

A BATTLE OCCURS

Between Americans and Filipinos.

FIFTY OF THE ENEMY KILLED

Americans Lose Two Officers and Twenty-One Wounded—Clearing the Country

MANILA, June 10.—Five hundred men under Lawson, Overhime and Wheaton advanced from San Pedro early this morning, driving the rebels out of the country between Bay Lake, south of Manila, and the Bay of Manila. The insurgents made a stubborn resistance, but were finally driven from their strong positions leaving 50 dead and many wounded behind. Two American officers were killed and 21 privates wounded. The cleaning-out process is being carried toward Paranaque. The heat is intense, and many Americans are being prostrated.

Later—the American forces entered in the advance consisted of six companies of the Colorado infantry, two battalions each of the Ninth and Twenty-first infantry, the Fourth cavalry, Thirteenth, and Fourteenth infantry, detachments of light and heavy artillery, and the Nevada cavalry. As soon as the advance began, the rebels at the outposts began firing on the Colorado troops in the van accompanied by the artillery and Nevada cavalry. This force opened the American return fire, and after a few volleys the Colorados charged the trenches. Several skirmish lines swept down on the entrenched Filipinos and poured a heavy fire into them. The rebels fought with unusual vigor, but an enfilading fire scattered them. The American troops then resumed their forward march, resting near Paranaque, which was shelled by the Monadnock and three other vessels soon after the American troops appeared. The rebels soon evacuated the city.

CIRCUS IN COUNCIL

Over a License for a Circus to Exhibit.

The city council met in special session this afternoon to consider the license to be placed on the Ringling Bros' circus, which will exhibit in this city next Friday. City Comptroller Parry read the ordinance governing such shows, and then stated that a great deal of trouble had been experienced in collecting the license from circuses. The ordinance provides that not less than \$500 a day shall be paid as a license fee. Ringling Bros. was present, and gave his opinion as to how much should be paid. He says the amount of license charged in Denver, Portland, and other large cities, and intimated that he thought a license of \$150 a day would be sufficient. He

also stated that Ringling Bros. brought their entire show, and did not allow grafters or confidence men to accompany them. Different members of the council spoke on the subject, and Councilman Crichton moved that the license be placed at \$225. Councilman Gill moved that the license be only at \$1000. Councilman Hill spoke in favor of Gill's motion, and Gill stated that he did not think it was just to "rub it into the circus." "Theatrical companies," he said, "come and take more money out of the city than all of the citizens, and I don't think discrimination is just."

TO IDENTIFY WOOD.

A number of men left yesterday afternoon for Portland for the purpose of identifying John Wood, alias William Jones, the alleged land swindler, who is held under arrest at that place. As soon as his identity is confirmed, he will be brought to Seattle for trial.

BOLD ROBBERY IS DISCOVERED

W. E. Schwede's cigar and confectionary store situated on the triangular square within a block of police headquarters, was entered some time last night, and goods to the amount of \$100 were carried away. The burglars effected their entrance through the rear end of the building. An auger hole was first bored in, and then a saw cut large enough to admit the body of a man was sawed out.

The rear of the building is completely screened by bill boards. Among the articles missing are 1100 cigars, 30 pounds of smoking tobacco and \$4 in postage stamps. Detective Williams has investigated the case and expresses his opinion that the job was performed by boys who were acquainted with the premises.

TACOMA, June 10.—The reorganization of the Tacoma Land company will be effected about the first of July, but the election of officers and the selection of a manager will not be made known until after Saml. TWO CHILDREN KIDNAPPED

Late yesterday afternoon two pretty little girls, Adelaide and Hazel Shawl, the daughters of Aaron Shawl, formerly of North Seattle, who were kidnapped about eight months ago from the California society for the Prevention of Cruelty to Children at San Francisco, were discovered on Pike street with their mother, who goes by the name of Mrs. John B. Downie. The little ones were taken possession of by Deputy Sheriffs Wilson and Burke. Today the mother swore out a writ of habeas corpus, which is returnable Monday. Over a year ago Mrs. Downie left her former husband because of alleged ill-treatment, and taking her children went to San Francisco. Mr. Shawl followed after his arrival there had the children taken away from the mother on charges of cruelty. Mrs. Downie was afterwards divorced, and she then remarried. She kidnapped her children from the home, and disappeared, and was lost trace of until yesterday. She claims she did not mistreat her children, and the little ones sob piteously and say they will not leave their mother.

STEAMERS TO LEAVE

Roanoke, Alliance and Lakme

DEPART FOR THE NORTH TODAY

The Lists of Passengers Include Many Who Go to Seek Their Fortunes.

Three steamers, loaded deep in the water with freight and carrying many passengers, will leave today for St. Michael. They are the Roanoke, belonging to the North American Trading & Transportation company, the Lakme, of the Seattle-Yukon Transportation line, and the Alliance, of the Empire Transportation line. The Lakme was scheduled to sail last evening, but was detained on account of freight.

To judge from the large number of persons going north from Seattle, it would appear that the rush of travel to the goldfields of the north this summer will be greater even than it was last year. Every available berth has been taken on the Roanoke, and the other steamers carry many passengers.

A large number of the Roanoke's passengers are in the employ of the company. The remainder are miners and steamboat men. While some of the passengers will disembark at St. Michael, the remainder will be landed at Cape Nome, to which place the steamer proceeds.

On the return trip of the Roanoke, she will in all probability bring out the first 1899 shipment of Klondike gold from the banks of Dawson to the value of at least \$200,000. Barring unforeseen delays, the Roanoke should be back by July 1. It is the intention of the N. A. T. & T. company to operate the steamer for three trips from Seattle to the Yukon this season, namely in June, July and August.
