out to every one. The old warmth and vigor were gone and in their place there was that which might be described as frigidity.

But this was not all the correspondent noted as missing. There was that radiant smile and happy countenance which one used to see when brought face to face with Gen. Wheeler.

There was pathos in his voice and sorrow in his heart. It was clearly apparent that "a heap of trouble was on de ole man's mind."

At this juncture a sweet-faced little woman in black came to the entrance of the lobby, scanning the numerous faces and hurried over to where Gen. Wheeler and the correspondent were seated.

She halted in front of the general, who was still seated, with his head bent forward, and in a soft, child-like voice, addressed the little man, saying: "Father, it is train time."
