

COMBINE IN SILKS

Another Trust With Big Capital.

BORN AS USUAL IN NEW JERSEY

Private and Confidential Circulars Issued by the Promoters of the Scheme.

NEW YORK, May 3.—Circulars marked "Private and confidential" have been issued by the promoters of a scheme for a combination of all the concerns in this country engaged in the manufacture of silk ribbon and broad silk goods.

Among the largest manufacturers who have refused are the Cheney Brothers, of Connecticut, and the Schwarzbach, Huber company, who have mills at Union Hill, N. J., and in Pennsylvania.

It is proposed to acquire substantially all the concerns engaged in the silk industry during the last 20 years has been phenomenal. From manufacturing about 20 per cent. of the goods consumed in the United States twenty years ago, the industry has now grown to the foregoing figures, which represents 70 per cent. of the goods consumed in America.

The circular sets forth that under the combination economies can be brought about that will result in an increased profit without affecting the wages of labor or the selling price of manufactured goods.

HE CAPTURED THE SWINDLER

How a Dawson Man Evened Up Accounts.

Michael Eschwege, a swindler, is in jail in Dawson. On several occasions he has swindled the miners of that place out of many thousands of dollars. It is claimed that he is an expert gambler and bunco steerer and the mention of his name is heard with terror among the miners.

When captured Eschwege was with a companion, Bert Solomon. At the command to halt they both turned sharply, only to gaze into the muzzles of two six-shooters. Their hands promptly went up, and they submitted to being taken prisoners.

On reaching Eagle City three days later a mob of the farmers brought the place congregated about the prisoner and his captor. They declared that Eschwege should never be taken across the border line and delivered to the Canadian Mounted Police.

The authorities of Eagle City however decided that they are running their place, and steps were taken to preserve order. The tough element, however, increased, and were only quieted by the agreement that Eschwege should be tried by a committee selected from among the citizens. This was done, with the result that Eschwege was found guilty and it was agreed to allow McDougall to proceed to Dawson with his prisoner.
