getting the news when anything occurs.

Does your next-door neighbor take the Star? If not, will you kindly hand him this copy.

FATE OF AGUINALDO.

What shall be done with Aguinaldo? That seems to be the question of the hour. During the negotiations for peace which are about to begin, the dictator of the Philippines will no doubt make certain stipulations concerning himself.
