

THE SEATTLE STAR
 E. H. WELLS & CO., PUBLISHERS.
 Every afternoon except Sunday.
 E. H. WELLS, Editor. E. F. CHASE, Business Manager.
 One cent per copy; six cents per week; twenty-five cents for month delivered by carrier, always in advance. No free copies.
 Telephone Pike 150.
 Offices No. 1107 - Third Avenue
 Entered at the postoffice at Seattle, Washington, as second-class matter.

Dr. Green, of the North Vernon board of health notified Dr. L. H. Hill here, and steps were taken to prevent their stopping in the city. Dr. Hill met them as they were entering the town and notified them that they could not remain here, but must return at once to North Vernon. They insisted on getting married before returning to their home, and finally the physician consented to permit them to stand in their buggy while the Rev. Mr. Clevenger stood some distance away and pronounced them man and wife. Dr. Hill saw them safely out of the city.

Corps on the Pilot.
 NEENAH, Wis., April 29.—When a passenger train on the Wisconsin Central railway arrived in this city about daylight this morning the lifeless body of Theodore Barreau, of West Menasha, was found on the front end of the engine, sitting erect and covered by the upper part of a carriage and the robe.
 He was driving home and his rig was struck by a train, the train crew being ignorant of the accident.

MORE TROUBLE OVER HONORS

Credit for Capture of Iloilo Is Disputed.

WASHINGTON, April 29.—A row has broken out between the army and navy departments.
 Capt. Wilde, U. S. N., has protested against the promotion of Colonel Miller to the brigadier generalship, made on the alleged ground that Col. Miller captured Iloilo. The astonishing assertion of Capt. Wilde and friends is that Col. Miller had nothing to do with the taking of the Philippine stronghold. Wilde's own naval forces, under his personal command, are credited with this feat. The most important feature of the statement is to the effect that Admiral Dewey indorses them. The war and navy departments will take cognizance of Capt. Wilde's charges.

STATE NEWS.

Walla Walla has a new cornet band.
 Davenport is having a building boom.
 Scarlet fever has broken out in Davenport.
 The W. C. T. U. of Cheney is being reorganized.

Cattle herds around Garfield are reported in good condition.
 Robbers drugged Julius Miller in Spokane and robbed him of \$10.

The Deming prospector has changed hands. Victor T. Cole is now its editor.
 August Smith committed suicide at Walla Walla after a protracted spree.

A savings bank system is to be introduced in the public schools at Everett.
 Jacob Myer, an insane man of Mount Vernon, has been sent to St. Helens.

Five farm buildings were destroyed in Whatcom county during the past week.
 A coyote round up near Walla Walla Sunday resulted in the killing of two animals.

The Spokane Retail Grocers' association has given its endorsement to the pure food law.
 John Kerly, formerly a newspaper man of eastern Washington, died recently in Denver.

Hobos are troubling Mount Vernon, and the town marshal is kept busy looking after them.
 A telegraph office has been established at Marcus, on the Columbia river, near the Boundary line.

Both Anacortes and Fairhaven are claiming the big fish cannery that is to be built this summer.
 California robbers are said to have ruined fields of young peas in Whatcom county by pulling up the shoots.

The Walla Walla Statesman is responsible for the statement that strawberries are getting ripe in that section.
 Clinton Baldwin, postmaster and merchant at Little Rock, in Thurston county, died Wednesday, aged thirty-five years.

A new supply of toughs in Wallula are making it hot about the O. R. & N. depot. Several passengers have been held up during the past few days.
 Floods are threatened on the upper Columbia, and the people there fear high water similar to that of 1894, when thousands of dollars worth of property were destroyed.

Wheelmen of Snohomish county are tiring of building a bicycle path from Snohomish to Monroe. Several hundred dollars have been subscribed toward the project.
 We have a few loafer Indians near town. It is a strange thing that Uncle Sam provides a place for these people, and then lets them prowl about small towns, where they get whisky at will. If reservation agents were fit for the positions they hold, it might give a different complexion to the case.—Pasco News-Recorder.

Instructions have been issued from the Treasury department directing that the revenue cutters Bear, Rush and Corwin, now at San Francisco, proceed to Seattle and await instructions prior to departing on a cruise in Alaskan waters. The McCulloch, which is now at Mare Island, will not return to Manila as was previously understood, but will sail for Seattle on June 1. At this port she will take on the Fairbank's commission, which is to determine the boundary line between Alaska and British Columbia.
 The cutter Grant is now being overhauled on the Queen Esther harbor dry dock in preparation for the northern cruise.

TELEGRAMS TO VOLUNTEERS

Advising Them to Leave the U. S. Service.

Furnish the Topic for a Cabinet Discussion—Described as Sedition, Not Treason.

WASHINGTON, April 29.—There is no present intention that the administration will prosecute or punish any individual for treason or sedition.
 Gen. Otis cabled that he had intercepted some telegrams which he regarded as conducive to inciting mutiny and sedition among the volunteers.
 This was casually discussed at the last cabinet meeting. After exchanging views it was decided that Gen. Otis be requested to forward all the communications to the President. The idea was not advanced that this should form a basis for prosecution, but the printing of these telegrams would offset the advantage it was thought the senders intended to obtain. But it was subsequently admitted that this very publicity might be construed as an effort to curb free speech and action, thus destroying any beneficial results.
 There is little probability that any steps will be taken when the information is in the possession of General Otis is received. Many of the telegrams can only be construed as advisory. One of them is to the Tenth Pennsylvania volunteers and is unsigned. It simply contains the three words:
 "Don't enlist boys."
 The word "treason" having been used to describe the cabinet discussion of the cablegram from General Otis afforded all the participants an opportunity to emphatically declare that this particular theme had not been under discussion. The designation under which the subject was discussed was sedition.
 The law on sedition reads as follows:
 "Every person who incites, has on foot, assists or engages in any rebellion or insurrection against the authority of the United States, or the laws thereof, shall be punished by imprisonment not more than ten years, or by a fine of not more than \$5,000, or by both of such punishments; and shall, moreover, be incapable of holding any office under the United States."

Killed by a Train.
 PHILADELPHIA, April 29.—A shocking accident caused the death of Harry Backman, this afternoon, after an hour of terrible suffering. He was crossing the Reading railway tracks at Front and Green streets when he was struck by a freight train and thrown under the wheels. The train was stopped as soon as possible, but the man's body could not be found, although there were spots of blood along the track. Finally a moan was heard, and Backman was discovered, strapped across the axle of a freight car. He was removed, and an examination showed that he had suffered four fractures and a crushed hand and foot, besides internal injuries.

Children Want to Marry
 WASHINGTON, Ind., April 29.—Oretta Lovell, the adopted daughter of a well-known farmer, and John Merlett, son of another farmer, but were refused on account of their youth. The girl is thirteen and the would-be bridegroom seventeen. Accompanied by a constable, they started to drive to Vincennes, and when necessary, they will go to Illinois. The parents and guardians are willing for the children to marry.

Oil and Gas Struck.
 SIDNEY, O., April 29.—A gusher oil and gas well was struck in Van Buren township last night. The gas and oil came up with such force and so suddenly that it was ignited before the fire in the boiler could be put out. The derrick, tools and thousands of gallons of oil were consumed. William Sherman, one of the men, narrowly escaped with his life. He was seriously burned. The well opens up a new field being located further south than any new wells.

FRONT YARD CLOTHES-LINES

A Fashion That Is Going Out in Washington.

WASHINGTON, April 29.—The city will not allow even a member of the House of Representatives to utilize his front yard for the purpose of drying freshly washed linen. When Representative Jos. B. Showalter, of Pennsylvania, came to Congress, he rented a home for himself and family at 1616 East Capitol street, a rather fashionable section of the city. The first Monday morning Mr. Showalter occupied the house and the neighbors looked on in surprise, mortification and amazement at the innovation to which the good people of that section were not accustomed, but after a few weeks

some of the neighbors began to bemoan that the plan of utilizing front yards as a proper place to display family linen was perhaps a new fashion, and they forthwith proceeded to copy after the Pennsylvania member.
 It was not long before the front yards of a dozen or more Capitol hill families were bedecked with light, airy and suggestive garments of every character and description, which had heretofore been accustomed to be put out to dry in the rear yard. It soon began to have the appearance of a colony of washerwomen, and the more circumspect and prudish neighbors entered a strong and vigorous protest at the desecration of the popular street. Efforts to have a stop put to the custom by kindly and neighborly requests availed nothing, and as a last resort the objectors appealed to the district commissioners. The city fathers have carefully and prayerfully considered the protests, with the result that the police department has just been notified that the congressman and his neighbors must be required to cease drying clothes in front yards.
 Mr. Showalter's clothes-drying troubles recall the fact that the Chancellor to the German Legation got into the same predicament a few years ago. He then lived in a fashionable section, and it was the custom of his servants to place a week's wash in the front yard to dry. This shocked the finer sensibilities of his neighbors, and aristocratic neighbors and the district commissioners were called upon to put a stop to the so-called outrage. The Chancellor protested to the commissioners that he had the right to use his front yard for the purpose of drying clothes or any other purpose, so long as no one was personally injured. He further claimed that the order to cease drying clothes at the place named was against laws and usages accorded to members of foreign legation. The protest of the Chancellor availed not, and he was forced to have his wash strung out in his rear yard.

TO BUILD FURNACES

The Cambria Company Is Preparing to Do So.

JOHNSTOWN, Pa., April 29.—The Cambria Iron company has decided on the erection in this city of the largest furnace ever built in the United States. In short, it is authoritatively announced that two of them will be larger than any heretofore constructed, while the third will not be much smaller, but will be utilized in a different class of work.
 Reports from the headquarters of the company in Philadelphia, which are without question of a reliable nature, are to the effect that the decision of the company to erect the additional plants was arrived at a few days ago, and that the heads of the departments here have been notified that work will begin during the coming summer. The capacity

of each of the two new plants will be 500 tons a day, while that of the third furnace will probably be 100 tons.
 Johnstown people will hardly realize just how near the city came to losing the prospective plants. When the matter was first considered the intention was to locate the new furnaces at the lakes, and this would probably have been done had not influential Johnstown people secured from the Pennsylvania Railroad company a concession on freight rates which enables the Cambria company to compete with the large mills in the neighborhood of Pittsburgh.

TO JAIL IN BLANKETS

Toledo Woman Fought Officials Enroute to Cell.

TOLEDO, O., April 29.—Constable Harry Cherry today served the warrant charging Marie Cicotte Wilson alias Mrs. Burroughs, with perjury, but found it necessary to break his way into her home, since in half a dozen newspaper men as deputies, and carry the woman, clad only in a dressing gown, in blankets to the police station.
 Mrs. Burroughs and Mrs. Wilson a few days ago brought suit against the city of Toledo and others asking damages to the amount of \$50,000 for alleged mistreatment. The warrant charging Mrs. Burroughs with perjury, alleged to have been committed at a trial in which she was suing prominent citizens and which was decided against her, was not served before, because she was in hiding.
 Constable Cherry was refused admittance at a trial in which she was suing prominent citizens and which was decided against her, was not served before, because she was in hiding. She related arrest and fought like a demon until placed in a cell.

Held by the Machine.

JAMESTOWN, April 29.—Miss Agnes Polder met with a peculiar accident yesterday. While she was operating a sewing machine the needle penetrated her finger. It bent as it struck the bone and apparently locked the machine.
 She was unable to stop it and it was more than an hour before her calls for assistance attracted attention. When assistance arrived it was impossible to turn the machine so as to release the prisoner. A machinist and a physician were called, but the machine had to be taken apart before the unfortunate victim of the accident could be released.

ANOTHER STARTLING DEMONSTRATION
MAYO THE WONDER WORKER

Removes a Tape Worm Over Sixty Feet in Length in Less Than Three Hours.

Mrs. A. W. Ehrick, residing at 1528 Eleventh avenue, attended Mayo's Free Lecture for Ladies Only at Armory Hall Friday, and was so favorably impressed with what she heard, that she decided to take advantage of MAYO'S FREE CONSULTATION at the Occidental Hotel, and call on her on Monday. She was given one dose of the Mayo Remedy at 5:15 p. m., and at 8 o'clock Mrs. Ehrick returned from her home with a monster Parasite over 60 feet in length.
 Mrs. Ehrick will be pleased to tell her experience to any one who may wish to call and see her.

Another link in the chain of proof. Non-believers are now forced to admit that the MAYO REMEDIES are all that is claimed for them. Cripples are made to walk before a committee of your most prominent citizens. Every demonstration has been made in public, and there is no chance, no need for deception. QUACK DOCTORS carry a supply of Tape Worms purchased in the East. These worms are "placed" at the proper time, and the patient is led to believe that he has been relieved. In introducing the MAYO REMEDIES, there is no necessity for FRAUD. These remedies have stood test of years. They have been used and applied right in your midst, day after day, and the suffering public are at last forced to admit that MAYO and his REMEDIES are justly named the WONDERS.

MAYO

will give another FREE LECTURE at ARMORY HALL TONIGHT, and the testimony of your most prominent citizens will be given in person. Read of the miracles performed Thursday night. Call on the people who were once afflicted, and be convinced that the Mayo Remedies not only effect a cure, but a permanent cure. Attend the Lecture tonight and see for yourself.
 Mr. Angus McKerrall, residing at No. 1107 Broadway, a gentleman sixty-five years of age, and for years a sufferer from Rheumatism.
 He came upon the stage in a pitiable condition, and people were heard to say: "He will never cure him." Mr. McKerrall could not raise his arm above his head without suffering the most excruciating pain. The attendants were compelled to remove his clothing, and it was almost impossible for him to lie on his side long enough to be treated. In thirty minutes Mr. McKerrall was surprised to find himself able to wave his arms above his head, the full use of his limbs having been restored. He dressed himself without any assistance whatever a test he had been unable to accomplish for many months past, and went home the happiest man in Seattle.
 Call on him. He will be pleased to verify the above.
 Mr. Jacob Kuhn of No. 41 Eastlake avenue, has for a long time suffered with Rheumatism so much that he could not bend his right leg at all. The knee was terribly swollen and he had great pain to endure. In a few moments after he had been treated, he said he could feel that he was being relieved, and in a quarter of an hour he was asked to stand up and bend his leg. He did so, and remarked that it was the first time in many months he had done so. After his return to the stage he was asked to run up and down the hall. He did so at a rate that surprised many a younger man, and caused his friends who were present to wonder if it were true. Mr. Kuhn is willing to run a footrace with any man who will call at his residence to see him.
 Mr. C. W. Brown lives in South Park, on Grand street, just the other side of the bridge. His shoulder was in a frightful condition, being so sore and swollen that he could hardly bear to have it touched. His was the worst case which was offered for free treatment, and considerable time was required to show an improvement, but Mr. Brown left the hall showing a wonderful change. One more application of the Electric Fluid will make him a new man.

Men Only---Mysteries of Sex Explained.

At the request of a great many men, MAYO has kindly consented to repeat his LECTURE FOR MEN ONLY at ARMORY HALL SUNDAY AFTERNOON, AT 2 O'CLOCK, and no man who desires perfect health should miss this opportunity to hear and learn. It is the duty of every Father and every Son to hear this LECTURE. With the aid of special charts and manikins, Mayo will make this lecture as instructive and interesting as possible, and it should be appreciated. Every Old Man. Every Middle-Aged Man. Every Young Man will have cause to thank the Doctors for the plain, unvarnished facts which are to be introduced. This is the chance of a lifetime, and should not be missed.
 For the benefit of those who were unable to take advantage of MAYO'S FREE CONSULTATION, the offices at the OCCIDENTAL HOTEL will remain open until 9 O'CLOCK SUNDAY NIGHT, and every sufferer, no matter what your ailment may be, should not fail to consult the DOCTORS who have performed such miracles.
 REMEMBER, the FREE CONSULTATION will continue for only 10 days longer, and no matter how discouraged you may be, you should not fail to take advantage of this unusual opportunity.

CHOSE DEATH TO SUFFERING

The Tragic Suicide of H. Garcelon at Alameda.

ALAMEDA, April 29.—Because he fancied he would have to undergo a surgical operation and dreaded the ordeal, Horace Garcelon, formerly a bookkeeper in the employ of Levi Strauss and company, blew out his brains yesterday afternoon with a 44-caliber Colt's revolver of ancient pattern.
 Garcelon had been living with his widowed mother at 1553 Broadway avenue. He had long complained of kidney trouble and about three months ago gave up his position on account of his ailment. Drs. Stafford and Keys, who had been attending him, assured him that his sickness was not serious, and he insisted that he would die unless an operation was performed, which the physicians declared was quite unnecessary.
 Garcelon's mother left him in the house about 3 o'clock yesterday afternoon while she went to visit a neighbor. She returned at 4 o'clock to find the house filled with smoke. She detected the smell of burned powder and at once imagined the worst. Hastening to Joseph Martello, a neighbor, she rushed to the house and found Garcelon lying on his bed with the clothing saturated with blood. There was a gaping wound in the head which told plainly of the cause of death. Three chambers of the revolver were empty, but only one of the shots fired took effect. One went through the side of the building and another cut a wire holding a picture, dropping it on the bed beside the suicide.

Will Go to Alaska.

PHILADELPHIA, April 29.—Rev. James Wollaston Kirk, who for seventeen years has been pastor of the Leverington Avenue Presbyterian church, Roxborough, has requested his congregation to join with him in asking the presbytery, which meets on Tuesday in Germantown, to have his pastoral relation with the church dissolved. Dr. Kirk desires to accept an appointment from the Board of Home Missions, to go to Eagle City, on the Yukon river, Alaska, 100 miles beyond Dawson City, to inaugurate mission work in that district. Mrs. Kirk will accompany her husband on the trip.

Cherry Sisters Defeated

DES MOINES, Iowa, April 29.—The three Cherry sisters, who give a show that is so bad that it amounts to a good thing, have been trying to recover large sums of money from the Des Moines Leader because the paper reprinted an article from the Odeobol Chronicle, a little country paper, making fun of their show.
 Judge Charles A. Bishop, before whom the case was tried, decided against the elder sister, Addie, whose case was tried first, on the

PURSING MAX WEST

A Posse of Citizens From Xenia is After Him.

XENIA, Ill., April 29.—Sheriff Holiday, with a posse of citizens, passed through this place this morning in pursuit of Max West, who is said to have fled with Miss Hattie Krogman, a bright young girl of Altamont, Ill.
 West went to Altamont and married a respectable lady, with whom he lived until recently. During this time Miss Krogman was employed as a domestic in the family. The girl went to Beecher City, and about ten days ago West appeared at the same place, telling her, it is said, that her father had returned from Arkansas and he had come after her. That he would die unless an operation was performed, which the physicians declared was quite unnecessary.
 "The powers that are opposed to that policy and raised objections, so concluded to get out."

Charm Didn't Work.

NEW YORK, April 29.—Miss Dora England, 24, committed suicide yesterday in Newark, N. J. She had a quarrel with her sweetheart and developed melancholia. The services of a "divine healer" were secured. The girl last Tuesday attempted to hurl herself from a balcony. Yesterday she swallowed Paris green and the "healer" was again sent for. The prayers were unsuccessful and the girl was taken to the Newark city hospital, where she died.

Brown to Atoms.

BRADFORD, Pa., April 29.—Wm. D. Burdick, one of the oldest torpedo men in the oil country, was blown to atoms at one o'clock this afternoon. Mr. Burdick was at work at his magazine in Rutherford Hollow, when the explosion occurred. A boiler house and two sheds near by were wrecked by the explosion.
 An "Old Maid's Convention" was held at Elkhart, Ind., recently.

Pulpit to Poultry Farm.

SHIPPENSBURG, Pa., April 29.—The announcement that Rev. H. H. Hibbs had resigned as pastor of the First Presbyterian Church, of Alexandria, N. J., to engage in the poultry business, has created surprise here. Mr. Hibbsman was formerly pastor of the Reform church at Newburg, this county, which he left to go into the Presbyterian church.
 Denver has a deathrate at 848, Los Angeles of 1316, San Francisco of 17.

Have You Noticed

Those Dapper Looking Ultra Swell Built Business Suits About Town? Every One of Them From Here Not Much Money Either \$12.50, \$15.00, \$16.50

Serges, Worsteds, Cheviots and novel homespun effects, an up-to-date cut to them, combined with durable workmanship, makes them unquestionable values. Let's fit one to you the very next time you're in need of a Business Suit.
 "Best and Biggest" in the State

 800-802 First Ave., Cor. Columbia.

DYNAMITE ON RAILS

Two Attempts to Wreck Burlington Trains.

ST. JOSEPH, Mo., April 29.—Two attempts were today made to destroy a Burlington train with dynamite near nodaway, a small station between St. Joseph and the Iowa line. Sticks of dynamite were laid on the track and the Denver flyer was given a shock at 4 o'clock this morning that broke all the windows in the coaches. The Omaha express had a similar shock ten minutes after. Burlington officials went to nodaway on a special train three hours later. They express the opinion that the work was done by vandals. There is nothing to indicate that robbery was the motive.

Looks Like Murder.

WATERLOO, Iowa, April 29.—The body of Mrs. Henry Lemper was found today in Cedar river almost in the heart of the city. The woman disappeared about six weeks ago. The body was in plain sight from a thoroughfare over which hundreds of persons pass daily. It was supposed to be a bundle of old rags and small boys amused themselves for days throwing stones at it as a target. The body was thus dislodged. The police believe the woman was murdered.

Body Found.

WHEELING, W. Va., April 29.—The body of a man, evidently in the water for some time, was pulled ashore near Moundsville today. He was well dressed and apparently 60 years old and 5 feet 8 inches in height. In his clothes was found a silver watch, \$40, keys and other trinkets, but nothing by which he could be identified. It is believed he is the man lost off the steamer Virginia some two months ago.

Eye Goughed Out.

ALLENTOWN, Pa., April 29.—C. Weisbach was found unconscious today near the outskirts of the city, where he was waylaid by tramps, and last night was beaten into insensibility, robbed and thrown into the bushes. He was removed to the poorhouse, where he lies in a critical condition. When the doctor raised his eyelids one of Weisbach's eyes rolled out on his cheek. There is no clue to his assailants.

Avalanche of Gravel.

CARLTON, Minn., April 29.—At the East Minnesota railway gravel pit, two miles east of here, last night two men were killed by a cascade. Seven others were buried for a time under a hundred feet of gravel bank.

LOVE WILL FIND A WAY

Even a Smallpox Quarantine Did Not Keep Them Apart.

SEYMOUR, Ind., April 29.—Frank Robinson and Miss Caroline Musser, of North Vernon, have demonstrated that even smallpox cannot cope with love.
 The company had sent out wedding invitations to be married at North Vernon at 8:30 o'clock last night. The smallpox made its appearance at North Vernon, and it is reported that the bride's father has the disease. This prevented the young couple from marrying as announced. Thursday morning the groom drove to the residence and stole his intended bride from the house. They started for this city, where the groom's mother resides.
