The news from Manila today indicates that Aguinaldo is a great general. Children of the Late Mrs. Stevens Draw Lots.
HOBOKEN, N. J., May 5.—The five children of the late Mrs. Martha B. Stevens decided that legal machinery was not needed to settle their claims upon the estate, which is valued at close upon \$2,000,000. Not one of the would sell his or her share at any price, because of the many precious heirlooms included. So they gathered today at Castle Point, for generations the family homestead, and drew lots for their family shares of the riches left by their father, Commodore Stevens, the founder of Stevens Institute. Besides the cash, securities and real estate there are the Homestead, the old family mansion, many treasures of art and family heirlooms upon which no price can be set. The gallery of family portraits, the rich tapestries and brocades, the china, silver, statuary, bric-a-brac, colonial and modern furniture, paintings, engravings and the thousand and one articles of value were divided into six lots—each for the five surviving children and the sixth for the son and daughter of John Stevens, the elder brother, who died a few years ago.
