

REPORT ON PORTO RICO

Will Deal With Its Resources.

COMMISSION READY WITH FACTS

To Be Presented to President McKinley Within a Few Days For His Consideration.

WASHINGTON, D. C., May 19.—The Insular Commission, appointed by the President to visit Porto Rico for investigation and report upon the agricultural conditions and resources of the island, is engaged in the preparation of a report, which it is expected will be ready for the President upon his return from Virginia. Speaking of the resources of Porto Rico, Gen. Kennedy, of the commission, said he considered the tracts of land lying in the uplands in the interior capable of producing the best coffee in the world. He made this declaration with a thorough knowledge of the value and reputation of the coffee of Arabia and Java. There remains much to be accomplished in the way of developing the coffee industry of Porto Rico, the principal obstacle being the lack of transportation facilities, there being only a few disjointed links of railroad along the coast. No line of railroad enters the coffee district, or those parts of the island which are capable of coffee production. Nor are there any wagon roads in the interior of the island—that is, roads as they exist in the United States. Coffee cannot be profitably grown without intelligence and care. Like most species of vegetation, it has its inside enemies, principal among which is the leaf eating insect known to naturalists as scuba. This insect has not as yet manifested itself as a disturbing factor in Porto Rico, but the experience of planters in other coffee producing countries induces the belief that the coffee groves of Porto Rico will not be always exempt from this pest.

The sugar lands in Porto Rico are most expensive, good land being at about \$300 per acre. It is said that sugar cane once planted will produce an annual crop for from eight to ten years, with comparative little labor. Among the native groves the juice is converted into "duice." Many of the natives have their own plantations by the evaporating pan, which is similar to, but more rapid than, the open kettle process practiced in the old time.

HAS GIVEN UP KEELY MOTOR

BOSTON, Mass., May 19.—Burnet Kinraide, the Jamaica Plain inventor, has abandoned all work on the Keely motor and will ship back to the Keely Motor company all the machines and manuscripts left by the Philadelphia promoter and inventor. Since the exposure of the duplicity of the inventor's laboratory Mr. Kinraide has done work on the machines. He has been confident of the part of the men who made the statement in public. It brought him the most unpleasant kind of notoriety and soon after he made up his mind to have nothing further to do with the motor machinery. When asked if he believed that the motor was a fraud, he replied: "I have by no means arrived at any such conclusion, but, under the circumstances, I have determined to make no further investigations."

Delaware's Coffin Trust.

DOVER, Del., May 19.—The first Coffin Trust was formed here, when the secretary of state granted a charter to the Stein Casket company of Delaware, which, however, is a New York concern. The new company estimates its capital stock at \$100,000, and it engages in the manufacture and sale of coffins and undertakers' supplies. A local concern was chartered this afternoon to engage in the general insurance business throughout Delaware. It is the Industrial Accident Insurance Company of America, with a capital stock of \$50,000.

THE LAFAYETTE DOLLAR DESIGN

WASHINGTON, D. C., May 19.—Mr. Roberts, director of the mint, has decided upon the design for the Lafayette silver dollar, to be coined in aid of the Lafayette monument association, which has been organized to erect a monument to Lafayette in Paris next year. Congress authorized the coinage of 50,000 of these dollars, and it is expected that they will be sold at a premium and add very materially to the fund which has been donated by the school children of this country. It was hoped that the subscriptions would amount to a large sum, but only \$40,000 has so far been contributed, and the 50,000 souvenir dollars will have to be sold at a big premium to realize the \$250,000 desired. On one side of the dollar will be heads of Washington and Lafayette and on the other a representation of the monument to be erected in the city of Paris. The proposal to have the Lafayette prayer or some passage from his address inscribed has been abandoned, and the dollar will have no words except the customary "United States of America," and something to indicate that it belongs to a special issue. Some difficulty has arisen over the date. The monument commission

AMUSEMENT BULLETIN.

THIRD AVENUE THEATER—The Rays in "A Hot Old Time." desires to have the coins turned over to them as soon as possible, and also to have them bear the date of 1900, which the act of congress says they shall bear. It is against the practice of the mint, however, to anticipate dates in this way, and there is a question also whether or not it is a violation of law. Mr. Roberts has not yet decided the matter. He said that the dollar will not be coined before fall, and probably not until early next year.

Court Records Destroyed

NASHVILLE, Tenn., May 19.—Early this morning the Putnam county court house at Cookeville, was destroyed this morning by fire of incendiary origin. Nearly all the county records were lost. There were a number of murder cases on the docket, and it is thought that somebody interested in one of the cases is responsible for the fire. Numerous suits involving titles are also pending and many complications will result from the fire.

Invitation Recalled

MANHATTAN, Kan., May 19.—The board of regents of the state agricultural college, which is now composed of five Republicans and two Populists, two Republicans having been seated last Friday in place of Populists removed by Governor Stanley, has adopted a resolution annulling the action of President Will in inviting Col. William Jennings Bryan to deliver the commencement oration next month.

THE YOUNGEST GLOBE TROTTER

BATAVIA, O., May 19.—Among other honors to which Batavia lays claim is that of having the infant child of Mr. and Mrs. P. M. Ashburn as a resident. The child has just completed a trip around the world. It is a red-faced infant, aged 9 months. Dr. Ashburn was stationed at Fort Thomas, Ky., last winter, and in January received orders to leave for Manila. He with his wife and child, left for New York. On January 19 they, with Major General Lawton, General Hall and 1900 soldiers, sailed on the steamer Grant for Manila. After they arrived at Manila it was not thought advisable, in view of the situation at Manila, for women to go ashore. Mrs. Ashburn remained on board with her child until it was found impossible to let her land, and then decided to return home. She and her son arrived at San Francisco on the steamer Grant last Sunday and they will arrive at their home in Batavia tomorrow night. The child was aboard ship 102 days and holds the record for trips around the world by children under the age of ten months.

Police After Operator.

TAMPICO, Mex., May 19.—Word has reached here of a wreck on the Mexican Central railway near Las Palmas. A fireman and two passengers were killed. The engineer was injured. The train dispatcher, whose orders caused the collision, has fled toward the United States border and is being pursued by the rural police.

WIRE TAPS.

Gen. W. W. Kirkland, father of Odette Tyler, the actress, has been stricken with paralysis and is now at his daughter's home at Sheepshead, N. Y. The general's right side is paralyzed, and he is unable to speak.

Russell Sage, and the board of directors of the West Presbyterian church at New York, was beaten last night in their attempt to oust the pastor, Rev. A. M. Evans. The congregation sustained the pastor.

Ex-sheriff Combs, of Leth county, Ky., shot two young ladies, Mary and Jennie Gibson, at Middleboro, Ky., last night, mistaking them for two men he had quarreled with. Combs has given himself up.

Senator Peffer, one of the founders of the Populist party, now claims to be a Republican, as his only question, that of the money question, seems settled and the Populist party has been swallowed up by the Democratic party.

A strike of coal has been made at Republic in the Golden Lion group. The top floor of Newcomb Bros' wall paper building was destroyed by fire yesterday. The loss, mostly caused by water to the stock on the lower floors, is estimated at \$40,000.

George Hazard, the Democratic politician, was arrested yesterday at Tacoma for violating the civil service law by collecting funds for the Indian reservations in the 1896 campaign. Judge Hanford released him to appear in Montana in June, where the indictment was issued from.

The Pacific Coast delegation of hard-worked jobbers which meets at St. Paul Monday to ask the Great Northern and Northern Pacific to cancel their hardware tariff to the coast, will be opposed by the jobbers of Duluth, and a strong fight is expected.

A building permit has been issued to Jesse A. James for alterations at 526 Western avenue to cost \$350.

A certificate of incorporation of the Albert Edward Mining company has been with the county auditor. The trustees who will manage the company until the 15th of November, 1899, are: M. J. Murphy, J. H. Wilkinson, M. R. Rex, J. L. B. Higgin, George Spencer and J. S. Carrick. The capital stock is \$500,000.

The employees of the city water department are sending out cards today notifying those using city water, of the last reading of their meters.

John Fitzgerald and John Sheehan, two of the alleged bunco men who were arrested in the roundup made Wednesday night, were released from jail yesterday on \$500 bonds each.

Claim No. 10, owned by John Erickson on Eldorado creek, has been sold to a syndicate of Swedish cap-

TO REPORT ON CANAL

Nicaragua Commission Is Ready.

ESTIMATES COST AT \$125,000,000

President McKinley Will Be Officially Notified When He Arrives at Washington.

WASHINGTON, D. C., May 19.—It is stated here that the differences existing between the Nicaraguan canal commissioners have been settled, and that the long-delayed report will go to President McKinley upon his return to Washington. A compromise affected between the commissioners has resulted in their fixing the cost of the proposed waterway at \$125,000,000. The commissioners favor the Hull route.

A Long Case Ended.

TACOMA, May 19.—Tomorrow Judge Williamson will decide the title to above five acres in the "nigger tract" on Eleventh street beyond K street.

This is the last of the litigation now pending over this famous tract, over which more money has already been spent in court fees and costs and lawyers' fees than would buy 120 acres in place of the 60 acres involved in the suits.

The present case is between the county, which claims the land by escheat, and Judge Stallcup and others, who claim the land by purchase. On these five acres, now in suit, a record has been made which embraces over 1000 pages of testimony and pleadings.

COMPLETE COLLAPSE

The French Carriers Strike Enedd

AND THE MAIL SERVICE RESUMED

Ringleaders of Ex-Strikers Are Discharged—Others Doing Double Duty.

PARIS, May 19.—The striking letter-carriers are apparently lenient and have gone back to work. The under secretary for posts announces that no concessions will be made to the strikers, and that 25 of their ringleaders will be discharged. The ex-strikers are doing double duty today, and the service will probably be caught up with this afternoon.

SEATTLE INKLINGS.

Jack Anderson, who has been confined in the county jail for smuggling, has been sentenced in the Federal court to one year in the penitentiary and a fine of \$100 and costs.

A. W. Prater, receiver of the Merchants' National bank, has been authorized by Judge Hanford to sell to M. R. Durham, lot 19 blk 9, in the Gilman addition for \$100, and to pay J. B. Hill \$10 for commission of said sale.

The Pacific clipper line controlling the bark Mercury in the Federal court denying the allegations of Andrew Gudness, formerly second mate and carpenter of that vessel, who recently libeled her for the sum of \$500 due him for wages and injuries received while employed on the Mercury.

A petition has been filed in the city clerk's office coming from the residents of the second precinct of the second ward, to enlarge the territory of the precinct as follows: Beginning at eighteen avenue south and Yeeler way and thence running south on Eighteenth avenue to the south boundary line of the city; thence east on the south boundary line to the intersection of the south boundary and Twenty-fourth avenue south; thence north on Twenty-fourth avenue to the center of Yeeler way; thence west on the central line of Yeeler way to Eighteenth avenue south. The petition is signed by seventy voters of the precinct.

A building permit has been issued to Jesse A. James for alterations at 526 Western avenue to cost \$350.

A certificate of incorporation of the Albert Edward Mining company has been with the county auditor. The trustees who will manage the company until the 15th of November, 1899, are: M. J. Murphy, J. H. Wilkinson, M. R. Rex, J. L. B. Higgin, George Spencer and J. S. Carrick. The capital stock is \$500,000.

The employees of the city water department are sending out cards today notifying those using city water, of the last reading of their meters.

John Fitzgerald and John Sheehan, two of the alleged bunco men who were arrested in the roundup made Wednesday night, were released from jail yesterday on \$500 bonds each.

Claim No. 10, owned by John Erickson on Eldorado creek, has been sold to a syndicate of Swedish cap-

italists. Mr. Erickson is in the city on his way north, and the claim is considered very valuable, over \$500,000 having been taken out.

Deputy United States Marshal J. Stringer left yesterday for the Upper Sound, to seize the schooner Dora Blunt, recently libeled by Adolph Fredburg for wages amounting to \$25.16.

Bolton Rogers, ex-chief of police, is quite ill. He was suffering from a severe attack of grip some weeks ago, and insisted in leaving his bed before he was well, and he is suffering a relapse.

C. L. Trude, a roomer at the Great Northern lodging house, corner First avenue and Main street, attempted to take his own life last night. The weapon used by Trude was a fair-sized pocket-knife, and instead of drawing the knife across his throat he jabbed it in. Officer McDonnell was called, and finding that the man was still alive, called the patrol wagon and he was taken to Providence hospital.

Captain Francis Tuttle, heretofore commander of the revenue cutter Bear, will not take that vessel north this season. He has received orders assigning him to the command of the cutter Golden Gate, which is stationed at San Francisco. It is probable that the Bear will go north in charge of a captain sent from the east.

Lieutenant F. M. Woody, executive officer of the Bear, has been transferred to the launch Guard, which is stationed at Port Townsend.

By a resolution passed at a recent meeting of the Alaska Steamship Companies' association, none of the companies will be permitted to quote through transportation rates to Dawson or other points in the interior. It is considered by the association that rates beyond Dyea and Skagway must be quoted independently from those of the above-named places.

The members of the Arion Society of New York City are planning a summer trip, and they intend to visit Seattle. There will be 165 people in the party, all of whom are members of the famous singing society. They are merely making the trip for pleasure, and will sing in only one city on the coast, San Francisco. Ferdinand Sembits, of the Hotel Butler, has just received a copy of the itinerary of the society.

"There is no immediate prospect of the Everett and Monte Carlo road being rebuilt," said J. B. Crocker, vice-president and general manager of the road, last night at the Butler.

"There is nothing in the rumor that we are going to rebuild this year, and I would be only too glad to confirm it if there was. What gave rise to the rumor was the laying of three miles of track up the Canyon, but that was done because there is a shingle mill at the head of the Canyon that gives us some business."

Dr. Francis E. Clark, the founder of the Christian Endeavor society, will arrive in Seattle next Wednesday, as announced in the Star Tuesday.

The mass meeting will be held in the First Baptist church that night, beginning at 8 o'clock. On Thursday evening the '99 convention will give a banquet in honor of Dr. Clark at one of the leading hotels.

To Adjust Salaries. TACOMA, May 19.—The new salary ordinance was taken up last evening on public employes and salaries.

Under the new state law, making eight hours a legal day's work, some changes were found necessary, and the improvement in the times seems to call for a slight advance in salaries all along the line.

The city engineer was raised to \$1700; city clerk, \$75; with \$250 per day for assistants. Electric light line superintendent \$75 instead of \$60, which was paid while the office included the work of city electrician.

In the light and water department the chief clerk gets \$75, a raise of \$5. Lamp trimmers are slated for \$69 from October to April, and \$50 in summer.

Gold Democrat Appointed

WASHINGTON, D. C., May 19.—President McKinley is disposed to recognize the Gold Democrat in the election of the census patronage, and will bestow the first favor on an Ohio man and one of President Cleveland's appointees. Director Merriam, on the personal request of the president, is about to appoint Gen. American V. Child, a rising star in the census bureau. He will be stationed in Washington. General Rice is an old soldier when the president has long held in high esteem. He was for four years pension agent at Columbus, retiring two years ago.

THE RED CROSS STATE CONVENTION

TACOMA, May 19.—At the meeting of the Red Cross executive committee yesterday, the final details were arranged for the state convention which is to be held here on Tuesday, Wednesday and Thursday morning of next week. The convention will be held at the United States court room in the chamber of commerce building, and will be open to the public, who are cordially invited to attend.

It is expected about 20 delegates will come to Tacoma from various parts of the state. There are now 12 auxiliary organizations and each one will be represented. The officers of each of the auxiliaries and one delegate per 25 members is qualified to vote in the state assembly.

The officers of the state Red Cross are Mrs. John B. Allen of Seattle, president; Mrs. Hotch, Seattle, corresponding secretary; Miss Marie Hewitt, of Tacoma, recording secretary, and Miss Radie Maynard, of Tacoma, treasurer. All the delegates will be received at the train and escorted to the headquarters on the fourth floor of the chamber of commerce building. The rooms will be kept open at all times for the use of the delegates. The reception committee consists of Mrs. H. M. Thomas, chairman; Mrs. Addison G. Foster, Mrs. E. J. Addison and Miss Charles McCutcheon. The chairman of the entertainment committee is Mrs. W. A. Bull. Mrs. C. O. Bates will act as chairman of the music committee.

FLEET FOR THE YUKON

Will Start North Before June 1.

EMPIRE LINE SENDS SIX BOATS

Quickstep and Several Other "Hold Overs" Leave Soon From This Port.

About the latter part of the month the dangerous and uncertain work of towing to St. Michael the steamers and other craft designed for service on the Yukon will begin. From the present indications the number of vessels of this class to go north from Seattle will not be as great as of last year. Of these, the first to make the venture will be the four steel barges of the Empire Transportation company, the Yukon, Tanana, No. 3 and No. 4, which have been launched recently from the tide flats, where they have been since last summer. The four vessels will leave Seattle for St. Michael about May 25, in tow of either the steam schooner National City or the Brunsvick.

The steel tugs Alaska and Empire, also of the same company, will leave about the same time for St. Michael. Following the vessels of the Empire company will be the sternwheel steamer Quickstep, owned by A. E. Clavin, of Boston. She will be towed north by the tug Resolute, leaving Seattle about May 28. The vessel was built last summer for the service on the Yukon, but when it was completed the tug was so far advanced that she was tied up in the Duwamish river where she has remained up to the present time. The Quickstep is one of the finest of the Yukon river craft built at Seattle.

Another vessel destined for the Yukon is the steamer Lotta Talbot, owned by Frank Waterhouse. The Talbot is another of the "held over" craft and she is at present receiving the finishing touches at Moran's ship yard. The Talbot will be towed to St. Michael by the tug New England, leaving Seattle some time in June. The New England is now on the ways at the yard receiving an overhauling in preparation for the trip.

The company proposes to first use electric power in running the elevators and other minor machinery of the plant, and if it gives satisfaction, then steam will be abandoned altogether in the operation of the plant. Assistant Superintendent W. Cargill states that he would not be surprised if electricity was used exclusively at the plant within less than a year.

The old electric plant has heretofore furnished the illumination at the packing house, and when the company decided to use electricity for other purposes it was necessary to enlarge the power house. Considerable new machinery has been ordered, including several large generators.

Increased Capital. TRENTON, N. J., May 19.—The Electric Vehicle company, one of the concerns recently formed by the Widener-Elkins-Whitney syndicate, today filed papers with the secretary of state increasing its capital stock from \$10,000,000 to \$12,000,000.
